The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

NCES, IES, U.S. Department of Education

## **I. Introduction to the NCES Common Core of Data Public Elementary/Secondary School Universe Survey: School Year 2010–11, Version Provisional 2a**

The Common Core of Data (CCD) nonfiscal surveys consist of data submitted annually to the National Center for Education Statistics (NCES) by state education agencies (SEAs) in the 50 states, the District of Columbia, Puerto Rico, the four U.S. Island Areas (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands), the Department of Defense Education Activity (DoDEA), and the Bureau of Indian Education (BIE). In order to provide data comparable across states to the maximum extent feasible, NCES and SEAs have worked since the 1950s to develop and accept common data items and definitions. SEAs report school-, agency-, and state-level education data for the CCD through the U.S. Department of Education’s *EDFacts* collection system. CCD survey staff<sup>1</sup> edits the data to produce a clean data file, which NCES uses to construct general-purpose publications and specialized reports. The principal users of CCD nonfiscal data are the federal government; the education research community; state and local government officials, including school boards and local education agency (LEA) administrators; and the general public.

The purpose of the CCD nonfiscal surveys is to provide a listing of all schools and agencies providing free public elementary and secondary education, along with basic descriptive statistical information on each school and agency listed. The CCD includes all settings in which free public education is provided to children. However, some SEAs do not provide information on education outside of the traditional public school system—such as schools in correctional facilities or hospitals—while others do provide this information. As defined in the *EDFacts* file specifications, a school is an institution that provides educational services and:

- Has one or more grade groups (prekindergarten through 12) or is ungraded
- Has one or more teachers
- Is located in one or more buildings
- Has assigned administrator(s)
- Receives public funds as its primary support, and
- Is operated by an education agency.

In the 2010–11 CCD Public Elementary/Secondary School Universe Survey, there are 103,813 records—one for each public elementary and secondary school in the 50 states, the District of Columbia, Puerto Rico, the four U.S. Island Areas, the DoDEA schools, and the BIE. Schools coded as being open in the 2009–10 file, but coded as closed in the 2010–11 file (2,076 schools), will be kept on the file for one year, and then removed (i.e., they do not appear in files for subsequent years). Closed schools are indicated by a value of ‘2’ for the variable STATUS. Excluding closed schools, there are 101,737 schools on the 2010–11 file. Of these 101,737 schools, 91,366 are regular elementary and secondary, 2,240 are special education, 1,529 are vocational/technical, and 6,602 are other/alternative schools. For a count of all school types, including closed schools, see Table B-3. The DoDEA and American Samoa did not report data

---

<sup>1</sup> CCD survey staff collectively refers to staff that are employed by NCES as well as staff who are employed by other organizations who perform collection, editing, and processing tasks on behalf of NCES. For 2010–11 these organizations included staff at the U.S. Census Bureau and the American Institutes for Research.

for the 2010–11 school year. CCD staff updated their school universe data using information from the SEAs’ websites<sup>2</sup> and all the other data items were left as missing.

The organizational structures of public elementary/secondary school systems vary widely. The CCD system is designed to capture that complexity. In 2010–11, 90 percent of schools provided a conventional curriculum and are classified in CCD as “regular” schools; the other 10 percent of schools provided special education, vocational education or other, alternative curricula. At the school district<sup>3</sup> level in 2010–11, 75 percent of school districts were local education agencies or members of supervisory unions; CCD tabulates these as “regular” districts. The other 25 percent of districts include supervisory unions; regional, state and federal agencies; charter and unclassified (“other”) districts. Both the school and agency files include type variables that make these distinctions. See the glossary in this document (Appendix C) for the complete typologies.

The Public Elementary/Secondary School Universe file includes data for the following variables: NCES school ID number, state school ID number, name of the school, name of the agency that operates the school, mailing address, physical location address, phone number, school type, operational status, locale code, latitude, longitude, county number, county name, full-time-equivalent (FTE) classroom teacher count, low/high grade span offered, Congressional district code, school level, free lunch eligible students, reduced-price lunch eligible students, total free and reduced-price lunch eligible, and student totals and detail (by grade, by race/ethnicity, and by sex). The file also contains flags indicating whether a school is Title I eligible, schoolwide Title I eligible, a magnet school, a charter school, a shared time school, a BIE school,<sup>4</sup> which grades are offered at the school and if the school was reconstituted due to Annual Yearly Progress (AYP) reasons.

The remainder of this document contains a user’s guide and four appendixes. The user’s guide contains information on CCD methodology, including certain conditions that are unique to this data file.

- **Appendix A—Record Layout** gives the variable names and labels of the data elements discussed throughout the documentation, as well as their location in the data file.
- **Appendix B—Value Distribution, Field Frequencies, and Data Tables** indicates the minimum, maximum, and mean values for each continuous variable as well as the frequency, percentage, cumulative frequency, and cumulative percent of all categorical variables. Data tables are also provided for select statistics by state or jurisdiction.
- **Appendix C—Glossary** defines all of the CCD data items.
- **Appendix D—State Notes** provides comments for data users on individual states.

---

<sup>2</sup> The DoDEA website is <http://www.am.dodea.edu/ddessasc/districts/schools.html>; American Samoa’s SEA web site is: <http://www.doe.as/index.jsp>.

<sup>3</sup> Although school districts may be regional, state or federal agencies, the terms “school district” and “local education agency”, and “LEA” are used interchangeably in this report.

<sup>4</sup> Starting with the 2009–10 school year, the variable “BIES” was added to the school file to indicate a state-reported school that was also reported by the Bureau of Indian Education.

## II. User's Guide

### A. Methodology

The *EDFacts* data collection system is the primary collection tool for the CCD. NCES works collaboratively with the Department of Education's Performance Information Management Service to develop the CCD collection procedures and data definitions. Coordinators from State Education Agencies (SEAs) submit the CCD data at different levels (school, agency, and state) to the *EDFacts* collection system. Prior to submitting CCD files to *EDFacts*, SEAs must collect and compile information from their respective Local Education Agencies (LEAs) via established administrative records systems within their state or jurisdiction. Once SEAs have completed their submissions, the CCD survey staff analyzes and verifies the CCD for quality assurance. CCD survey staff routinely verified data through SEA coordinators and did not contact LEAs or individual schools to verify data except in unusual circumstances. In some cases CCD survey staff used SEAs', LEAs' or schools' public web sites to verify data. After performing edit and consistency checks, CCD survey staff referred discrepancies to SEA coordinators for resolution. It is CCD policy to accept the judgment of the respondent unless there is a clear conflict or unacceptable inconsistency. SEAs may submit corrected data to *EDFacts* for up to 3 years after their initial submissions.

In the context of the CCD, a school is an organization composed of students and staff.<sup>5</sup> The CCD school definition recognizes that this organization may encompass several locations but must have a single contact point, which is the mailing address entered on the CCD school record. There may be situations in which students are attending two schools at the same time (e.g., a regular school and a vocational school). In these situations, the student is counted where he/she receives education for the majority of the time.

States report data to the *EDFacts* collection system through multiple file groups that are submitted on a reporting schedule at different dates throughout the year. The requested reporting schedule is summarized in the table below.

---

<sup>5</sup> Schools in the CCD may have no reported enrollment but still serve students because students can only be reported among the membership of one school. For example, a vocational school may serve students who are dually enrolled in a regular school and the regular school reports their membership. This vocational school serves students, but would have no reported enrollment in the CCD because the students are included in the membership of the regular school. (See *EDFacts* Membership File Specifications (N052), page 6.)

Table 1: Due dates for CCD Data File Groups

CCD-Related Data File Groups	EDFacts Due Date	NCES Due Date for revised data
2010–11 N029 (Directory)	01/31/2011	02/28/2011
2010–11 N002 (IEP data)	01/31/2011	06/30/2011
2010–11 N039 (Grades Offered)	01/31/2011	06/30/2011
2010–11 N033 (Free and Reduced Price Lunch)	03/31/2011	06/30/2011
2010–11 N129 (CCD School – Shared Time; Title I status; Magnet school status)	03/31/2011	06/30/2011
2010–11 N052 (Membership)	03/31/2011	06/30/2011
2010–11 N046 (English language learner data)	04/30/2011	06/30/2011
2010–11 N059 (Staff)	05/31/2011	06/30/2011

The specifications for these data files are available online at <http://www2.ed.gov/about/inits/ed/edfacts/file-specifications.html>. The 2010–11 school year EDFacts collection of CCD submissions opened in January 2010. NCES extracted data from EDFacts between January 10, 2011 and November 15, 2011. In addition, NCES extracted data for the updated provisional 2a file on July 18, 2012. CCD processed these file groups on a flow basis, so the date of the extract for each file group and each state may vary depending on when SEAs completed their submission for each file group. Once a file group was edited and verified for a particular state, CCD survey staff did not continue to incorporate late reports or updates unless these late reports or updates resulted in a major change of the reported data. Late reports or updates from SEAs may be included in subsequent file releases.

Once CCD survey staff complete the collection and review of the CCD directory data, Census Bureau staff assign geographic elements (latitude, longitude, locale, congressional district, and county) based on the school location address.

***Special collection effort to improve data quality***

This revised data file includes corrections that were provided to NCES as a result of a special collection effort designed to address data quality issues found in the 1a release of this file. In May 2012, NCES became aware of data errors for key data items for several schools on the published version of the SY 2009–10 school file; in some cases these errors also affected district level data on the published 1a version of the LEA universe files for SY 2010–11. As a result, NCES conducted an in depth quality review of both the school and LEA universes for both the published SY 2009–10 school and LEA universe files and not yet published SY 2010–11 school and LEA universe files. During this review, NCES developed a revised editing strategy that more accurately identified data items that were likely to have errors. The review focused on

school and school district enrollment, grade 12 enrollment, and free and reduced price lunch variables and related ratios such as pupil/teacher ratio, percent of enrollment from grade 12, and percent of students eligible for free and reduced price lunch. In the past data items were only compared to the reported data from the prior year for each school or LEA. The revised methodology used data from multiple years and was applied to both the reported data items and related ratios. Specifically, an average variation over the prior 4 years was computed based on the differences between each year and the other 3 years. Then, the average variation between the target year and the four preceding years was computed based on the differences between target year and each of the 4 prior years. The average variation for the target year was compared to the average variation among the prior years; cases with large differences were flagged as potential errors. Additionally, a requirement was added that in order for an item to be identified as a potential error, both the count and a related ratio must be identified as potential errors. For example, for total student membership to be flagged as a potential error, both total membership and a related ratio, such as pupil/teacher ratio, must be flagged.

NCES subsequently applied this revised editing methodology to both the SY 2009–10 and SY 2010–11 school and LEA universe files. This resulted in identification of over 1,000 questionable data items in the school and LEA universe files for both school years. In June 2012, NCES generated edit reports for each state with affected data items and provided these to the SEA *EDFacts* coordinators asking them to submit corrected data or provide a justification for the large variation in the reported data. In most cases, SEAs provided corrections of the data items in question or provided an acceptable explanation for the apparent data anomaly. CCD survey staff reviewed the revised data and explanations submitted by SEAs to ensure that revised data were of acceptable quality and that any unchanged items were adequately explained. For data items that were not adequately resolved CCD survey staff applied suppression codes indicating that these items did not meet NCES data quality standards. This documentation is based on the 2010–11 provisional version 2a data file, which contains revisions to only the data items that NCES identified as potential errors during this process.

### ***Comments About the Public Elementary/Secondary School Universe Survey Data File***

Users of the data file need to be aware of certain characteristics of the file.

*Coverage.* The coverage of the Public Elementary/Secondary School Universe Survey includes all public schools providing education services to prekindergarten, kindergarten, grade 1–12, and ungraded students. There are 58 responding units: the 50 states, the District of Columbia, Puerto Rico, the Bureau of Indian Education, the Department of Defense Education Activity (DoDEA) and the four U.S. Island Areas. The DoDEA and American Samoa did not report data for the 2010–11 school year. Their school directory information was taken from their SEAs' websites and all the other data items were left as missing. Starting with the 2010–11 CCD, the DoDEA schools were combined into one reporting entity identified in the file by an ANSI value of 63.

*Response.* Item response is described in Appendix B—Value Distribution, Field Frequencies, and Data Tables. This appendix lists the minimum, maximum, and mean value of each numeric

variable as well as the total number of units and the number of units with missing data. Appendix B also lists the frequency of responses by option for each of the categorical values.

*Nonsampling error.* Nonsampling error is the error in an estimate arising at any stage in the survey from sources exclusive of sampling error. Nonsampling error includes nonresponse error; data processing or data entry errors, or reporting error because respondents misinterpret survey questions or do not follow survey instructions or do not follow the item definitions correctly. State education policies may differ in such a way that does not allow them to map their data exactly to the CCD definitions. For example, some states issue several kinds of high school credentials, while other states issue a regular diploma to every student who meets requirements (which may also vary). Another source of nonsampling error may be variations in the reference period for the reported data. For example, CCD requests data for October 1 of each school year, but a state may report their information for another date because they were not able to capture the data for October 1. If specific discrepancies are known, these are provided in Appendix D “State Notes.”

*Coverage error and vertical consistency.* Coverage error is another source of nonsampling error; for example, the same agency or school could be reported twice (overcoverage) or an agency or school could be omitted (undercoverage). Although CCD coverage of traditional (i.e., regular; see glossary in appendix C for definition) public schools and school districts is virtually 100 percent, the same cannot be said for publicly funded education outside of traditional settings and organizations. The CCD asks states to report all free elementary/secondary public education in their state regardless of who administers the schools or districts. However, some states do not report schools that are administered by state organizations other than SEAs (such as a health and human services or a corrections department). These schools include schools for the deaf and blind, university lab schools, and other schools not covered by the authority of the SEA. Conversely, when these institutions are correctly reported on the CCD school and agency universe files, the students and teachers may not be included in the count of persons for whom the state assumes responsibility in its official report.

