

## Errata

U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "Public Elementary/Secondary School Universe Survey", 1989-90,

Based on analysis conducted by NCES and the New York City Department of Education in July, 2018, NCES believes that some race/ethnicity enrollment counts were misreported for the schools listed in the table below. In the course of the data being collected and processed, leading digits were dropped from some counts for Asian and Hispanic students. The problematic counts and the corrected values are highlighted in the table. The adjusted race/ethnicity counts are consistent with other values reported for these schools including: the total enrollment for the schools (MEMBER89); the total of enrollment by grade; and the race/ethnic counts reported in the previous and following years. This correction has not been made to the raw data file, but it has been made to the database that can be accessed through the CCD's Elementary/Secondary Information System (<https://nces.ed.gov/ccd/elsi/>).

Corrected values for race/ethnic membership counts for selected schools in the New York City School District, 1989-90
