The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

NCES, IES, U.S. Department of Education 550 12th Street SW Washington, DC 20006-5651

### Acknowledgments

The operations and product development for the National Public Education Finance Survey (NPEFS) are supported through an interagency agreement with the U.S. Census Bureau. Specifically, a team of skilled analysts, statisticians, and information technology specialists from the Economic Reimbursable Surveys Division (ERD) of the Census Bureau work closely with the National Center for Education Statistics (NCES) to conduct the NPEFS. Additionally, a network of state education agency fiscal coordinators take responsibility for compiling and reporting finance data for public education activities within their respective states. While the professionals who supported this work are too numerous to list here, their time, effort, and commitment toward providing accurate school finance data are gratefully appreciated. Particular thanks are owed to the state fiscal coordinators, whose efforts make the Common Core of Data program possible.

# I. Introduction to the NCES Common Core of Data National Public Education Financial Survey (NPEFS), School Year 2016–17 (Fiscal Year 2017), Provisional File Version 1a

This documentation is for the provisional version 1a file of the National Public Education Financial Survey (NPEFS) for school year (SY) 2016–17, fiscal year 2017 (FY 17) conducted by the National Center for Education Statistics (NCES). It contains a brief description of the data collection, along with information required to understand and access the data file.

The Common Core of Data (CCD) is a national statistical program that collects and compiles administrative data from state education agencies (SEAs) covering the universe of all public elementary and secondary schools and school districts in the United States. NPEFS is one component of the CCD. The other components include nonfiscal, universe data (enrollment and staff data at the state, local education agency (LEA), and school levels), the School District Finance Survey (F-33), and the School-Level Finance Survey (SLFS). The principal users of CCD data are the federal government, the education research community, state and local government officials (including school boards and LEA administrators), and the general public.

Congress authorizes NCES to collect these data through the Education Sciences Reform Act of 2002 (20 U.S.C. § 9543). NCES and the Economic Reimbursable Surveys Division (ERD) of the U.S. Census Bureau collaborate to collect public education finance data, with the Census Bureau acting as the primary collection agent for NPEFS.

NPEFS provides state-level aggregate finance data for revenues and expenditures for public elementary and secondary education.

The NPEFS data are useful to (1) chief officers of SEAs, (2) policymakers in the executive and legislative branches of federal and state governments, (3) education policy and public policy researchers, (4) the press, and (5) citizens interested in information about education finance.

SEAs in the 50 states, the District of Columbia, and five U.S. Island Areas (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands) report aggregated state-level finance data to NPEFS. The data file is organized by state or jurisdiction and contains revenue data by funding source, expenditure data by function and object, <sup>1</sup> and average daily attendance (ADA) data. The NPEFS file also includes total student membership data collected by the State Nonfiscal Public Elementary/Secondary Education Survey.<sup>2</sup>

1

<sup>&</sup>lt;sup>1</sup> Function is defined as a category of expenditure defining the activity supported by the service or commodity bought, while *object* is defined as a category of expenditure defining the service or commodity bought. For more definitions of terms used in this report, please see Appendix B–Glossary.

<sup>&</sup>lt;sup>2</sup> U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "State Nonfiscal Public Elementary/Secondary Education Survey Data," SY 2016-17, Membership Version 1a.

#### II. User's Guide

The FY 17 NPEFS data file contains 56 records (one for each state or jurisdiction). Each record contains 304 fields (4 record identification fields, 150 data fields, and 150 imputation flag fields).

The appendixes of this document provide the following information:

- Appendix A—record layout for the data file;
- Appendix B—glossary with definitions of key variables;
- Appendix C—state abbreviations and American National Standards Institute (ANSI)<sup>3</sup> state codes;
- Appendix D—state-by-state list of imputations and edits;
- Appendix E—fiscal data plan questions;
- Appendix F—state-by-state responses to the fiscal data plan questions;
- Appendix G—frequencies of imputation flags and minimum, maximum, and mean of numeric variables;
- Appendix H—fiscal year definitions and specific state notes; and
- Appendix I—the survey form.