NCES attempts to minimize nonsampling error through the use of annual training of SEA coordinators, extensive quality reviews, and survey editing procedures.

*Longitudinal consistency.* Although longitudinal consistency is a key principle of the CCD, it is impossible for NCES to guarantee that state data coordinators follow CCD conventions regarding the deletion of closed schools or agencies and the addition of new ones. Confusion is particularly likely when local education agencies merge. Coverage issues (deletions of schools/agencies, merging of schools/agencies) can affect the ability to track a given school/agency over time.

*Missing value options.* All data elements are either completed by the state or have been filled with a “0,” “-1,” “-2,” “-9,” “M,” or “N.”

- 0 – There are no occurrences of this data element. A value was expected and measured, but there were no cases in the category. (For example, a high school having no 12th-graders would report 0.)
- M (or -1 for numeric values) – Data are missing. A value was expected and none was measured. (For example, a school that has at least one 12th-grader but cannot measure the number of 12th-graders would report -1.)
- N (or -2 for numeric values) – Data are not applicable. A value was neither expected nor measured. (For example, an elementary school would report -2 for 12th-graders.)
- -9 – The submitted data item does not meet NCES data quality standards. This value would only occur with numeric values.

Note that starting with the 2002–03 CCD, all numeric fields contain a -1 to indicate “missing” and a -2 to indicate “not applicable.” Previously, numeric fields contained an “M” for missing and an “N” for not applicable. Character fields continue to use “M” for missing and “N” for not applicable. Starting with the 2009–10 provisional 2a file, the numeric fields contain a -9 to indicate that the data do not meet NCES data quality standards.

Since negative numeric values represent missing or nonapplicable data and not actual data values, users may want to recode these before performing data analysis. The following SAS code can be used to convert negative values to “missing” in the SAS data file:

```
data new;
  set sc102a;
  array remove (*) _numeric_;
  do i = 1 to dim (remove);
    if remove (i) < 0 then remove (i) = .;
  end;
  drop i;
run;
```

In the 2010–11 collection, *EDFacts* allowed states to report null values (i.e., no value at all for a cell), which are not accepted by the CCD. CCD survey staff edited null values to missing, not applicable, or zero as appropriate. Appendix D identifies missing and not applicable data items for each state.

*BIE Schools.* There are 11 schools that are reported by both the Bureau of Indian Education and state education agencies, leading to duplicate records on the data file. These schools are run by BIE, but they also receive federal funds or federally funded services through the state. To avoid double counting of schools or students, NCES created the BIES flag. This flag has a value of either ‘1’ or ‘2’; a value of ‘1’ indicates a school reported by a state that is also reported by BIE. All other schools, including all BIE schools, have a value of ‘2’ in this field. Users trying to match NCES tabulations should exclude records with a flag set to ‘1’ from their analysis.

*New York City Schools.* New York City is shown in NCES reports as a single school district. However, “New York City Public Schools” is reported in CCD as a supervisory union comprising 32 “geographic districts” and an additional “special schools” district. To aggregate NYC school data to the supervisory union, researchers must first merge the UNION variable from the agency file onto the school file (by LEAID), then select schools with a state ANSI code equal to 36 and a supervisory union ID equal to 300.

### ***Comments About the Variables***

Data users should also take note of certain conditions regarding each variable in the file. The code in parentheses before the variable description indicates the variable name, which is also referenced in appendix A. Counts are based on schools with STATUS = 1, 3, 4, 5, 6, 7, or 8 only. (Operational status codes are defined below.)

(FIPST) ANSI<sup>6</sup> State Codes. Each record contains an American National Standards Institute (ANSI) state code. A list of ANSI codes for each state and jurisdiction is presented in table 2.

(LEAID) NCES Local Education Agency ID. Each record contains a unique NCES Local Education Agency ID number assigned to each record. The first two characters of this number are the ANSI code.

(SCHNO) NCES School ID. Each record contains a unique NCES school identification number. Combining the NCES Local Education Agency ID with the NCES School ID allows the user to uniquely identify each school on the file.

(STID) State Local Education Agency ID. Each record contains a State Local Education Agency ID. State Local Education Agency ID numbers are assigned by SEAs and may not be unique across states.

(SEASCH) State School ID. Each record contains a State School ID. State School ID numbers are assigned by SEAs and may not be unique across states.

(LEANM) Name of Education Agency. Each record includes the name of the agency that operates the school. NCES reviewed any record filling the 60 characters assigned, and may have edited the agency name to improve readability (i.e., applied standard abbreviations).

(SCHNAM) Name of School. Each record has a school name. NCES reviewed any record filling the 50 characters assigned, and may have edited the school name to improve readability (i.e., applied standard abbreviations).

(MSTREE) Mailing Street. This field may contain a street address or a P.O. Box number. Also, some mailing addresses consist solely of a city and state, indicated by an “N” in the street address

---

<sup>6</sup> American National Standards Institute (ANSI) codes replace the Federal Information Processing Standards (FIPS) codes previously issued by the National Institute of Standards and Technology (NIST) for the 50 states, the District of Columbia, and the U.S. Island Areas. ANSI code values map directly to the retired FIPS code values.

field. This field contains an “N” for 4 records in the data file and “M” for 1 record. If mailing street, city, state, and ZIP Code fields were left blank or missing, data from the corresponding location address fields were inserted.

(MCITY) Mailing City. There may be some valid cases in which a school may be located in one city and have a mailing address in another city.

(MSTATE) Mailing State (PO Abbreviation). Each record contains a mailing state. There are instances where a school that is part of one state’s education system reports a mailing address in another state; these situations have been confirmed by the reporting state. A list of the 12 schools that have a mailing state code different from their ANSI state code is included at the end of this document (see table 3).

(MZIP, MZIP4) Mailing ZIP Code +4. Each record displays a mailing ZIP Code in this field. The +4 may be left blank if it is unknown.

(PHONE) Area Code + Telephone Number. If a valid phone number was not provided for a school for the 2010–11 school year, NCES researched prior year data files back to the 2004–05 school year to determine if a valid phone number was reported for the school in a prior year. If a valid number was found in a prior year, this phone number was carried forward to the 2010–11 data file. After completing this editing process, phone numbers are missing (“M”) for 135 records and not applicable (“N”) for 10.

(LSTREE) Location Street. If the location street, city, state, and ZIP Code fields were left blank, data from the corresponding mailing address fields were inserted. In some instances, SEAs did not report physical locations for the location street field, but rather reported Post Office boxes and other addresses that did not represent the location of a school. NCES sponsored research to determine the physical location (and latitude and longitude coordinates) for these types of location street reports. Missing or nonlocation addresses (e.g., Post Office box numbers) were resolved through several means, including telephone calls to individual schools. In addition to this research, if a valid location street was not provided for a school for the 2010–11 school year, NCES researched prior year data files back to the 2004–05 school year to determine if a valid location street was reported for the school in a prior year. If a valid location street was found for a prior year, this value was carried forward to the 2010–11 data file. After completing this editing process, 174 schools have missing location street values.

(LCITY) Location City. 125 schools in DoDEA are missing location city. All other records have a value in this field.

(LSTATE) Location State (PO Abbreviation). 125 schools in DoDEA are missing location state. All other records have a value in this field.

(LZIP, LZIP4) Location ZIP Code + 4. Each record displays a location ZIP Code in this field. The +4 may be left blank if it is unknown

(TYPE) School Type Code. Each record contains a school type code.

- 1 = Regular school
- 2 = Special education school
- 3 = Vocational education school
- 4 = Alternative/other school
- 5 = Reportable program

Beginning with the 2007–08 school year, the CCD edits the reported school type if it does not agree with the CCD definition. For example, if a school name indicated that it focused primarily on the needs of students with disabilities or if the state reported that at least 80 percent of the students enrolled in the school had special education individual education programs (IEPs), NCES reclassified the school as a special education school. (The number of students with IEPs was reported to *EDFacts* collection system at the school and LEA level, but the CCD only contained IEP data at the LEA level.) Similarly, if a school name suggested that it was a vocational or alternative school, NCES researched the school through different resources (e.g., school website or education association) or by calling the school to determine if the school should be reclassified as a vocational or alternative school. NCES asked CCD Coordinators to review these reclassifications, and if they provided evidence that a school met the CCD criteria for the originally reported type, the school type was not changed.

(STATUS) Operational Status Code. Each record contains a status code to reflect the school’s operational status for the 2010–11 school year. Valid responses include the following:

- 1 = School was operational at the time of the last report and is currently operational.
- 2 = School has closed since the time of the last report.
- 3 = School has been opened since the time of the last report.
- 4 = School was operational at the time of the last report but was not on the CCD list at that time.
- 5 = School was listed in previous year’s CCD school universe as being affiliated with a different education agency.
- 6 = School is temporarily closed and may reopen within 3 years.
- 7 = School is scheduled to be operational within 2 years.
- 8 = School was closed on previous year’s file but has reopened.

Schools with an operational status code of “2” remain on the file for one year for historical purposes.

Code “6” and “7” response options for the STATUS field were added to the CCD starting with the 2002–03 file. Code “8” response option for the STATUS field was added to the CCD starting with the 2005–06 file.

(ULOCAL) Urban-centric Locale Code. The locale code is an indication of a school’s location relative to a populous area. Beginning with the 2006–07 CCD files, the locale code methodology was changed from a 1-digit code based on metropolitan statistical areas to a 2-digit code based on urban clusters. In order to distinguish the two methodologies, the older system of locale codes

is referred to as “metro-centric” and the current system is referred to as “urban-centric.” The methodology used to assign locale codes is provided at the end of this section.

American Samoa, the Commonwealth of the Northern Mariana Islands, Guam, the Virgin Islands, and the Department of Defense Education Activity schools were assigned a locale code as not applicable (N) because the geographic and governmental structures of these entities do not fit the definitional scheme used to derive the code. ULOCAL is missing (M) for 77 schools in the jurisdictions of Arizona (5 schools), the District of Columbia (7 schools), Idaho (5 schools), Massachusetts (11 schools), Michigan (9 schools), Mississippi (2 schools), Nebraska (1 school), New Jersey (8 schools), and North Carolina (29 schools) because the SEAs submitted new directory information for these schools after the file had undergone geocode processing.

The 12 urban-centric locale code categories are defined below. Locale codes are divided into four main locale types (city, suburb, town, and rural) and each of the four locale types has three subtypes (large, midsize, and small for city and suburb locale types and fringe, distant, and remote for town and rural locale types).

11 = City, Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more.

12 = City, Midsize: Territory inside an urbanized area and inside a principal city with population less than 250,000 and greater than or equal to 100,000.

13 = City, Small: Territory inside an urbanized area and inside a principal city with population less than 100,000.

21 = Suburb, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more.

22 = Suburb, Midsize: Territory outside a principal city and inside an urbanized area with population less than 250,000 and greater than or equal to 100,000.

23 = Suburb, Small: Territory outside a principal city and inside an urbanized area with population less than 100,000.

31 = Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area.

32 = Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.

33 = Town, Remote: Territory inside an urban cluster that is more than 35 miles of an urbanized area.

41 = Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from

an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.

42 = Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster.

43 = Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster.

(CDCODE) Congressional District Code. The Congressional District Code denotes legislatively defined subdivisions of a state for the purpose of electing representatives or delegates to the House of Representatives of the United States Congress. Starting in 2006–07, the Congressional Districts of the United States Code was added to the agency file. The ANSI code provides the structure of numeric codes for representing congressional districts and similar areas defined for the various Congresses of the United States. CDCODE is shown as missing (M) for 77 schools in the jurisdictions of Arizona (5 schools), the District of Columbia (7 schools), Idaho (5 schools), Massachusetts (11 schools), Michigan (9 schools), Mississippi (2 schools), Nebraska (1 school), New Jersey (8 schools), and North Carolina (29 schools) because the SEAs submitted new directory information for these schools after the file had undergone geocode processing. See appendix C for more information.

(LATCOD) Latitude. Latitude is the north or south angular distance from the equator, with positive values going north and negative values going south. When combined with longitude, it reflects an estimation of where the school is physically situated on the street segment to which it was coded. Coordinate degrees, minutes, and seconds have been converted to, and are displayed in terms of, their decimal equivalent. The digits to the left of the decimal point represent the number of degrees from the equator, and the digits to the right of the decimal point represent the fraction of the degree carried out to six decimal places. For example, if a building's latitude is 30 degrees, 30 minutes north, then it is shown as 30.500000. Addresses that could not be found at the Census block level were assigned a blank.

(LONCOD) Longitude. Longitude is the east or west angular distance from the prime meridian, with positive values going east and negative values going west. When combined with latitude, it reflects an estimation of where the school is physically situated on the street segment to which it was coded. Coordinate degrees, minutes, and seconds have been converted to, and are displayed in terms of, their decimal equivalent. The digits to the left of the decimal point represent the number of degrees from the prime meridian. The digits to the right of the decimal point represent the fraction of the next degree carried out to six decimal places. For example, if a building's longitude is 90 degrees, 15 minutes west, then it is shown as -90.250000. Addresses that could not be found at the Census block level were assigned a blank.

(CONAME) County Name. This field was added to the school file starting in 2002–03. The values for this field are determined by the Census Bureau based on the reported location address. CONAME is shown as missing (M) for 77 schools in the jurisdictions of Arizona (5 schools), the

District of Columbia (7 schools), Idaho (5 schools), Massachusetts (11 schools), Michigan (9 schools), Mississippi (2 schools), Nebraska (1 school), New Jersey (8 schools), and North Carolina (29 schools) because the SEAs submitted new directory information for these schools after the file had undergone geocode processing.

