See Table 1 footnotes on next page.

**TABLE I. (Continued) Provisional cases of infrequently reported notifiable diseases (<1,000 cases reported during the preceding year) — United States, week ending February 9, 2013 (6th week)\***

—: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts.  
 \* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>.  
 † Calculated by summing the incidence counts for the current week, the 2 weeks preceding the current week, and the 2 weeks following the current week, for a total of 5 preceding years. The total sum of incident cases is then divided by 25 weeks. Additional information is available at <http://www.cdc.gov/nndss/document/5yearweeklyaverage.pdf>.  
 ‡ Not reportable in all states. Data from states where the condition is not reportable are excluded from this table except starting in 2007 for the arboviral diseases, STD data, TB data, and influenza-associated pediatric mortality, and in 2003 for SARS-CoV. Reporting exceptions are available at [http://www.cdc.gov/nndss/document/SRCA\\_FINAL\\_REPORT\\_2006-2010.xlsx](http://www.cdc.gov/nndss/document/SRCA_FINAL_REPORT_2006-2010.xlsx).  
 § Includes both neuroinvasive and nonneuroinvasive. Updated weekly from reports to the Division of Vector-Borne Infectious Diseases, National Center for Zoonotic, Vector-Borne, and Enteric Diseases (ArboNET Surveillance). Data for West Nile virus are available in Table II.  
 \*\* National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported for the columns labeled: Current week, Cum 2013, 5-year weekly average, and Total cases reported for 2012. The actual number of cases in these columns may vary from the data reported in this Table.  
 †† Data for *H. influenzae* (all ages, all serotypes) are available in Table II.  
 ‡‡ Updated weekly from reports to the Influenza Division, National Center for Immunization and Respiratory Diseases. Since September 30, 2012, 64 influenza-associated pediatric deaths occurring during the 2012-13 influenza season have been reported.  
 ¶¶ No measles cases were reported for the current week.  
 \*\*\* Data for meningococcal disease (all serogroups) are available in Table II.  
 ††† CDC discontinued reporting of individual confirmed and probable cases of 2009 pandemic influenza A (H1N1) virus infections on July 24, 2009. During 2009, four cases of human infection with novel influenza A viruses, different from the 2009 pandemic influenza A (H1N1) strain, were reported to CDC. The four cases of novel influenza A virus infection reported to CDC during 2010, the fourteen cases reported during 2011, and the 313 cases reported in 2012 are different from the 2009 pandemic influenza A (H1N1) virus. Total case counts are provided by the Influenza Division, National Center for Immunization and Respiratory Diseases (NCIRD).  
 §§§ No rubella cases were reported for the current week.  
 ¶¶¶ Updated weekly from reports to the Division of STD Prevention, National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention.  
 \*\*\*\* There were no cases of viral hemorrhagic fever reported during the current week. See Table II for dengue hemorrhagic fever.

**FIGURE I. Selected notifiable disease reports, United States, comparison of provisional 4-week totals February 9, 2013, with historical data**

\* Ratio of current 4-week total to mean of 15 4-week totals (from previous, comparable, and subsequent 4-week periods for the past 5 years). The point where the hatched area begins is based on the mean and two standard deviations of these 4-week totals.

C.N.M.I.: Commonwealth of Northern Mariana Islands.

U: Unavailable. —: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts. Med: Median. Max: Maximum.

\* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>. Data for TB are displayed in Table IV, which appears quarterly.

† National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported in all columns of this table. The actual number of cases in each column may vary from the data reported in this Table.

U: Unavailable. —: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts. Med: Median. Max: Maximum.

\* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>. Data for TB are displayed in Table IV, which appears quarterly.

† Cumulative total *E. ewingii* cases reported for year 2012 = 13, and 0 cases reported for 2013.

§ National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported in all columns of this table. The actual number of cases in each column may vary from the data reported in this Table.

U: Unavailable. —: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts. Med: Median. Max: Maximum.

\* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>. Data for TB are displayed in Table IV, which appears quarterly.

† National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported in all columns of this table. The actual number of cases in each column may vary from the data reported in this Table.

C.N.M.I.: Commonwealth of Northern Mariana Islands.

U: Unavailable. —: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts. Med: Median. Max: Maximum.

\* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>. Data for TB are displayed in Table IV, which appears quarterly.

† National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported in all columns of this table. The actual number of cases in each column may vary from the data reported in this Table.

§ Includes *E. coli* O157:H7; Shiga toxin-positive, serogroup non-O157; and Shiga toxin-positive, not serogrouped.

C.N.M.I.: Commonwealth of Northern Mariana Islands.

U: Unavailable. —: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts. Med: Median. Max: Maximum.

\* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>. Data for TB are displayed in Table IV, which appears quarterly.

† Includes drug resistant and susceptible cases of invasive *Streptococcus pneumoniae* disease among children <5 years and among all ages. Case definition: Isolation of *S. pneumoniae* from a normally sterile body site (e.g., blood or cerebrospinal fluid)

§ National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported in all columns of this table. The actual number of cases in each column may vary from the data reported in this Table.

C.N.M.I.: Commonwealth of Northern Mariana Islands.

U: Unavailable. —: No reported cases. N: Not reportable. NN: Not Nationally Notifiable. Cum: Cumulative year-to-date counts. Med: Median. Max: Maximum.

\* Case counts for reporting year 2012 and 2013 are provisional and subject to change. For further information on interpretation of these data, see <http://www.cdc.gov/nndss/document/ProvisionalNationalNotifiableDiseasesSurveillanceData20100927.pdf>. Data for TB are displayed in Table IV, which appears quarterly.

† Updated weekly from reports to the Division of Vector-Borne Infectious Diseases, National Center for Zoonotic, Vector-Borne, and Enteric Diseases (ArboNET Surveillance). Data for California serogroup, eastern equine, Powassan, St. Louis, and western equine diseases are available in Table I.

§ National notifiable disease data transmitted to the CDC from reporting jurisdictions via the HL7 format after January 24, 2013 are unavailable due to technical delays in processing. See [http://www.cdc.gov/nndss/document/hl7\\_conditions\\_2012-2013.xlsx](http://www.cdc.gov/nndss/document/hl7_conditions_2012-2013.xlsx) for a complete list of conditions and jurisdictions that may be affected. In any given week, reporting jurisdictions are able to notify CDC of new, updated, or deleted provisional cases occurring in the current week or previous weeks during 2013 and 2012. The processing delay could potentially affect the total cases reported in all columns of this table. The actual number of cases in each column may vary from the data reported in this table.

¶ Not reportable in all states. Data from states where the condition is not reportable are excluded from this table, except starting in 2007 for the domestic arboviral diseases and influenza-associated pediatric mortality, and in 2003 for SARS-CoV. Reporting exceptions are available at [http://www.cdc.gov/nndss/document/SRCA\\_FINAL\\_REPORT\\_2006-2010.xlsx](http://www.cdc.gov/nndss/document/SRCA_FINAL_REPORT_2006-2010.xlsx).

Morbidity and Mortality Weekly Report

U: Unavailable. —: No reported cases.

\* Mortality data in this table are voluntarily reported from 122 cities in the United States, most of which have populations of >100,000. A death is reported by the place of its occurrence and by the week that the death certificate was filed. Fetal deaths are not included.

† Pneumonia and influenza.

§ Because of changes in reporting methods in this Pennsylvania city, these numbers are partial counts for the current week. Complete counts will be available in 4 to 6 weeks.

¶ Total includes unknown ages.