#### File Versions

NCES maintains strict version control of CCD files. The versions are identified by one numeric character and one alphabetic character. The number corresponds with the release version (e.g., "1" is the first release, "2" is the second release, etc.). The letter "a" also corresponds to a public release. <sup>4</sup> For school year 2016–17 (FY 17), the "1a" file is the first provisional file release.

NCES releases a provisional file (Version 1a) after a publication using the data has been released. (NCES standards require that an NCES publication using the data be released before the data are released.) Data in provisional data files have undergone a minimum of one round of data review and editing. NCES may update the file if SEAs report revised data to address errors in a provisional data file.

The data source for the Web Tables report entitled *Revenues and Expenditures for Public Elementary and Secondary Education: FY 17* is the FY 17 NPEFS provisional data file. This report provides users with an opportunity to access provisional NPEFS data that have been reviewed, edited, and imputed.

The provisional data are subject to an extensive review and editing process. Revisions submitted after the provisional data file is locked will be incorporated in the final file for each fiscal year. Final data files will be released at the time of the release of provisional data for the following year.

2

<sup>&</sup>lt;sup>3</sup> ANSI state codes replace the Federal Information Processing Standards (FIPS) state codes previously issued by the National Institute of Standards and Technology (NIST) for the 50 states, the District of Columbia, and the U.S. Island Areas. ANSI state code values map directly to the retired FIPS state code values.

<sup>&</sup>lt;sup>4</sup> Letters "b" through "z" are used for internal version control.

#### File names

The names of the FY 17 releases are as follows:

- Stfis17\_1a.txt (tab-delimited text file)
- Stfis17 1a.xls (Microsoft Excel file)

The first seven characters indicate the file contents and year, and the last two characters indicate the file version. "Stfis" stands for state fiscal, "17" stands for FY 17, and "1" indicates that the file is ready for initial release by NCES.

#### A. Survey Methodology

SEAs in the 50 states, the District of Columbia, and five U.S. Island Areas (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands) participate in the NPEFS collection.

SEAs appoint state fiscal coordinators to work with NCES and the Census Bureau to provide accurate and comparable data across states and jurisdictions. NCES and the Census Bureau provide annual training workshops for state fiscal coordinators that are designed to improve the efficiency and efficacy of reporting the NPEFS data. The annual training workshops cover the comprehensive review of data items; online training on data submission; discussion of reporting and editing processes; and interchange on coordinating submission of fiscal data with the state's data systems; which are all designed to improve data quality. During these training workshops, often times the state fiscal coordinators learn more from exchanging ideas among each other than from any other source. State fiscal coordinators also provide valuable feedback in these workshops that allows NCES to identify and address current issues related to school finance reporting so that the data continue to be relevant and timely.

Prior to reporting the NPEFS data, SEAs must compile fiscal data from the LEAs that operate or support public elementary and secondary schools. SEAs may review and edit data from their LEAs to enhance data quality. SEAs also include revenues and expenditures for any state-run schools, such as schools with special education programs or juvenile justice facilities that provide education services. NCES and SEAs work cooperatively to ensure comparability between the data items requested and reported.

In addition to the state fiscal coordinator, each SEA assigns a certifying official<sup>5</sup> who certifies that the data constitute a true and full report of revenues, expenditures, and student attendance during the regular school year and for summer school for the public elementary and secondary schools.

The FY 17 NPEFS data collection opened on January 31, 2018 and closed on August 15, 2018. Upon receipt of a state's submission, Census Bureau and NCES analysts reviewed the data for possible errors or anomalies. Between August 16, 2018 and August 15, 2019, some SEAs reported revisions to correct or resolve errors in their original submission.

<sup>5</sup>NCES requires that each Chief State School Officer designate in writing a certifying official to be responsible for authenticating the submission for their state. The certifying official must be a fiscal official at the highest level in the SEA (U.S. Department of Education 2017).