(CONUM) ANSI County Code. This field was added to the school file starting in 2002–03. The values for this field are determined by the Census Bureau based on the reported location address. A small number of supervisory unions in New England states have an ANSI county code that differs from the county in which the school is physically located. CONUM is missing (M) for 77 schools in the jurisdictions of Arizona (5 schools), the District of Columbia (7 schools), Idaho (5 schools), Massachusetts (11 schools), Michigan (9 schools), Mississippi (2 schools), Nebraska (1 school), New Jersey (8 schools), and North Carolina (29 schools) because the SEAs submitted new directory information for these schools after the file had undergone geocode processing.

(FTE) FTE Teachers. A school’s count of full-time-equivalent teachers is collected to the nearest hundredth. Some schools may report teachers, but no pupils, while other schools may report pupils in membership but no teacher FTE. These are valid records indicating situations in which more than one school provides services to pupils, but the pupils are attributed to a single school to avoid double counting, or where a teacher provides services to pupils at multiple schools. An example of the former situation might be a vocational school whose pupil membership is attributed to the high school that sends its pupils to obtain vocational services.

Because teacher counts are collected at all three levels of the CCD files (school, agency, and state), one data anomaly is that the sum of teacher counts aggregated from the lower level to the state level may exceed the sum of teacher counts from a higher level aggregated to the state level (i.e., school FTE data aggregated to the state level may exceed agency-level FTE data aggregated to the state or state-level reported data). Beginning with school year 2008–09, if the sum of teacher FTE aggregated to the state level reported on the school file exceeded the sum of teacher FTE aggregated to the state on the agency file or exceeded state file reports, teacher FTE may have been edited on one or more of the three levels. School-level FTE aggregated to the agency level is allowed to exceed agency-level FTE reports.

(GSLO, GSHI) Low/High Grade Span Offered. The lowest and highest grades offered in each school was calculated by NCES using two types of information reported by states: (1) binary ‘grade offered’ flags that indicate whether a given grade (e.g., prekindergarten, kindergarten, grade 1) was offered by the school; and (2) reports of enrollment by grade.

(LEVEL) Level. A school-level code was added to the school file starting in 2000–01. This code indicates the instructional level of the school. The following codes were calculated from the school’s corresponding low/high grade span (GSLO/GSHI) values:

- 1 = Primary (low grade: PK through 03; high grade: PK through 08)
- 2 = Middle (low grade: 04 through 07; high grade: 04 through )
- 3 = High (low grade: 07 through 12; high grade: 12 only)
- 4 = Other (any other configuration not falling within the above three categories, including ungraded and operational schools with nonapplicable grade spans)

(MAGNET) Magnet School. If a state reports MAGNET = 2 for all its schools, then MAGNET is set to “N” (not applicable).

- 1 = Yes
- 2 = No

(CHARTER) Charter School. If a state reports CHARTER = 2 for all its schools and does not have charter school legislation, then CHARTER is set to “N” (not applicable).

- 1 = Yes
- 2 = No

(SHARED) Shared Time School. This flag denotes a shared time school. Typically, this is a school offering vocational/technical education or other education services, in which some or all students are enrolled at a separate “home” school and attend the shared-time school on a part-day basis.

- 1 = Yes
- 2 = No

(BIES) Bureau of Indian Education (BIE) School Flag. This field indicates whether or not a school was also reported by the Bureau of Indian Education in their submission of school data. This field was added to the school file starting in 2009-10.

- 1 = Yes.
- 2 = No.

Only states or jurisdictions other than the BIE can contain a value of “1” (“Yes”) for this flag.

(FRELCH) Free Lunch Eligible Students. This student count may be taken by a school at a different time than the membership count; therefore, free lunch and membership counts may not be comparable within a given school. In some states, a single school may provide the free lunch program for a cluster of schools; thus, the free lunch eligible count for the school providing

services may overrepresent the school's total membership. To avoid identifying specific students as eligible for free lunch, the reported number may have been edited.

(REDLCH) Reduced-Price Lunch Eligible Students. See preceding paragraph.

(TOTFRL) Total Free and Reduced-Price Lunch Eligible Students. If not reported, this total field was calculated using reported free and reduced-price lunch detail. To avoid identifying specific students as eligible for free lunch, the reported number may have been edited.

(RACECAT) Race/ethnicities category indicator. The data item RACECAT is a race/ethnicities category indicator that indicates whether the state reported student enrollment counts by five race/ethnicity categories or seven race/ethnicity categories. Prior to 2008–09, NCES asked states to report student enrollment counts by five racial/ethnic categories. For the 2008–09 and 2009–10 data collection, NCES asked states to submit counts of students by race/ethnicity by seven race/ethnicity categories if their state data system allowed for such reporting. Starting 2010–11, every state and jurisdiction should report student enrollment counts by seven racial/ethnic categories. The data item RACECAT contains two values:

5 = State reported student enrollment counts in the following five race/ethnicity categories: (a) American Indian/Alaska Native; (b) Asian/Pacific Islander; (c) Hispanic; (d) Black; and (e) White.

7 = State reported student enrollment counts in the following seven race/ethnicity categories: (a) American Indian/Alaska Native; (b) Asian; (c) Hispanic of any race; (d) Black; (e) White; (f) Hawaiian Native/Pacific Islander; and (g) Two or more races.

In the current file, for the states that reported five race/ethnicity categories (i.e., RACECAT=5), the variables related to the Asian race category include students who are Asian, Hawaiian Native, or Pacific Islander; for the states that reported seven race/ethnicity categories (i.e., RACECAT=7), the variables related to the Asian race category include Asian students only. In appendix A, the race/ethnicity categories represented by the five and seven reporting categories are followed by a notation of “(5)” or “(7),” respectively.

(TITLEISTAT) Title I School Status. This flag was added to the school file starting in 2010–11. It indicates whether and in which Title I program a school is eligible for participation under authorization of Title I of Public Law 103-382. There are two types of Title I programs: Targeted Assistance (TAS) and Schoolwide (SWP). Eligibility for either programs means the school is Title I eligible, regardless of whether they decide to provide a program to their students.

1 = School is eligible for Title I Targeted Assistance (TAS) but provides no program

2 = School is eligible for Title I Targeted Assistance (TAS) and provides TAS program

3 = School is eligible for Title I Schoolwide program (SWP) and provides TAS program

4 = School is eligible for Title I Schoolwide program (SWP) but provides no program

5 = School is eligible for Title I Schoolwide program (SWP) and provides Title I Schoolwide program

6 = School is not eligible for either Title I Targeted Assistance (TAS) or Schoolwide program

The following table shows how TITLEISTAT translates to TITLEI and STITLI.

TITLEISTAT	TITLEI	STITLI
1	1(Yes)	2 (No)
2	1(Yes)	2 (No)
3	1(Yes)	1(Yes)
4	1(Yes)	1(Yes)
5	1(Yes)	1(Yes)
6	2 (No)	N (Not Applicable)

(TITLEI) Title I Eligible School. This flag indicates whether a school is eligible for participation in either TAS or SWP program authorized by Title I of Public Law 103-382.

1 = Yes

2 = No

(STITLI) School-wide Title I. This flag indicates whether a school is eligible for participation in Schoolwide program authorized by Title I of Public Law 103-382.

1 = Yes

2 = No

(PKOFFRD, KGOFFRD, ..., UGOFFRD) Grade Offered. These flags indicate whether an individual grade is offered. For example, PKOFFRD indicates whether prekindergarten is offered and KGOFFRD indicates whether kindergarten is offered.

1 = Yes

2 = No

(RECONSTF) Reconstituted Flag. This flag indicates that the school was restructured, transformed, or otherwise substantially changed as a consequence of the state's accountability system, or as a result of a School Improvement Grant (SIG), but is not recognized as a new school for the CCD.

1 = Yes

2 = No

(RECONSTY) Reconstituted Year. This indicates the latest year that the school was reported as reconstituted.

Student membership (MEMBER), students by Grade (PK–12), by Race/Ethnicity, and by Sex. Membership is the count of students enrolled on October 1st of the school year. CCD collects membership counts at three levels: school, agency, and state. The total student membership reported by states at one level may often be different than what was reported at one or both of the other levels. In general, the total student membership on lower level file should be less than or equal to the total membership on higher level files. A common reason for these differences is that SEAs report a student membership in the school the student attends, but report a student's membership in the LEA that is financially responsible for the student. For example, a regular school district may not be able to provide services to students with special needs and may instead pay tuition for students to attend private schools that provide services to students with special needs. These students are then counted in the regular school district, but not in any of the schools in CCD school file. For states with membership discrepancies that exceed five percent of the lower level membership, CCD survey staff routinely follows up with SEAs and asks SEAs to verify the reported membership and provide explanations of the differences.

In school year 2008–09, CCD survey staff began editing student membership at one or more levels to ensure that the sum of the lower level membership does not exceed the sum of the higher level membership. CCD survey Staff applied this process to the 1a version of this file, but did repeat this process for the provisional 2a revision. As a result there may exist a limited number of cases where revised data caused a minor variation in the membership among the file levels.

Race/ethnicity data. Beginning with the 2008–09 school year, NCES began transitioning from five race/ethnicity categories for collection of aggregated data to seven race/ethnicity categories, which are American Indian, Asian, Native Hawaiian and Other Pacific Islander, Hispanic, Black, White, and Two or more races. In school years 2008–09 and 2009–10, NCES gave SEAs the option to choose between 5-category reporting and 7-category reporting. For the 2008–09 school year, five states reported their race/ethnicity data in the seven categories: Alaska, California, Massachusetts, New Jersey, and Vermont. For the 2009–10 school year, fourteen states reported their race / ethnicity data into the seven categories: Alaska, Arkansas, California, Georgia, Iowa, Kansas, Massachusetts, Mississippi, New Hampshire, New Jersey, New Mexico, Vermont, West Virginia and Wyoming. In 2010–11 NCES collected seven race categories from all 50 states and DC. For the 2010–11 school year, NCES asked that all SEAs report race/ethnicity data in seven categories, and all 50 States and DC successfully reported in seven categories. For more information on this change, please refer to the October 19, 2007 Federal Register notice, “Final Guidance from the Secretary on Maintaining, Collecting and Reporting Racial and Ethnic Data to the U.S. Department of Education,” located at <http://www2.ed.gov/legislation/FedRegister/other/2007-4/101907c.html>.

Ungraded Students by Race/Ethnicity and by Sex. The classification of “ungraded” is not used for students in Alabama, Alaska, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Louisiana, Maine, Maryland, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Mexico, North Dakota, Ohio, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia,

Wisconsin, Wyoming, American Samoa, the Bureau of Indian Education, Department of Defense Education Activity, Guam and the U.S. Virgin Islands.

### ***Locale Code Methodology***

Locale code is a geographic indicator that NCES has created for general description, sampling, and other statistical purposes. It is based upon the location of school buildings and, in some cases, may not reflect the entire attendance area or residences of enrolled students. The designation of each school's locale is based on its geographic location and population density. School locale codes are assigned by the Census Bureau from school addresses in the CCD files. Definitions of locale codes are contained in the "Comments About the Data Fields" section appearing earlier in this document. The urban-centric locale system is constructed from the same set of standard geographic concepts as the metro-centric system it replaces, but it prioritizes an urban approach that combines size and distance from an urbanized area.

Locale types (city, suburb, town, and rural) and subtypes (large, midsize, and small for city and suburb locale types and fringe, distant, and remote for town and rural locale types) were assigned to all schools in the 50 states, District of Columbia, and Puerto Rico. Locale codes were not assigned for U.S. Island Areas (the U.S. Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands) or the Department of Defense dependents schools (overseas). A geographic information system (GIS) was used to evaluate the spatial relationships of the various thematic layers included in the locale criteria. Distances for town and rural locale types were based on straight-line or Euclidean distance. Although this simple geometric measure does not account for the presence or absence of road networks that may offer point-to-point drive time estimates, it is also unaffected by short-term changes to the transportation infrastructure that could cause significant fluctuations in those estimates. The basic unit for these distance indicators—2.5 miles—was borrowed from the Census Bureau's criterion for connecting densely settled non-contiguous territory to a qualifying core of an urbanized area or an urban cluster during the urban delineation process. Distances used to define locale subtypes are multiples of the basic distance unit of 2.5 miles (i.e., 2.5, 5, 10, and 25 miles for rural; 10 and 35 miles for towns).

The U.S. Island Areas, Hawaii, and Puerto Rico were classified according to the proposed locale and subtype criteria that define the four locale types and three locale subtypes. Schools were spatially integrated with these territories based on school geocodes (i.e., their position was determined by each school's latitude and longitude). Third, the schools were assigned a locale and subtype based on their location (i.e., they received the same assignment given to the territory where they were located).

Table 2. American National Standards Institute (ANSI) state codes and abbreviations used in CCD datasets

State name/jurisdiction	ANSI <sup>1</sup>	Abbreviation <sup>2</sup>	State name/jurisdiction	ANSI <sup>1</sup>	Abbreviation <sup>2</sup>

<sup>1</sup> American National Standards Institute state codes (01–78).

<sup>2</sup> U.S. Postal Service state abbreviation codes.

<sup>3</sup> Not official U.S. ANSI state code. The state abbreviations for Department of Defense Education Activity are AA, AE, and AP to indicate schools located in Asia, Europe, and the Pacific, respectively. For domestic DoDEA schools and Bureau of Indian Education schools, state abbreviations correspond to the state in which the school is located.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data, "Public Elementary/Secondary School Universe Survey," 2010–11, Version Provisional 2a.

