

ERIC Journal List

Currently Cataloged
November 2024

A Publication of the Institute of Education Sciences

ERIC indexes a wide variety of journal sources. The coverage of an approved journal source is determined by an examination of three to five current issues during the source review process, but may be updated at any time. Source coverage is defined as follows:

- ***Comprehensively indexed*** journals contain an average of 80% or more education-related articles; ERIC creates a bibliographic record for all articles in every acquired issue.
- ***Selectively indexed*** journals contain an average of 50-79% education-related articles and are critical to topic area coverage; ERIC applies a manual article-by-article selection process and catalogs only the articles that conform to the standard and criteria outlined in the ERIC [Selection Policy](#).

The journals currently approved for cataloging in ERIC are listed below. The availability of records for an issue is dependent on content provided by the publisher. Click on the hyperlink to see all cataloged material from each journal. To view the journals by topic area, [click here](#).