#### Missing, nonapplicable, and suppressed data

Missing data are reported as "-1" in the data file, nonapplicable data are reported as "-2," and true zero data remain as "0." The FY 17 NPEFS Reporting Instructions (NCES 2018) request that states report "0" using the Z flag for data items for which no activity has occurred and "-1" using the M flag for items for which activity has occurred, but for which data are missing. Zeros reported as not applicable are designated as -2 using the N flag. In some instances, a "-1" or "-2" may have been reported when there was no activity. Conversely, a "0" may have been reported when, in fact, there was some activity. When producing the final file, NCES edits some "-1", "-2," and "0" responses (e.g., textbook expenditures reported as "0" might be edited to "-1."). Beginning with FY 10, CCD identifies submitted NPEFS data that do not meet NCES data quality standards by reporting the data item as "-9" and the corresponding data item flag as "A." This suppression would only occur with numeric data items.

#### Average daily attendance data and student membership counts

The report from SEAs includes average daily attendance, revenue, and expenditure data from which NCES determines the average State Per Pupil Expenditure (SPPE) for elementary and secondary education, as defined in section 9101(2) of the Elementary and Secondary Education Act of 1965, as amended (ESEA) (20 U.S.C. 7801(2)). In addition to utilizing SPPE as general information on the financing of elementary and secondary education, the Secretary uses these data directly in calculating allocations for certain formula grant programs, including, but not limited to, Title I, Part A of the ESEA, Impact Aid, and Indian Education programs. Other programs, such as the Education for Homeless Children and Youth program under Title VII of the McKinney-Vento Homeless Assistance Act and the Teacher Quality State Grants program (Title II, Part A of the ESEA), make use of SPPE data indirectly because their formulas are based, in whole or in part, on State Title I, Part A allocations. SPPE is calculated by dividing net current expenditures by average daily attendance (ADA).

NPEFS has two different types of pupil or student count data. Title I of the Elementary and Secondary Education Act of 1965 (as amended by Title I of the Improving America's Schools Act of 1994) requires SEAs to collect and report ADA data. ADA is the average daily attendance for the school year. Pursuant to Title I of the Elementary and Secondary Education Act, SEAs report ADA data in accordance with state law. Average daily attendance is defined by state law or regulations.

In the absence of state law or regulations, states may report ADA per the federal statutory definition used by NCES. The federal definition of ADA is as follows:

- (i) the aggregate number of days of attendance of all students during a school year; divided by
- (ii) the number of days school is in session during that year. 20 U.S.C §7801 (1)

<sup>6</sup> For example, in states where none of the school districts have independent tax-raising authority, the variables Local Revenue Property Tax (R1A) and Local Revenue Nonproperty Tax (R1B) are reported as "-2."

<sup>&</sup>lt;sup>7</sup> Department of Education, Notice of Submission of Data by State Education Agencies: Submission Dates for State Revenue and Expenditure Reports for Fiscal Year 2017, Revisions to Those Reports, and Revisions to Prior Fiscal Year Reports" 82 *Federal Register* 53487 (November 16, 2017).

Thus, NCES calculates ADA by summing the counts of resident students attending public school each day of the school year and then dividing by the total number of days that school is in session during the school year. The NCES definition requires every school or school district in a state to collect attendance every day it is in session, and to record the number of days it is in session. ADA data in the NPEFS data file are not necessarily comparable across states because some states use their own state definitions while other states use the NCES definition.

The NPEFS file also includes membership data (MEMBR16) from the State Nonfiscal Public Elementary/Secondary Education Survey collection for SY 2016-17. Membership is defined as the official, unduplicated student enrollment, including students both present and absent, excluding duplicate counts of students within a specific school or LEA or students whose membership is reported by another school or LEA, on the school day closest to October 1. Because CCD membership is collected using a consistent definition for every state, NCES uses it, rather than average daily attendance, in the calculation of expenditures per pupil in the NPEFS reports.