## **B. User Guidelines for Processing the Public Elementary/Secondary School Universe Survey Data Files**

Starting in 1999–2000, CCD data file names were changed to include a two-digit version number. The 2010–11 Public Elementary/Secondary School Universe Survey SAS file is called SC102A.SAS7bDAT. The flat ASCII file is named SC102A.DAT. The first two characters of the file name indicate the type of file (SC = School Universe, AG = Agency Universe, ST = State), the third and fourth characters indicate the file year (10 = 2010–11 CCD collection), and the fifth and sixth characters indicate the version number (2 = second version; A = released file). The record layout for the file is contained in appendix A.

If errors are discovered in the published provisional 2a files (final file, second version), or if states report new or corrected data, NCES may revise the file. The revised file will be named 3a, unless another revision of the original file has occurred sometime in that year due to an NCES error found in the file.

The revisions in this version include the following:

- Changes or corrections to data values resulting from the special collection effort to improve data quality that CCD conducted in the summer of 2012. Subsequent to this collection effort, suppressions were applied to membership data for 123 schools, staff data for 97 schools, and free and reduced price lunch data for 250 schools because these data items did not meet NCES data quality standards. In addition, membership data for 53 schools, staff data for 51 schools and free and reduced price lunch data for 97 schools were updated using data submitted by the states.
- Removal of the pupil-teacher ratio variable PUPTCH. The components of this calculated variable remain in the file so data users can produce the calculation if they choose.

## **C. Guidelines for Using the Flat ASCII Data File**

When using the flat ASCII data file, care should be taken to label the identification number variables (e.g., NCESSCH) as character fields. This is necessary in order to retain the leading zero in many of the identification numbers. It is necessary to keep the leading zeroes when merging these data with other files. This can be accomplished in Excel by using the ‘Import Wizard’ to select the ID fields and set them as text fields.

**Appendix A—Record Layout for the Common Core of Data Public Elementary/Secondary  
School Universe Survey: School Year 2010–11**

Page intentionally left blank.

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

(\*) Fields have two explicit decimal places, unless otherwise noted.

The file contains data for the school year 2010–11 sorted by the NCES assigned school identification code (NCESSCH). Data presented in this release are available in two formats—SAS datasets (.sas7bdat) and tab.

Note that starting with the 2002–03 CCD, all numeric fields contain a -1 to indicate missing and a -2 to indicate not applicable. Previously, numeric fields contained an “M” to indicate missing and an “N” to indicate not applicable. Character fields continue to use “M” for missing and “N” for not applicable. Starting with the 2009–10 version provisional 2a file, the numeric fields contain a -9 to indicate that the data do not meet NCES data quality standards.

Variable Name	Order	Data Type	Description
SURVYEAR	1	AN	Year Corresponding to Survey Record.
NCESSCH	2	AN	Unique NCES public school ID (7-digit NCES agency ID (LEAID) + 5-digit NCES school ID (SCHNO)).
FIPST	3	AN	American National Standards Institute (ANSI) state code.  <div style="display: flex; justify-content: space-between; font-size: small;"> <div style="width: 30%;">                     01 = Alabama 02 = Alaska 04 = Arizona 05 = Arkansas 06 = California 08 = Colorado 09 = Connecticut 10 = Delaware 11 = District of Columbia 12 = Florida 13 = Georgia 15 = Hawaii 16 = Idaho 17 = Illinois 18 = Indiana 19 = Iowa 20 = Kansas 21 = Kentucky 22 = Louisiana 23 = Maine                 </div> <div style="width: 30%;">                     24 = Maryland 25 = Massachusetts 26 = Michigan 27 = Minnesota 28 = Mississippi 29 = Missouri 30 = Montana 31 = Nebraska 32 = Nevada 33 = New Hampshire 34 = New Jersey 35 = New Mexico 36 = New York 37 = North Carolina 38 = North Dakota 39 = Ohio 40 = Oklahoma 41 = Oregon 42 = Pennsylvania 44 = Rhode Island                 </div> <div style="width: 30%;">                     45 = South Carolina 46 = South Dakota 47 = Tennessee 48 = Texas 49 = Utah 50 = Vermont 51 = Virginia 53 = Washington 54 = West Virginia 55 = Wisconsin 56 = Wyoming 59 = Bureau of Indian Education 60 = American Samoa 63 = Department of Defense Education Activity (DoDEA) 66 = Guam 69 = Commonwealth of the Northern Mariana Islands 72 = Puerto Rico 78 = Virgin Islands                 </div> </div>
LEAID	4	AN	NCES local education agency (LEA) ID.
SCHNO	5	AN	NCES school ID.  NOTE: SCHNO is a unique number within an LEA. By combining LEAID with SCHNO, each school can be uniquely identified within the total file (see NCESSCH above).
STID	6	AN	State’s own ID for the education agency.
SEASCH	7	AN	State’s own ID for the school.
LEANM	8	AN	Name of the education agency that operates this school.
SCHNAM	9	AN	Name of the school.
PHONE	10	AN	Telephone number of school.

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
MSTREE	11	AN	The mailing address of the school— may be a street address, a P.O. Box number, or, if verified that there is no address beyond CITY, STATE, and ZIP, the character “N.”
MCITY	12	AN	School mailing address city.
MSTATE	13	AN	Two-letter U.S. Postal Service abbreviation of the state where the mailing address is located (see ANSI state codes and abbreviations used in CCD dataset).
MZIP	14	AN	Five-digit U.S. Postal Service ZIP code for the mailing address.
MZIP4	15	AN	Four-digit ZIP+4, if assigned; if none, field is blank.
LSTREE	16	AN	School location street address.
LCITY	17	AN	School location city.
LSTATE	18	AN	Location state (two-letter postal abbreviation).
LZIP	19	AN	Location 5-digit ZIP Code.
LZIP4	20	AN	Location +4 ZIP Code.
TYPE	21	AN	NCES code for type of school:  1 = Regular school  2 = Special education school  3 = Vocational school  4 = Other/alternative school  5 = Reportable program (new code starting in 2007–08)

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
STATUS	22	AN	<p>NCES code for the school status:</p> <p>1 = School was operational at the time of the last report and is currently operational.</p> <p>2 = School has closed since the time of the last report.</p> <p>3 = School has been opened since the time of the last report.</p> <p>4 = School was operational at the time of the last report but was not on the CCD list at that time.</p> <p>5 = School was listed in previous year’s CCD school universe as being affiliated with a different education agency.</p> <p>6 = School is temporarily closed and may reopen within 3 years.</p> <p>7 = School is scheduled to be operational within 2 years.</p> <p>8 = School was closed on previous year’s file but has reopened.</p>

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
ULOCAL	23	AN	<p>NCES urban-centric locale code.</p> <p>NOTE: Starting in 2006–07, CCD data files contain a new locale code system that is based on the urbanicity of the school location. Prior to 2006–07, the locale code was assigned based on a school’s metro status. See appendix C, Glossary, for more detail.</p> <p>11 = City, Large: Territory inside an urbanized area and inside a principal city with population of 250,000 or more.</p> <p>12 = City, Mid-size: Territory inside an urbanized area and inside a principal city with a population less than 250,000 and greater than or equal to 100,000.</p> <p>13 = City, Small: Territory inside an urbanized area and inside a principal city with a population less than 100,000.</p> <p>21 = Suburb, Large: Territory outside a principal city and inside an urbanized area with population of 250,000 or more.</p> <p>22 = Suburb, Mid-size: Territory outside a principal city and inside an urbanized area with a population less than 250,000 and greater than or equal to 100,000.</p> <p>23 = Suburb, Small: Territory outside a principal city and inside an urbanized area with a population less than 100,000.</p> <p>31 = Town, Fringe: Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area.</p> <p>32 = Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.</p> <p>33 = Town, Remote: Territory inside an urban cluster that is more than 35 miles from an urbanized area.</p> <p>41 = Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.</p> <p>42 = Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster.</p> <p>43 = Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster.</p>
LATCOD	24	N	<p>Latitude. Based on the location of the administrative office, the value of LATCOD ranges from 14 to 71. It contains an explicit decimal point. The digits to the left of the decimal represent the number of degrees from the equator; the digits to the right of the decimal represent the fraction of the next degree carried out to six decimal places.</p>

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
LONCOD	25	N	Longitude. Based on the location of the administrative office, the value of LONCOD ranges from -177 to 146. The minus sign (-) indicates west of the prime meridian. It contains an explicit decimal point. The digits to the left of the decimal point represent the number of degrees from the prime meridian; the digits to the right of the decimal point represent the fraction of the next degree carried out to six decimal places.
CONUM	26	AN	ANSI county number (two digit ANSI state numeric code + three digits ANSI county code) based on the location of the school.
CONAME	27	AN	County name based on the location of the school.
CDCODE	28	AN	Congressional district code based on location of administrative office. ANSI numeric code for the congressional districts that are legislatively defined subdivision of the state for the purpose of electing representatives to the House of Representative of the United States Congress. The first two digits are the ANSI state numeric code, which makes the congressional district code unique across states (see Appendix C Glossary for detail).
BIES	29	AN	Bureau of Indian Education (BIE) school. Indicator of whether or not a school was also reported by the Bureau of Indian Education in their submission of school data. Only states or jurisdictions other than BIE can contain a value of “1” (“Yes”) for this flag.  1 = Yes. 2 = No.
RECONSTY	30	AN	Reconstituted Year. This indicates the latest year that the school was reported as reconstituted.
RECONSTF	31	AN	Reconstituted Flag. This flag indicates that the school was restructured, transformed, or otherwise substantially changed as a consequence of the state’s accountability system, or as a result of a School Improvement Grant (SIG), but is not recognized as a new school for the CCD.
FTE	32 *	N	Total full-time-equivalent classroom teachers. Full-time equivalency reported to the nearest hundredth; field includes two explicit decimal places.
GSLO	33	AN	School low grade offered. The following codes are used:  UG = Ungraded  PK = Prekindergarten  KG = Kindergarten  01–12 = 1st through 12th grade  N = School had no students reported  UG and N each occur only in isolation from other codes. When one of these does occur, it is both the lowest (GSLO) and the highest (GSHI) grade.

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
GSHI	34	AN	<p>School high grade offered. The following codes are used:</p> <p>UG = Ungraded</p> <p>PK = Prekindergarten</p> <p>KG = Kindergarten</p> <p>01–12 = 1st through 12th grade</p> <p>N = School had no students reported</p> <p>UG and N each occur only in isolation from other codes. When one of these does occur, it is both the lowest (GSLO) and the highest (GSHI) grade.</p>
PKOFFRD	35	AN	<p>Prekindergarten offered.</p> <p>1 = Yes</p> <p>2 = No</p>
KGOFFRD	36	AN	<p>Kindergarten offered.</p> <p>1 = Yes</p> <p>2 = No</p>
G01OFFRD	37	AN	<p>First grade offered.</p> <p>1 = Yes</p> <p>2 = No</p>
G02OFFRD	38	AN	<p>Second grade offered.</p> <p>1 = Yes</p> <p>2 = No</p>
G03OFFRD	39	AN	<p>Third grade offered.</p> <p>1 = Yes</p> <p>2 = No</p>
G04OFFRD	40	AN	<p>Fourth grade offered.</p> <p>1 = Yes</p> <p>2 = No</p>

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

<b>Variable Name</b>	<b>Order</b>	<b>Data Type</b>	<b>Description</b>
G05OFFRD	41	AN	Fifth grade offered.  1 = Yes  2 = No
G06OFFRD	42	AN	Sixth grade offered.  1 = Yes  2 = No
G07OFFRD	43	AN	Seventh grade offered.  1 = Yes  2 = No
G08OFFRD	44	AN	Eighth grade offered.  1 = Yes  2 = No
G09OFFRD	45	AN	Ninth grade offered.  1 = Yes  2 = No
G10OFFRD	46	AN	Tenth grade offered.  1 = Yes  2 = No
G11OFFRD	47	AN	Eleventh grade offered.  1 = Yes  2 = No
G12OFFRD	48	AN	Twelfth grade offered.  1 = Yes  2 = No
UGOFFRD	49	AN	Ungraded offered.  1 = Yes  2 = No

