PART I - SURVEY SUMMARY

A. TITLE

Common Core of Data Public Education Agency Universe, 1994-95

B. DESCRIPTION

This data set contains 16,273 records, one for each public elementary and secondary education agency in the 50 states, District of Columbia, five outlying areas, and Department of Defense schools outside of the United States. Data are reported to the Bureau of the Census for the National Center for Education Statistics by the state coordinators. Each record provides state and federal identification numbers, agency name, address, telephone number, county name and FIPS code, agency type code, student counts, graduates and other completers counts, and other codes for selected characteristics of the agency. In addition, grade span, number of schools operated by the agency, and number of classroom teachers were aggregated from the CCD Public School Universe.