#### **Employee Benefits Data**

NPEFS collects employee benefits for the functions of instruction, support services, and operation of noninstructional services. NPEFS respondents are currently reporting employee benefits, which are defined as the "Amounts paid by the school district on behalf of employees (amounts not included in gross salary but in addition to that amount). Such payments are fringe benefits payments and although not directly paid to employees, nevertheless are part of the cost of personal services." The definition of employee benefits is derived from the NCES school finance accounting handbook, *Financial Accounting for Local and State School Systems: 2014 Edition* (Allison 2015). NPEFS does not collect actuarially determined annual required contributions; accrued annual requirement contribution liability; or the actuarial value of pension plan assets. 11

#### **Use of Crosswalk Software**

Since the FY 89 data collection, the Census Bureau has been utilizing "crosswalk" software to assist states in their reporting and to improve the comparability of data across states. This software converts a state's existing accounting reports to uniform federal standards, as described in the NCES accounting handbook, *Financial Accounting for Local and State School Systems:* 2014 Edition (Allison 2015). The following states used crosswalk software provided by NCES in the FY 17 collection: Alabama, California, Illinois, Mississippi, Montana, New Jersey, New Mexico, New York, North Carolina, Oregon, South Carolina, South Dakota, and Wisconsin.

.

contributions and actual payments made to the pension fund.

<sup>&</sup>lt;sup>8</sup> Appendix B specifies that employee benefits include "amounts paid by, or on behalf of, an LEA for retirement contributions, health insurance, social security contributions, unemployment compensation, worker's compensation, tuition reimbursements, and other employee benefits."

<sup>&</sup>lt;sup>9</sup> Actuarially determined annual required contributions are the annual required contribution (ARC) that incorporates both the cost of benefits in the current year and the amortization of the plan's unfunded actuarial accrued liability.

<sup>10</sup> The accrued annual requirement contribution liability is the difference between actuarially determined

<sup>&</sup>lt;sup>11</sup> Actuarial value of pension plan assets is the value of cash, investments, and other property belonging to a pension plan as used by an actuary for the purpose of an actuarial valuation.

#### NCES edit checks

Pursuant to NCES statistical standards, NPEFS staff engages in data editing, which is an iterative and interactive process that includes procedures for detecting and correcting errors in the data.

After an SEA submits NPEFS data, NPEFS staff conducts a comprehensive review of the data and edit checks. These checks include but are not limited to:

- trend analysis for multiple years;
- large value and percentage fluctuations;
- zero dollar values;
- appropriate usage of data flags;
- sum checks;
- comparison of record layouts to record layouts the SEA submitted in the previous fiscal year;
- comparisons of membership between the state nonfiscal files and the NPEFS file;
- comparison of min/max/mean of all numeric data items to ensure the percentage changes of the means between the previous and current year's data are in a reasonable range;
- and adequate comments from respondents explaining any data anomalies.

Pursuant to NCES Statistical Standard 4-1, the data are "checked for credibility based on range tolerances to determine if responses fall within a pre specified reasonable range," and are properly documented. The data are also checked "for consistency based on checks across variables within individual records for non-contradictory responses."

The NPEFS staff prepares an edit report that includes the results from the aforementioned tests. Notification of any arithmetic errors and comments containing NCES' understanding of specific missing data items are also included in the edit report.

States are asked to correct arithmetic errors, verify or correct data that fail edit checks, complete missing items, and explain any extraordinary changes from the previous year's data. NCES or the Census Bureau may make requests for clarification, reconciliation, or other inquiries pertaining to the data. SEAs can respond directly to these requests for clarification and/or reconciliation or resubmit data to resolve data issues on their own initiative. Data that remain missing or uncorrected are imputed based on values derived from other "fully reporting" states or other related data elements from within the state.

#### Student membership edits

Every school year, SEAs report student membership counts by grade on the CCD State Nonfiscal Survey of Public Elementary/Secondary Education. The NPEFS data file includes total student membership reported on the State Nonfiscal Survey that includes grades prekindergarten through

6

<sup>&</sup>lt;sup>12</sup> Notice of Submission of Data by State Education Agencies: Submission Dates for State Revenue and Expenditure Reports for Fiscal Year 2017, Revisions to Those Reports, and Revisions to Prior Fiscal Year Reports, 82 *Federal Register* 53487 (November 16, 2017).