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description																					
LEVEL	50	AN	<p>School level. The following codes were calculated from the school’s corresponding GSLO and GSHI values:</p> <p>1 = Primary (low grade = PK through 03; high grade = PK through 08)</p> <p>2 = Middle (low grade = 04 through 07; high grade = 04 through 09)</p> <p>3 = High (low grade = 07 through 12; high grade = 12 only)</p> <p>4 = Other (any other configuration not falling within the above three categories, including ungraded)</p>																					
TITLEISTAT	51	AN	<p>Title I School Status. This flag was added to the school file starting in 2010-11. It indicates whether and in which Title I program a school is eligible for participation under authorization of Title I of Public Law 103-382. There are two types of Title I programs: Targeted Assistance (TAS) and Schoolwide (SWP). Eligibility for either programs means the school is Title I eligible, regardless of whether they decide to provide a program to their students.</p> <p>1 = School is eligible for Title I Targeted Assistance (TAS) but provides no program</p> <p>2 = School is eligible for Title I Targeted Assistance (TAS) and provides TAS program</p> <p>3 = School is eligible for Title I Schoolwide program (SWP) and provides TAS program</p> <p>4 = School is eligible for Title I Schoolwide program (SWP) but provides no program</p> <p>5 = School is eligible for Title I Schoolwide program (SWP) and provides Title I Schoolwide program</p> <p>6 = School is not eligible for either Title I Targeted Assistance (TAS ) or Schoolwide program</p> <p>The following table shows how TITLEISTAT translates to TITLEI and STITLEI.</p> <table style="margin-left: auto; margin-right: auto; border-collapse: collapse;"> <thead> <tr> <th style="text-align: center;">TITLEISTAT</th> <th style="text-align: center;">TITLEI</th> <th style="text-align: center;">STITLEI</th> </tr> </thead> <tbody> <tr> <td style="text-align: center;">1</td> <td style="text-align: center;">1(Yes)</td> <td style="text-align: center;">2 (No)</td> </tr> <tr> <td style="text-align: center;">2</td> <td style="text-align: center;">1(Yes)</td> <td style="text-align: center;">2 (No)</td> </tr> <tr> <td style="text-align: center;">3</td> <td style="text-align: center;">1(Yes)</td> <td style="text-align: center;">1(Yes)</td> </tr> <tr> <td style="text-align: center;">4</td> <td style="text-align: center;">1(Yes)</td> <td style="text-align: center;">1(Yes)</td> </tr> <tr> <td style="text-align: center;">5</td> <td style="text-align: center;">1(Yes)</td> <td style="text-align: center;">1(Yes)</td> </tr> <tr> <td style="text-align: center;">6</td> <td style="text-align: center;">2 (No)</td> <td style="text-align: center;">N (Not Applicable)</td> </tr> </tbody> </table>	TITLEISTAT	TITLEI	STITLEI	1	1(Yes)	2 (No)	2	1(Yes)	2 (No)	3	1(Yes)	1(Yes)	4	1(Yes)	1(Yes)	5	1(Yes)	1(Yes)	6	2 (No)	N (Not Applicable)
TITLEISTAT	TITLEI	STITLEI																						
1	1(Yes)	2 (No)																						
2	1(Yes)	2 (No)																						
3	1(Yes)	1(Yes)																						
4	1(Yes)	1(Yes)																						
5	1(Yes)	1(Yes)																						
6	2 (No)	N (Not Applicable)																						
TITLEI	52	AN	<p>Title I eligible school. A Title I school designated under appropriate state and federal regulations as being eligible for participation in programs authorized by Title I of Public Law 103-382.</p> <p>1 = Yes</p> <p>2 = No</p>																					

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
STITLI	53	AN	<p>School-wide Title I. A program in which all the pupils in a school are designated under appropriate state and federal regulations as being eligible for participation in programs authorized by Title I of Public Law 103-382.</p> <p>1 = Yes</p> <p>2 = No</p>
MAGNET	54	AN	<p>Magnet school. Regardless of the source of funding, a magnet school or program is a special school or program designed to attract students of different racial/ethnic backgrounds for the purpose of reducing, preventing, or eliminating racial isolation and/or to provide an academic or social focus on a particular theme.</p> <p>1 = Yes</p> <p>2 = No</p>
CHARTR	55	AN	<p>Charter school. A school that provides free elementary and/or secondary education to eligible students under a specific charter granted by the state legislature or other appropriate authority.</p> <p>1 = Yes</p> <p>2 = No</p>
SHARED	56	AN	<p>Shared-time school. A school offering vocational/technical education or other education services, in which some or all students are enrolled at a separate “home” school and attend the shared-time school on a part-day basis.</p> <p>1 = Yes</p> <p>2 = No</p>
FRELCH	57	N	Count of students eligible to participate in the Free Lunch Program under the National School Lunch Act.
REDLCH	58	N	Count of students eligible to participate in the Reduced-Price Lunch Program under the National School Lunch Act.
TOTFRL	59	N	Total of free lunch eligible and reduced-price lunch eligible. The total is only available if both of the details (or the total) were reported.
RACECAT	60	N	<p>Race/ethnicities categories indicator. Indicates whether state reported student enrollment counts by five race/ethnicity categories or seven race/ethnicity categories.</p> <p>5 = State reported student enrollment counts in the following five race/ethnicity categories: (a) American Indian/Alaska Native; (b) Asian/Pacific Islander; (c) Hispanic; (d) Black, non-Hispanic; and (e) White, non-Hispanic.</p> <p>7 = State reported student enrollment counts in the following seven race/ethnicity categories: (a) American Indian/Alaska Native; (b) Asian; (c) Hispanic; (d) Black; (e) White; (f) Hawaiian Native/Pacific Islander; and (g) Two or more races.</p>
PK	61	N	Total prekindergarten students.

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

<b>Variable Name</b>	<b>Order</b>	<b>Data Type</b>	<b>Description</b>
AMPKM	62	N	Prekindergarten students - American Indian/Alaska Native - male.
AMPKF	63	N	Prekindergarten students - American Indian/Alaska Native - female.
ASPKM	64	N	Prekindergarten students - Asian - male.
ASPKF	65	N	Prekindergarten students - Asian - female.
HIPKM	66	N	Prekindergarten students - Hispanic - male.
HIPKF	67	N	Prekindergarten students - Hispanic - female.
BLPKM	68	N	Prekindergarten students - Black, non-Hispanic - male.
BLPKF	69	N	Prekindergarten students - Black, non-Hispanic - female.
WHPKM	70	N	Prekindergarten students - White, non-Hispanic - male.
WHPKF	71	N	Prekindergarten students - White, non-Hispanic - female.
HPPKM	72	N	Prekindergarten students - Hawaiian Native/Pacific Islander - male.
HPPKF	73	N	Prekindergarten students - Hawaiian Native/Pacific Islander - female.
TRPKM	74	N	Prekindergarten students - Two or more races - male.
TRPKF	75	N	Prekindergarten students - Two or more races - female.
KG	76	N	Total kindergarten students.
AMKGM	77	N	Kindergarten students - American Indian/Alaska Native - male.
AMKGF	78	N	Kindergarten students - American Indian/Alaska Native - female.
ASKGM	79	N	Kindergarten students - Asian - male.
ASKGF	80	N	Kindergarten students - Asian - female.
HIKGM	81	N	Kindergarten students - Hispanic - male.
HIKGF	82	N	Kindergarten students - Hispanic - female.
BLKGM	83	N	Kindergarten students - Black, non-Hispanic - male.

HIUGF	277	N	Ungraded students - Hispanic - female.

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

Variable Name	Order	Data Type	Description
BLUGM	278	N	Ungraded students - Black, non-Hispanic - male.
BLUGF	279	N	Ungraded students - Black, non-Hispanic - female.
WHUGM	280	N	Ungraded students - White, non-Hispanic - male.
WHUGF	281	N	Ungraded students - White, non-Hispanic - female.
HPUGM	282	N	Ungraded students - Hawaiian Native/Pacific Islander - male.
HPUGF	283	N	Ungraded students - Hawaiian Native/Pacific Islander - female.
TRUGM	284	N	Ungraded students - Two or more races - male.
TRUGF	285	N	Ungraded students - Two or more races - female.
MEMBER	286	N	Total students, all grades: The reported total membership of the school.
AM	287	N	American Indian/Alaska Native students. If not reported, this field was calculated by summing the AMALM and AMALF fields.
AMALM	288	N	Total students, all grades - American Indian/Alaska Native - male.
AMALF	289	N	Total students, all grades - American Indian/Alaska Native - female.
ASIAN	290	N	Asian students. If not reported, this field was calculated by summing the ASALM and ASALF fields.
ASALM	291	N	Total students, all grades - Asian - male.
ASALF	292	N	Total students, all grades - Asian - female.
HISP	293	N	Hispanic students. If not reported, this field was calculated by summing the HIALM and HIALF fields.
HIALM	294	N	Total students, all grades - Hispanic - male.
HIALF	295	N	Total students, all grades - Hispanic - female.
BLACK	296	N	Black, non-Hispanic students. If not reported, this field was calculated by summing the BLALM and BLALF fields.
BLALM	297	N	Total students, all grades - Black, non-Hispanic - male.
BLALF	298	N	Total students, all grades - Black, non-Hispanic - female.
WHITE	299	N	White, non-Hispanic students. If not reported, this field was calculated by summing the WHALM and WHALF fields.
WHALM	300	N	Total students, all grades - White, non-Hispanic - male.
WHALF	301	N	Total students, all grades - White, non-Hispanic - female.
HPALM	303	N	Total students, all grades - Hawaiian Native/Pacific Islander - male.

APPENDIX A—Record Layout for the  
Common Core of Data Local Education School Universe Survey: School Year 2010–11

<b>Variable Name</b>	<b>Order</b>	<b>Data Type</b>	<b>Description</b>
HPALF	304	N	Total students, all grades - Hawaiian Native/Pacific Islander - female.
TR	305	N	Two or more races students. If not reported, this field was calculated by summing the TRALM and TRALF fields.
TRALM	306	N	Total students, all grades - Two or more races - male.
TRALF	307	N	Total students, all grades - Two or more races - female.
TOTETH	308	N	Calculated school race/ethnicity membership: The sum of the fields AM, ASIAN, HISP, BLACK, WHITE, PACIFIC, and TR. Students belonging to an unknown or non-CCD race category are not captured in this field.

— Not available.

† Not applicable. Some states do not have charter school authorization and some states do not designate magnet schools.

Department of Defense Dependents schools (DoDDs and DDESS) do not designate Title I and Title I schoolwide eligible schools.

<sup>1</sup> Schools eligible for Title I schoolwide programs are also included in the counts of all Title I eligible schools.

<sup>2</sup> A reporting states' total is shown for the 50 states and District of Columbia if data for any item in the table were missing for some of the schools in the United States.

NOTE: The operating schools in the 50 states and DC exclude schools also reported by the Bureau of Indian Education (BIE). The number of operating schools shared with the BIE include two in Arizona, one in Michigan, and eight in North Dakota. Every school is assigned a school type based on its instructional emphasis. A school may be included under the Charter, Magnet, and/or Title I statuses, which are independent of one another and of school type. Numbers and types of schools may differ from those published by states in their own reports.

— Not available.

† Not applicable. Membership reported as not applicable or some states do not have charter school authorization and some states do not designate magnet schools. Department of Defense Dependents schools (DoDDs and DDESS) do not designate Title 1 and Title 1 schoolwide eligible schools.

<sup>1</sup> Schools eligible for Title I schoolwide programs are also included in the count of all Title I eligible schools.

<sup>2</sup> A reporting states' total is shown for the 50 states and District of Columbia if data for any item in the table were missing for some of the schools in the United States.

NOTE: The operating schools in the 50 states and DC exclude schools also reported by the Bureau of Indian Education (BIE). The number of operating schools shared with the BIE include two in Arizona, one in Michigan, and eight in North Dakota. Every school is assigned a school type based on its instructional emphasis. A school may be included under the Charter, Magnet, and/or Title I statuses, which are independent of one another and of school type. Numbers and types of schools may differ from those published by states in their own reports.

<sup>1</sup> U.S. totals include the 50 states and the District of Columbia.

NOTE: The operating schools in the 50 states and DC exclude schools also reported by the Bureau of Indian Education (BIE). The number of operating schools shared with the BIE include two in Arizona, one in Michigan, and eight in North Dakota. Every school is assigned a school type based on its instructional emphasis. Instructional levels are primary (low grade prekindergarten to 3, high grade up to 8); middle (low grade 4 to 7, high grade 4 to 9); high (low grade 7 to 12, high grade 12 only); and other (any configuration not falling within the previous three, including ungraded schools). Table includes only those schools with one or more teachers. U.S. total averages are the ratio of total students to total teacher FTE.

— Not available.

† Not applicable.

<sup>1</sup> Total schools include primary, middle, high, and other schools.

<sup>2</sup> U.S. totals include the 50 states and the District of Columbia.

NOTE: The operating schools in the 50 states and DC exclude schools also reported by the Bureau of Indian Education (BIE). The number of operating schools shared with the BIE include two in Arizona, one in Michigan, and eight in North Dakota. Every school is assigned a school type based on its instructional emphasis. Instructional levels are primary (low grade prekindergarten to 3, high grade up to 8); middle (low grade 4 to 7, high grade 4 to 9); high (low grade 7 to 12, high grade 12 only); and other (any configuration not falling within the previous three, including ungraded schools).

† Not applicable.

# Rounds to zero.

<sup>1</sup> U.S. totals include the 50 states and the District of Columbia.

NOTE: The operating schools in the 50 states and DC exclude schools also reported by the Bureau of Indian Education (BIE). The number of operating schools shared with the BIE include two in Arizona, one in Michigan, and eight in North Dakota. Details may not sum to totals because of rounding.

## Appendix C— Glossary for the Common Core of Data: School Year 2010–11

Page intentionally left blank.

## APPENDIX C— Glossary for the Common Core of Data: School Year 2010–11

For the CCD to have comparable data across states, all states must abide by the same standard definitions when reporting on schools, students, and staff. To ensure a common understanding, definitions for critical terms are presented below. The glossary contains definitions for all variables and terms found on the CCD school, agency, or state files.

### **Agency Charter Status**

Indication of the relationship between the agency and associated charter schools. Categories are: all associated schools are charters; some associated schools are charter; no associated schools are charter.

### **Alternative Education School**

A public elementary/secondary school that (1) addresses needs of students that typically cannot be met in a regular school, (2) provides nontraditional education, (3) serves as an adjunct to a regular school, or (4) falls outside the categories of regular, special education, or vocational education.

### **American Indian/Alaska Native**

A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment (OMB directive, 1977, 1997).

### **American National Standards Institute (ANSI) Code**

Two-digit code, assigned by the Federal Information Processing Standards, that uniquely identifies a state or other jurisdiction.

### **Asian**

A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, Japan, Korea, Malaysia, Pakistan, the Philippine Island, Thailand, and Vietnam (OMB directive, 1997).

### **Asian/Pacific Islander**

A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, Thailand, Vietnam, Guam, the Philippine Islands, Samoa, and other Pacific Islands (OMB directive, 1977).

### **Black or African American**

A person having origins in any of the black racial groups of Africa (OMB directive, 1977, 1997).

### **Boundary Change**

See “Operational Status, Agency” for definition. Name of term was changed to “Operational Status, Agency” after 1997–98.

### **Charter School**

A school providing free public elementary and/or secondary education to eligible students under a specific charter granted by the state legislature or other appropriate authority, and designated by such authority to be a charter school.

## **City Locale**

See “Locale, Urban-Centric.”

## **Classroom Teacher**

See “Teacher.”

## **Combined Statistical Area (CSA)**

If an area that qualifies as a metropolitan area (MA) has more than one million people, two or more core-based statistical areas (CBSAs) may be defined within it. Each CBSA consists of a large urbanized county or cluster of counties (cities and towns in New England) that demonstrate very strong internal economic and social links, in addition to close ties to other portions of the larger area. When CBSAs are established, the larger MA of which they are component parts is designated a combined statistical area (CSA). CSAs and CBSAs are established only where local governments favor such designations for a large MA.

## **Congressional District Code**

Congressional districts are legislatively defined subdivisions of a state for the purpose of electing representatives or delegates to the House of Representatives of the United States Congress. A state or equivalent entity may comprise a single congressional district or similar representational area. The American National Standards Institute (ANSI) provides the structure of numeric codes for representing congressional districts and similar areas defined for the various Congresses of the United States.

The Congressional District Codes are two-digit numeric codes used to represent the congressional districts of each multi-district state of the United States. For example, the First Congressional District is identified as “01,” the Second Congressional District as “02,” etc. The Congressional District in a state with only a single representative elected “at large” is designated as “00.” In the 110th Congress, this applies to Alaska, Delaware, Montana, North Dakota, South Dakota, Vermont, and Wyoming. For an entity with a nonvoting delegate—the District of Columbia, American Samoa, Guam, Puerto Rico (whose delegate is referred to as a “resident commissioner”), and the U.S. Virgin Islands—the representational area is designated as “98.” Those entities with no representation in the Congress—the Northern Mariana Islands, Palau, and the several U.S. minor outlying islands are designated as “99.”

Although congressional district codes are unique within each state and equivalent entity, and for each Congress, the congressional districts in different states may have the same code. For example, the First Congressional District of Alabama and of Arizona are both coded “01.” Since the Common Core of Data (CCD) requires the identification of congressional districts in more than one state, the congressional district code is preceded by the ANSI State numeric code. For example, the First Congressional District of Arizona is coded “0401,” with the first two digits (04) representing the ANSI State numeric code.

## **Core Based Statistical Area (CBSA)**

If an area that qualifies as a metropolitan area (MA) has more than one million people, two or more core-based statistical areas (CBSAs) may be defined within it. Each CBSA consists of a large urbanized county or cluster of counties (cities and towns in New England) that demonstrate very strong internal economic and social links, in addition to close ties to other portions of the larger area.

## **County Name, Local Education Agency (LEA) File**

The name of the county in which a local education agency is located. Prior to 2006–07, the county assignment was based on the counties of the schools associated with the local education agency, weighted by student enrollment.

## **County Name, School File**

The name of the county in which a school is located.

## **County Number**

Five-digit code, assigned by the American National Standards Institute (ANSI) that uniquely identifies every county in the United States. Digits 1 and 2 are the state ANSI code and digits 3–5 identify a county within that state.

## **Diploma Recipient**

A student who received a diploma recognizing the completion of secondary school requirements during the previous school year and subsequent summer school. It excludes high school equivalency and other high school completers (e.g., those granted a certificate of attendance.) (See also “Graduate, High School.”)

## **Diploma, High School**

A formal document certifying the successful completion of a secondary school program prescribed by the state education agency or other appropriate body.

## **District Locale Code, Metro-Centric**

See “District Locale, Metro-Centric.”

## **District Locale Code, Urban-Centric**

See “District Locale, Urban-Centric.”

## **District Locale, Metro-Centric**

A code derived from the locale codes of schools within the district, weighted by the number of students in each locale type. The metro-centric locale assignment system was used until 2006–07. (See also, “Locale, Metro-Centric.”)

## **District Locale, Urban-Centric**

A code derived from the locale codes of schools within the district, weighted by the number of students in each locale type. The urban-centric locale assignment system has been used starting in 2006–07. (See also, “Locale, Urban-Centric.”)

## **Dropout**

A student who was enrolled in school at some time during the previous school year; was not enrolled at the beginning of the current school year; has not graduated from high school or completed a state- or district-approved educational program; and does not meet any of the following exclusionary conditions: has transferred to another public school district, private school, or state- or district-approved educational program; is temporarily absent due to suspension or school-approved illness; or has died. Item was first collected in 1992–93.

## **Education Agency**

A government agency administratively responsible for providing public elementary and/or secondary instruction or educational support services.

## **Elementary**

A general level of instruction classified by state and local practice as elementary, composed of any span of grades not above grade 8; preschool or kindergarten included only if it is an integral part of an elementary school or a regularly established school system.

## **Elementary Teacher**

Teacher of a group or class that is within a general level of instruction classified by state and local practice as elementary. Preschool or kindergarten are included only if it is an integral part of an elementary school or a regularly established school system.

## **English Language Learner (ELL)**

“English language learner (ELL)” was formerly referred to as “limited English proficient (LEP).” Refers to students being served in appropriate programs of language assistance (e.g., English as a Second Language, High Intensity Language Training, bilingual education). Does not include pupils enrolled in a class to learn a language other than English. Also, ELL students are individuals who were not born in the United States or whose native languages are languages other than English; individuals who are migratory, whose native language are languages other than English, and who come from environments where a language other than English is dominant; individuals who are Native Americans or Alaska Natives, or native residents of the outlying areas and who come from environments where languages other than English have a significant impact on their level of English language proficiency; and individuals who have sufficient difficulties in speaking, reading, writing, or understanding the English language to deny such individuals the ability to meet the State’s proficient level or achievement on State assessments, or the ability to successfully achieve in classrooms where the language of instruction is English, or the opportunity to participate fully in society. Item was first collected in 1998–99.

## **Federally-Operated Education Agency**

A federally operated agency that is charged, at least in part, with providing elementary and/or secondary instruction or support services.

## **Free Lunch Eligible Student**

A student who is eligible to participate in the Free Lunch Program under the National School Lunch Act.

## **Full-time Equivalency (FTE)**

The amount of time required to perform an assignment stated as a proportion of a full-time position and computed by dividing the amount of time employed by the time normally required for a full-time position.

## **General Educational Development (GED) Test**

A comprehensive test used primarily to appraise the educational development of students who have not completed their formal high school education and who may earn a high school equivalency certificate through achievement of satisfactory scores.

## **Grade Span Offered**

The span of grades intended to be served by a school or agency, whether or not there are students currently enrolled in all grades. If a high school also has a prekindergarten program, the grade span of the high school is reported as a high school, not as a PK–12 school. Also, the ungraded designation (UG) cannot be used in a grade span unless the whole school consists of ungraded students, and in this case the grade span is reported as UGUG. “Grade span” was calculated from school membership through 1997–98 and first collected as a separate item in 1998–99.

## **Graduate, High School**

A student who received a diploma recognizing the completion of secondary school requirements during the previous school year and subsequent summer school. It excludes high school equivalency and other high school completers (e.g., those granted a certificate of attendance). (See also, “Diploma Recipient.”)

## **Guidance Counselor/Director**

Professional staff assigned specific duties and school time for counseling students and parents, addressing learning problems, evaluating student abilities, and assisting students in career and personal development. The state applies its own standards in apportioning the aggregate of guidance counselors/directors into the elementary and secondary level components.

## **Head Start Program**

A federally funded program that provides comprehensive educational, social, health, and nutritional services to low-income preschool children and their families, and children from ages 3 to school entry age (i.e., the age of compulsory school attendance). Head Start students and teachers are reported on the CCD only when the program is administered by a local education agency.

## **High School Completion Count**

A count of diploma recipients and other high school completers. Does not include high school equivalency recipients.

## **High School Equivalency Certificate**

A formal document certifying that an individual met the state requirements for high school graduation equivalency by obtaining satisfactory scores on an approved examination, and meeting other performance requirements (if any) set by a state education agency or other appropriate body.

## **High School Equivalency Recipient**

Individual who received a high school equivalency certificate during the previous school year or subsequent summer. The CCD reports only equivalency recipients who are 19 years of age or younger. Item was last reported on the Local Education Agency Survey in 1990–91, but was collected by the State Nonfiscal Survey through 2002–03. Beginning with the 2003–04 collection, the item was replaced by the number of individuals age 19 or younger who passed the GED examination, as reported by the GED Testing Service.

## **High School Graduate, Other Programs**

A student who received a high school diploma, equivalency diploma, or other completion credential during the previous school year or subsequent summer school; the credential is based upon completion of other than the standard high school requirements or is achieved through nontraditional means. Term was last used in 1986–87. See “Other Diploma Recipient,” “High School Equivalency Recipient,” and “Other High School Completer.”

## **High School Graduate, Regular Day School**

A student who received a high school diploma during the previous school year or subsequent summer school; the diploma is based upon completion of high school requirements through traditional means. Term was last used in 1986–87. See “Regular Diploma Recipient.”

## **Hispanic**

A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race (OMB directive, 1977, 1997).

## **Individualized Educational Program (IEP)**

A written instructional plan for students with disabilities designated as special education students under the Individuals With Disabilities Education Act (IDEA, Part B). Each plan includes a (1) statement of the child’s present levels of educational performance, (2) statement of measurable annual goals, including academic and functional goals, (3) for children with disabilities who take alternate assessments aligned to alternate achievement standards, description of benchmarks or short term objectives; (4) statement of the special education and related services and supplementary aids and services; and (5) statement of any individual accommodations that are necessary to measure the academic achievement and functional performance of the child on State and districtwide assessment; and if the IEP Team determines that the child must take an alternate assessment instead of a particular regular State or districtwide assessment of student achievement, a statement of why the child cannot participate in the regular assessment and why the particular alternate assessment selected is appropriate for the child.

## **Instructional Aide**

Staff assigned to assist a teacher with routine activities associated with teaching (i.e., activities requiring minor decisions regarding students), such as monitoring, conducting rote exercises, operating equipment, and clerking. Includes only paid staff, and excludes volunteer aides.

## **Instructional Coordinator and Supervisor**

Staff supervising instructional programs at the school district or subdistrict level, including supervisors of educational television staff; coordinators and supervisors of audiovisual services; curriculum coordinators and in-service training staff; Title I coordinators and home economics supervisors; and supervisory staff engaged in the development of computer-assisted instruction. School-based department chairpersons are excluded.

## **Kindergarten**

A group or class that is part of a public school program and is taught during the year preceding first grade.

## **Kindergarten Teacher**

Teacher of a group or class that is part of a public school program and is taught during the year preceding first grade.

## **Large City Locale**

See “Locale, Metro-Centric.”

## **Large Town Locale**

See “Locale, Metro-Centric.”

## **Latitude**

Latitude is the north or south angular distance from the equator, with positive values going north and negative values going south. When combined with longitude, it reflects an estimation of where the school is physically situated on the street segment to which it was coded. Coordinate degrees, minutes, and seconds have been converted to, and are displayed in terms of, their decimal equivalent. The digits to the left of the decimal point represent the number of degrees from the equator, and the digits to the right of the decimal point represent the fraction of the degree carried

## APPENDIX C— Glossary for the Common Core of Data: School Year 2010–11

out to six decimal places. For example, if a school’s latitude is 30 degrees, 30 minutes north, then it is shown as 30.500000.

### **Librarian or Media Specialist**

A professional staff member or supervisor assigned specific duties and school time for professional library services activities. These include selecting, acquiring, preparing, cataloging, and circulating books and other printed materials; planning the use of the library by students, teachers, and instructional staff; and guiding individuals in the use of library books and material maintained separately or as a part of an instructional materials center.

### **Library and Media Support Staff**

Staff member who renders other professional library and media services; also includes library aides and those involved in library/media support. Duties include selecting, preparing, caring for, and making available to instructional staff, equipment, films, filmstrips, transparencies, tapes, TV programs, and similar materials maintained separately or as part of an instructional materials center. Also include activities in the audiovisual center, TV studio, related work-study areas, and services provided by audiovisual personnel.

### **Limited-English Proficient (LEP)**

See “English Language Learner (ELL).”

### **Local Education Agency (LEA)**

The government agency at the local level whose primary responsibility is to operate public schools or to contract for public school services. Also referred to as a school district.

### **Local Education Agency (LEA) Administrative Support Staff**

Staff members providing direct support to LEA administrators, business office support, data processing, secretarial and other clerical staff.

### **Local Education Agency (LEA) Administrator**

Chief executive officers of education agencies, including superintendents, deputies, and assistant superintendents; other persons with districtwide responsibilities, e.g., business managers and professional instructional support staff. Excludes supervisors of instructional or student support staff.

### **Local Education Agency ID**

Seven-digit code assigned by NCES that uniquely identifies each local education agency. Digits 1 and 2 are the ANSI state code; digits 3–7 are assigned by NCES and unique within a state.

### **Local Education Agency Type**

A classification of educational agencies according to the level of administrative and operational control. The types are (1) local school district that is not a component of a supervisory union; (2) local school district that is a component of a supervisory union; (3) supervisory union administrative center; (4) regional education services agency; (5) state-operated agency; (6) federally-operated agency; (7) charter agency; and (8) other education agencies.

## **Locale Code, Metro-Centric**

See “Locale, Metro-Centric.”

## **Locale Code, Urban-Centric**

See “Locale, Urban-Centric.”

## **Locale, Metro-Centric**

An indication of school’s location relative to a populous area. The locales assigned to school districts are based on the locale code of their schools, weighted by the size of the schools’ membership. The metro-centric locale assignment system was used from 1998–99 through 2005–06.

The locale code categories are defined below.

**Large city:** A principal city of a metropolitan core based statistical area (CBSA), with the city having a population greater than or equal to 250,000.

**Midsize city:** A principal city of a metropolitan CBSA, with the city having a population less than 250,000.

**Urban fringe of a large city:** Any incorporated place, Census-designated place, or non-place territory within a metropolitan CBSA of a large city and defined as urban by the Census Bureau.

**Urban fringe of a midsize city:** Any incorporated place, Census-designated place, or non-place territory within a metropolitan CBSA of a midsize city and defined as urban by the Census Bureau.

**Large town:** An incorporated place or Census-designated place with a population greater than or equal to 25,000 and located outside a metropolitan CBSA or inside a micropolitan CBSA.

**Small town:** An incorporated place or Census-designated place with a population less than 25,000 and greater than or equal to 2,500 and located outside a metropolitan CBSA or inside a micropolitan CBSA.

**Rural, outside CBSA:** Any incorporated place, Census-designated place, or non-place territory not within a metropolitan CBSA or within a micropolitan CBSA and defined as rural by the Census Bureau.

**Rural, inside CBSA:** Any incorporated place, Census-designated place, or non-place territory within a metropolitan CBSA and defined as rural by the Census Bureau.

## **Locale, Urban-Centric**

An indication of school’s location relative to a populous area. The locales assigned to school districts are based on the locale code of their schools, weighted by the size of the schools’ membership. The urban-centric locale assignment system has been used starting in 2006–07.

The locale code categories are defined below.

**City, Large:** Territory inside an urbanized area and inside a principal city with population of 250,000 or more.

**City, Midsize:** Territory inside an urbanized area and inside a principal city with population less than 250,000 and greater than or equal to 100,000.

**City, Small:** Territory inside an urbanized area and inside a principal city with population less than 100,000.

**Suburb, Large:** Territory outside a principal city and inside an urbanized area with population of 250,000 or more.

**Suburb, Midsize:** Territory outside a principal city and inside an urbanized area with population less than 250,000 and greater than or equal to 100,000.

**Suburb, Small:** Territory outside a principal city and inside an urbanized area with population less than 100,000.

**Town, Fringe:** Territory inside an urban cluster that is less than or equal to 10 miles from an urbanized area.

## APPENDIX C— Glossary for the Common Core of Data: School Year 2010–11

Town, Distant: Territory inside an urban cluster that is more than 10 miles and less than or equal to 35 miles from an urbanized area.

Town, Remote: Territory inside an urban cluster that is more than 35 miles of an urbanized area.

Rural, Fringe: Census-defined rural territory that is less than or equal to 5 miles from an urbanized area, as well as rural territory that is less than or equal to 2.5 miles from an urban cluster.

Rural, Distant: Census-defined rural territory that is more than 5 miles but less than or equal to 25 miles from an urbanized area, as well as rural territory that is more than 2.5 miles but less than or equal to 10 miles from an urban cluster.

Rural, Remote: Census-defined rural territory that is more than 25 miles from an urbanized area and is also more than 10 miles from an urban cluster.

### **Longitude**

Longitude is the east or west angular distance from the prime meridian, with positive values going east and negative values going west. When combined with latitude, it reflects an estimation of where the school is physically situated on the street segment to which it was coded. Coordinate degrees, minutes, and seconds have been converted to, and are displayed in terms of, their decimal equivalent. The digits to the left of the decimal point represent the number of degrees from the prime meridian. The digits to the right of the decimal point represent the fraction of the next degree carried out to six decimal places. For example, if a school's longitude is 90 degrees, 15 minutes west, then it is shown as -90.250000.

### **Magnet School or Program**

A special school or program designed to attract students of different racial/ethnic backgrounds for the purpose of reducing, preventing, or eliminating racial isolation (50 percent or more minority enrollment); and/or to provide an academic or social focus on a particular theme (e.g., science/math, performing arts, gifted/talented, or foreign language).

### **Media Specialist**

See "Library and Media Support Staff."

### **Membership**

The count of students on the current roll taken on the school day closest to October 1, by using either the sum of original entries and re-entries minus total withdrawals or the sum of the total present and the total absent.

### **Metropolitan Statistical Area (MSA)**

An area consisting of one or more contiguous counties (cities and towns in New England) that contain a core area with a large population nucleus, as well as adjacent communities having a high degree of economic and social integration with that core.

### **Metropolitan Status (Metro Status)**

Metro status is defined as the classification of the reported location of an education agency's administrative office relative to a metropolitan statistical area. (See also "Metropolitan Statistical Area.")

### **Micropolitan Statistical Area**

A core based statistical area associated with at least one urban cluster that has a population of at least 10,000 but less than 50,000. The micropolitan statistical area comprises the central county or counties that contain the core, plus

adjacent outlying counties having a high degree of social and economic integration with the central county as measured through commuting.

### **Midsized City Locale**

See “Locale, Metro-Centric.”

### **Migrant Student**

Children who are, or whose parents or spouses are, migratory agricultural workers, including migratory dairy workers, or migratory fishers, and who, in the preceding 36 months, in order to obtain, or accompany such parents or spouses, in order to obtain, temporary or seasonal employment in agricultural or fishing work (a) have moved from one local education agency (LEA) to another; (b) in a state that comprises a single LEA, have moved from one administrative area to another within such LEA; or (c) reside in an LEA of more than 15,000 square miles, and migrate a distance of 20 miles or more to a temporary residence to engage in a fishing activity.

### **Native Hawaiian or Other Pacific Islander**

A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands (OMB directive, 1997).

### **Officials and Administrators**

See “Local Education Agency Administrator.”

### **Operational Status, Agency**

Classification of the operational conditions or changes in an education agency’s boundaries or jurisdiction. Classifications include currently operational; closed; new; added; changed boundary; temporarily closed and may reopen within 3 years; scheduled to be operational within 2 years; and reopened. Prior to 1998–99, the term “Boundary Change” was used.

### **Operational Status, School**

Classification of the operational condition of a school. Classifications include currently operational; closed; new; added; changed agency; temporarily closed and may reopen within 3 years; scheduled to be operational within 2 years; and reopened.

### **Other Diploma Recipient**

A student who received a diploma through other than a regular school program during the previous school year or subsequent summer. Last reported in 1997–98; combined with “Regular Diploma Recipient” in 1998–99, with both categories reported as “Diploma Recipient.”

### **Other High School Completer**

Student who has received a certificate of attendance or other certificate of completion in lieu of a diploma during the previous school year and subsequent summer school.

### **Other Support Staff**

Support staff not reported in instructional or student support. Include employees such as plant and equipment maintenance, bus drivers, security, and food service workers.

### **Prekindergarten Student**

A student who is enrolled in a group or class that is part of a public school program taught during the year or years preceding kindergarten, excluding Head Start students unless part of an authorized public education program of a local education agency.

### **Prekindergarten Teacher**

Teacher of a group or class that is part of a public school program that is taught during the year or years preceding kindergarten; includes teachers of Head Start students if part of an authorized public education program of a local education agency.

### **Public School**

An institution that provides educational services and: (1) has one or more grade groups (prekindergarten through grade 12) or is ungraded; (2) has one or more teachers to give instruction; (3) is located in one or more buildings or sites; (4) has an assigned administrator; (5) receives public funds as primary support; and (6) is operated by an education agency.

### **Reduced-Price-Lunch Eligible Student**

A student who is eligible to participate in the Reduced-Price Lunch Program under the National School Lunch Act.

### **Regional Education Service Agency**

An agency created for the purposes of providing specialized educational services to other education agencies.

### **Regular Diploma Recipient**

See “High School Graduate, Regular Day School.” Last reported in 1997–98; combined with “Other Diploma Recipient” in 1998–99, with both categories reported as “Diploma Recipient.”

### **Regular School**

A public elementary/secondary school providing instruction and education services that does not focus primarily on special education, vocational/technical education, or alternative education, or on any of the particular themes associated with magnet/special program emphasis schools.

### **Reportable Program**

A program within a school that may be self-contained, but does not have its own principal.

### **Rural Locale**

See “Locale, Urban-Centric.”

### **Rural, Inside CBSA**

See “Locale, Metro-Centric.”

### **Rural, Outside CBSA**

See “Locale, Metro-Centric.”

## **School**

An institution that provides educational services and:

- Has one or more grade groups (prekindergarten through 12) or is ungraded
- Has one or more teachers
- Is located in one or more buildings
- Has assigned administrator(s)
- Receives public funds as its primary support, and
- Is operated by an education agency.

## **School Administrative Support Staff**

Staff whose activities are concerned with support of the teaching and administrative duties of the office of the principal or department chairpersons. Category includes clerical staff and secretaries.

## **School Administrator**

Staff whose activities are concerned with directing and managing the operation of a particular school. Category includes principals, assistant principals, and other assistants; and persons who supervise school operations, assign duties to staff members, supervise and maintain the records of the school, and coordinate school instructional activities with those of the education agency, including department chairpersons.

## **School District**

An education agency or administrative unit that operates under a public board of education. Also referred to as a Local Education Agency (LEA).

## **School Identification (ID) Number**

Twelve-digit code assigned by NCES that uniquely identifies each public school. Digits 1 and 2 are the ANSI state code; digits 3–7 are the LEA ID; and digits 8–12 identify the school uniquely within a state.

## **School Type**

The CCD classification of public elementary/secondary schools according to the curriculum offered. The types are:

1. Regular
2. Special Education
3. Vocational
4. Alternative

## **Schoolwide Title I Eligible School**

A school that is a Title I eligible school and its percentage of low-income students is at least 40 percent. (See also “Title I Eligible School.”)

## **Secondary**

The general level of instruction classified by state and local practice as secondary and composed of any span of grades beginning with the next grade following the elementary grades and ending with or below grade 12.

## **Secondary Teacher**

Teacher of a group or class that is within the general level of instruction classified by state and local practice as secondary.

## **Shared Time School**

A school in which some or all of the students are enrolled at a different school of record and attend the shared time school on a part-day basis: for example, a regional vocational center attended by students from multiple high schools on a part-day basis.

## **Small Town Locale**

See “Locale, Metro-Centric.”

## **Special Education School**

A public elementary/secondary school that focuses primarily on special education—including instruction for any of the following students with: autism, deaf-blindness, developmental delay, hearing impairment, intellectual disability, multiple disabilities, orthopedic impairment, serious emotional disturbance, specific learning disability, speech or language impairment, traumatic brain injury, visual impairment, and other health impairments—and that adapts curriculum, materials, or instruction for students served.

## **State Education Agency (SEA)**

An agency of the state charged with primary responsibility for coordinating and supervising public instruction, including setting standards for elementary and secondary instructional programs.

## **State, Federal, and Other Agencies**

Include stated operated agency, federally operated agency, and other education agency. (See also “State Operated Agency,” “Federally Operated Agency,” and “Other Education Agency.”)

## **State-Operated Agency**

Agency that is charged, at least in part, with providing elementary and/or secondary instruction or support services. Examples include elementary/secondary programs operated by the state for the deaf or blind; and programs operated by state correctional facilities.

## **Student**

An individual for whom instruction is provided in an elementary or secondary education program that is not an adult education program and is under the jurisdiction of a school, school system, or other education institution.

## **Student Support Services Staff**

Professional staff members whose activities are concerned with the direct support of students and who nurture, but do not instruct, students. Includes attendance officers; staff providing health, psychology, speech pathology, audiology, or social services; and supervisors of the preceding staff and of health, transportation, and food service workers.

## **Suburb Locale**

See “Locale, Urban-Centric.”

## **Supervisory Union**

An education agency where administrative services are performed for more than one school district by a common superintendent.

## **Teacher**

A professional school staff member who instructs students in prekindergarten, kindergarten, grades 1–12, or ungraded classes and maintains daily student attendance records.

## **Teacher of Ungraded Class**

Teacher of a group or class that is not organized on the basis of grade grouping and has no standard grade designation. This includes regular classes that have no grade designations and special classes for exceptional students that have no grade designations. Such a class is likely to contain students of different ages who, frequently, are identified according to level of performance in one or more areas of instruction rather than according to grade level or age level.

## **Title I Eligible School**

A Title I eligible school is a school designated under appropriate state and federal regulations as being high poverty and eligible for participation in programs authorized by Title I of P.L. 107-110. A Title I eligible school is one in which the percentage of children from low-income families is at least as high as the percentage of children from low-income families served by the LEA as a whole or that the LEA has designated as Title I eligible because 35 percent or more of the children are from low-income families.

## **Town Locale**

See “Locale, Urban-Centric.”

## **Two or More Races**

A person choosing more than one of the five race categories (OMB directive, 1997).

## **Ungraded Student**

Individual assigned to class or program that does not have standard grade designations.

## **Urban Fringe of a Large City Locale**

See “Locale, Metro-Centric.”

## **Urbanized Area**

An area that is a densely settled core with a population concentration of at least 50,000.

## **Vocational Education School**

A public elementary/secondary school that focuses primarily on providing formal preparation for semiskilled, skilled, technical, or professional occupations for high school-age students who have opted to develop or expand their employment opportunities, often in lieu of preparing for college entry.

**White**

A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (OMB directive, 1977, 1997).

**Appendix D – State Notes for the Common Core of Data: School Year 2010–11**

Page intentionally left blank.

APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

Table D-1. States with missing or not applicable values for all records in the Common Core of Data (CCD) Public Elementary/Secondary School Universe Survey, by variable: School year 2010–11

Variable	Label	Missing	Not applicable
FTE	Classroom teachers	California, Wyoming, Bureau of Indian Education, American Samoa, DoDEA, Guam.	None.
TITLEISTAT	'Title I School Status'	American Samoa, DoDEA, Guam, Virgin Islands.	
TITLEI	Title I eligible schools	American Samoa, DoDEA, Virgin Islands.	Guam.
STITLI	School wide Title I	American Samoa, DoDEA, Virgin Islands.	Guam, Northern Marianas.
MAGNET	Magnet school indicator	Arizona, Massachusetts, New Jersey, Bureau of Indian Education, American Samoa, Guam.	Hawaii, Iowa, Montana, Nebraska, New Hampshire, North Dakota, Ohio, Oklahoma, Oregon, Rhode Island, South Dakota, Vermont, Washington, West Virginia, Wyoming, Northern Marianas, Puerto Rico.
CHARTR	Charter school indicator	American Samoa, Guam.	Alabama, Kentucky, Maine, Montana, Nebraska, North Dakota, South Dakota, Vermont, Washington, West Virginia, Bureau of Indian Education, Northern Marianas, Puerto Rico, Virgin Islands.
SHARED	Shared time school indicator	Kansas, Texas, Guam.	None.
FRELCH	Free lunch eligible students	American Samoa, DoDEA, Guam.	None.
REDLCH	Reduced-price lunch eligible students	Bureau of Indian Education, American Samoa, DoDEA, Guam.	None.

See notes at end of table.

APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

Table D-1. States with missing or not applicable values for all records in the Common Core of Data (CCD) Public Elementary/Secondary School Universe Survey, by variable: School year 2010–11—Continued

Variable	Label	Missing	Not applicable
TOTFRL	Total of free and reduced-lunch eligible	American Samoa, DoDEA, Guam.	None.
PK	PK students – total	California, Michigan, Oregon, Bureau of Indian Education, American Samoa, DoDEA, Virgin Islands.	None.
KG	KG students – total	American Samoa, DoDEA.	None.
G01	Grade 1 students – total	American Samoa, DoDEA.	None.
G02	Grade 2 students – total	American Samoa, DoDEA.	None.
G03	Grade 3 students – total	American Samoa, DoDEA.	None.
G04	Grade 4 students – total	American Samoa, DoDEA.	None.
G05	Grade 5 students – total	American Samoa, DoDEA.	None.
G06	Grade 6 students – total	American Samoa, DoDEA.	None.
G07	Grade 7 students – total	American Samoa, DoDEA.	None.
G08	Grade 8 students – total	American Samoa, DoDEA.	None.

See notes at end of table.

APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

Table D-1. States with missing or not applicable values for all records in the Common Core of Data (CCD) Public Elementary/Secondary School Universe Survey, by variable: School year 2010–11—Continued

Variable	Label	Missing	Not applicable
G09	Grade 9 students – total	American Samoa, DoDEA.	None.
G10	Grade 10 students – total	American Samoa, DoDEA.	None.
G11	Grade 11 students – total	American Samoa, DoDEA.	None.
G12	Grade 12 students –total	American Samoa, DoDEA.	None.
UG	Ungraded students – total	None.	Alabama, Alaska, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Louisiana, Maine, Maryland, Minnesota, Missouri, Montana, Nebraska, New Hampshire, New Mexico, North Dakota, Ohio, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, Wyoming, Bureau of Indian Education, American Samoa, DoDEA, Guam, Virgin Islands.
MEMBER	All students – total	American Samoa, DoDEA.	None.
AM	All students – American Indian/ Alaska Native	American Samoa, DoDEA.	None.
ASIAN	All students – Asian	American Samoa, DoDEA.	None.
HISP	All students – Hispanic	American Samoa, DoDEA.	None.
BLACK	All students – Black	American Samoa, DoDEA.	None.
WHITE	All students – White	American Samoa, DoDEA.	None.

See notes at end of table.

APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

Table D-1. States with missing or not applicable values for all records in the Common Core of Data (CCD) Public Elementary/Secondary School Universe Survey, by variable: School year 2010–11—Continued

Variable	Label	Missing	Not applicable
PACIFIC	All students – Hawaiian Native/ Pacific Islander	American Samoa, DoDEA.	Bureau of Indian Education.
TR	All students – Two or more races	American Samoa, DoDEA.	Bureau of Indian Education.

SOURCE: U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Survey of Public Elementary/Secondary Education," 2010–11, Version 1a.

The following text provides information on known anomalies and comments for data users for individual states.

Alabama

None.

Alaska

None.

Arizona

There are 5 schools and 2 local education agencies (LEAs) with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

Arkansas

None.

California

State did not report PK count. NCES uses the IDEA (3-5) counts state reported to *EDFacts* for the PK counts at state level.

Colorado

None.

Connecticut

None.

Delaware

None.

District of Columbia

There are 7 schools and 7 local education agencies (LEAs) with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

## APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

### Florida

None.

### Georgia

None.

### Hawaii

Hawaii reported a combined count for ELMTCH and KGTCH on the LEA and SEA files. The value of ELMTCH on LEA file exceeds the value of ELMTCH on the SEA file because the SEA file was edited to remove the KGTCH count from the ELMTCH count. No edit was made to the LEA file.

### Idaho

There are 5 schools and 5 local education agencies (LEAs) with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### Illinois

None.

### Indiana

The significant decrease in UGTCH is due to that Indiana assigned all the KG to Grade 12 teachers to KGTCH, ELMTCH, and SECTCH where possible, except for the LEAs that serve special education students.

### Iowa

None.

### Kansas

None.

### Kentucky

Kentucky reported OTHGUI and no guidance counselor details (ELMGUI and SECGUI). The value of OTHGUI on LEA file exceeds the value of OTHGUI on the SEA file because the SEA file was edited to disaggregate ELMGUI and SECGUI from OTHGUI. No edit was made to the LEA file.

### Louisiana

None.

### Maine

None.

### Maryland

None.

### Massachusetts

There are 11 schools and 9 LEAs with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### Michigan

The significant decrease in UG membership is due to Michigan made a change with regard to which students were reported by our school districts in the UG category. The instructions to districts for UG students is to only report students who’s abilities are so limited that they are unable to have a traditional K-12 grade assigned. So districts have moved, where possible, to reporting K-12 grades instead of UG grades.

## APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

There are 9 schools and 9 local education agencies (LEAs) with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### Minnesota

None.

### Mississippi

There are 2 schools with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### Missouri

None.

### Montana

Montana reported a combined count for ELMTCH, PKTCH, and KGTCH on the LEA and SEA files. The value of ELMTCH on LEA file exceeds the value of ELMTCH on the SEA file because the SEA file was edited to remove the PKTCH and KGTCH count from the ELMTCH count. No edit was made to the LEA file.

### Nebraska

There is 1 school with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### Nevada

None.

### New Hampshire

New Hampshire reported a combined count for SCHSUP and STUSUP. The value of SCHSUP on LEA file exceeds the value of SCHSUP on the SEA file because the SEA file was edited to remove the STUSUP count from the SCHSUP count. No edit was made to the LEA file.

New Hampshire reported a combined count for SCHADM and CORSUP. The value of SCHADM on LEA file exceeds the value of SCHADM on the SEA file because the SEA file was edited to remove the CORSUP count from the SCHADM count. No edit was made to the LEA file.

### New Jersey

The significant increase in PK membership is due to that starting 2010–11 New Jersey moved to report enrollment from the Statewide Longitudinal Data Systems (SLDS). In prior years, enrollment was gathered in aggregate from schools so PK kids in partner sites who were not in school 'buildings' were undercounted. The SLDS includes PK kids who are funded regardless of whether they are in a traditional school building.

There are 8 schools and 19 local education agencies (LEAs) with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### New Mexico

None.

### New York

State reported zero for the membership under the race category of Hawaiian Native/Pacific Islander and the corresponding details. State noted that their 2010–11 membership data were collected using a legacy system that collected Asian and Hawaiian Native/Pacific Islander a single category.

## APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

New York City Public Schools—The New York City Public Schools agency has been assigned a supervisory union number and its component sub-districts are identified as components of the supervisory union. The supervisory union component number can be used in aggregating data to a single observation for the New York City Public Schools district.

Table D-4 Local education agency identification numbers (LEAID) used in the Common Core of Data (CCD) for the 33 geographic districts associated with the New York City Public Schools district: School year 2010–11

Name of district	CCD LEAID
New York City Geographic District #1	3600076
New York City Geographic District #2	3600077
New York City Geographic District #3	3600078
New York City Geographic District #4	3600079
New York City Geographic District #5	3600081
New York City Geographic District #6	3600083
New York City Geographic District #7	3600084
New York City Geographic District #8	3600085
New York City Geographic District #9	3600086
New York City Geographic District #10	3600087
New York City Geographic District #11	3600088
New York City Geographic District #12	3600090
New York City Geographic District #13	3600091
New York City Geographic District #14	3600119
New York City Geographic District #15	3600092
New York City Geographic District #16	3600094
New York City Geographic District #17	3600095
New York City Geographic District #18	3600096
New York City Geographic District #19	3600120
New York City Geographic District #20	3600151
New York City Geographic District #21	3600152
New York City Geographic District #22	3600153
New York City Geographic District #23	3600121
New York City Geographic District #24	3600098
New York City Geographic District #25	3600122
New York City Geographic District #26	3600099
New York City Geographic District #27	3600123
New York City Geographic District #28	3600100
New York City Geographic District #29	3600101
New York City Geographic District #30	3600102
New York City Geographic District #31	3600103
New York City Geographic District #32	3600097
NYC Special Schools District 75	3600135

SOURCE: U.S. Department of Education, National Center of Education Statistics, Common Core of Data (CCD), "Local Education Agency Universe Survey," 2010–11, Version Provisional 2a.

### North Carolina

North Carolina has a substantial decrease in the number of instructional coordinators from the prior year. The state explained that the corresponding data in the prior year was incorrect.

North Carolina reported a combined count for ELMTCH and KGTCH on the LEA and SEA files. The value of ELMTCH on LEA file exceeds the value of ELMTCH on the SEA file because the SEA file was edited to remove the KGTCH count from the ELMTCH count. No edit was made to the LEA file.

## APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

There are 29 schools and 1 LEA with a value of “M” (Missing) for ULOCAL, CDCODE, CONMAE, CONUM because the state reports those schools and LEAs after the CCD files had undergone geocode processing.

### North Dakota

North Dakota reported OTHGUI and no guidance counselor details (ELMGUI and SECGUI). The value of OTHGUI on LEA file exceeds the value of OTHGUI on the SEA file because the SEA file was edited to disaggregate ELMGUI and SECGUI from OTHGUI. No edit was made to the LEA file.

### Ohio

Ohio reported OTHGUI and no guidance counselor details (ELMGUI and SECGUI). The value of OTHGUI on LEA file exceeds the value of OTHGUI on the SEA file because the SEA file was edited to disaggregate ELMGUI and SECGUI from OTHGUI. No edit was made to the LEA file.

### Oklahoma

None.

### Oregon

State did not report PK count. NCES used the IDEA (3-5) counts state reported to ED*Facts* for the PK counts at state level. Oregon reported OTHGUI and no guidance counselor details (ELMGUI and SECGUI). The value of OTHGUI on LEA file exceeds the value of OTHGUI on the SEA file because the SEA file was edited to disaggregate ELMGUI and SECGUI from OTHGUI. No edit was made to the LEA file.

### Pennsylvania

NCES notified Pennsylvania about the significant changes in PKTCH, AIDES, and OTHSUP from prior year to current year data. Pennsylvania responded that the data accurately reflect the data submitted by the LEAs and the LEAs had verified the accuracy of the data.

### Rhode Island

None.

### South Carolina

None.

### South Dakota

South Dakota reported OTHGUI and no guidance counselor details (ELMGUI and SECGUI). The value of OTHGUI on LEA file exceeds the value of OTHGUI on the SEA file because the SEA file was edited to disaggregate ELMGUI and SECGUI from OTHGUI. No edit was made to the LEA file.

### Tennessee

None.

### Texas

Texas reported OTHGUI and no guidance counselor details (ELMGUI and SECGUI). The value of OTHGUI on LEA file exceeds the value of OTHGUI on the SEA file because the SEA file was edited to disaggregate ELMGUI and SECGUI from OTHGUI. No edit was made to the LEA file.

### Utah

None.

### Vermont

Prekindergarten special education participation counts reported in the current year suggests prior year underreporting of PK students. NCES in consultation with the state adjusts PK counts for Supervisory Unions that have not reported PK membership but have reported PK special education participation counts.

APPENDIX D—State Notes for the Common Core of Data: School Year 2010–11

Virginia

None.

Washington

None.

West Virginia

None.

Wisconsin

None.

Wyoming

None.

Bureau of Indian Education (BIE)

None.

Department of Defense Dependents Schools (combined overseas and domestic)

In prior years the Department of Defense reported schools separately for overseas and domestic schools. In 2010–11 the Department of Defense Dependents Schools (overseas and domestic) were reported as a single entity. Department of Defense Dependents Schools (overseas and domestic) did not submit data for the 2010–11 school year.

American Samoa

American Samoa did not submit data for the 2010–11 school year.

Guam

Guam did not submit data for the 2010–11 school year.

Commonwealth of the Northern Mariana Islands

None.

Puerto Rico

None.

U.S. Virgin Islands

None.