<sup>&</sup>lt;sup>13</sup> Fully reporting states must have positive values for all fields.

grade 12 (plus ungraded). If the reported fiscal data exclude prekindergarten programs, total membership should also exclude prekindergarten membership.

As part of the FY 17 NPEFS collection process, NCES asked SEAs to review student membership data from the State Nonfiscal Survey and verify that the membership data are consistent with the programs covered in the revenues and expenditures data reported in NPEFS. Arizona, New York, and Oregon indicated that the state fiscal data reported in NPEFS did not include finance data for prekindergarten programs. In these states, the NPEFS total student membership variable excludes prekindergarten membership. California did not report prekindergarten membership in the State Nonfiscal Survey of Public Elementary/Secondary Education. For California, the data in the Nonfiscal public release file has been imputed and only includes preschool students with disabilities, as reported for the Individuals with Disabilities Education Act (IDEA). The number of students enrolled in preschool in California is likely much higher. California reported state fiscal data that includes prekindergarten programs in the NPEFS data collection.

#### **B.** Imputations

Imputation is a procedure that uses available information and some plausible assumptions to derive substitute values for missing values in a data file (NCES 2014). Currently, the Herriot imputation methodology (Monaco and Wang 1995) is used to impute for missing items in the NPEFS data file. For an allocation, the Herriot method calculates the average proportion of the total from the states for each of the detailed variables. This average is divided by the sum of the averages from each of the detailed variables and is rescaled to one by dividing by the sum of the detail averages. The purpose of imputations is to provide a complete data file that allows for both cross-sectional and longitudinal analysis, as well as comparability of data across states.

Imputations modify values for cases or records where data are not reported (missing) or are incorrectly reported. In some cases, a state may not be able to track funds for a certain program or purpose. If these data elements are imputed, the appropriate totals and subtotals are either increased or decreased to include the imputed data elements. In other cases, states are able to provide a subtotal but are unable to provide details that are more specific. The imputed allocation of these subtotals does not affect the totals or subtotals.

SEAs inform the Census Bureau where data are included so that funds are deducted and distributed appropriately. SEAs review the results of the imputations imposed and certify the imputed value's reasonableness to the best of their knowledge based on their available data. After the imputation process is complete, the Census Bureau creates data files for the current and prior fiscal years. The Census Bureau uploads these files to the NCES secure data transfer site for review. The Institute of Education Sciences File Transfer System allows the Census Bureau to transfer data to NCES in a secure environment.

If SEAs have reason to believe that the initial imputation is not a reasonable representation of their data, the state may choose to make changes to the data. If states make changes to data or fill in missing items that were previously imputed, the Census Bureau will run a second round of imputations. The certified data from the first round are not re-imputed even if the uncertified first-round imputations resulted in the updating of some relevant data. In the second round

version of the file, imputations are only applied to missing data for states that update their data submission for that fiscal year. Empirical testing has shown that a re-imputation of the entire file did not substantially change the imputed data enough to justify the additional burden of asking states to recertify the revised imputation. The data flags in the NPEFS data file identify data items that were imputed.

# "Contains," "Combined with," and "Totals" imputations based on the "Herriot Imputation Method"

The Herriot Imputation Method is used to distribute a reported subtotal across two or more unreported categories using the ratio of each subcategory to the grand total as the basis of the final distribution. This is used when the ratio of a data item to the grand total has less variance across states than the ratio of that item to the subtotal. The computation of this method involves using the average ratio of each item to be imputed to the grand total across all "fully reporting" states to calculate the unreported subcategories and then raking the imputed items to the reported subtotal. These imputations do not affect any totals or subtotals.

Imputations identified in Appendix D as being "Combined with," "Contains," or "Supplemented by" use the Herriot Imputation Method. These are cases where a state is unable to report explicitly into the NCES CCD category sets but are able to report a subtotal. For example, the statement "A contains B, C, and D by T" in Appendix D indicates that the reported value of A is actually the subtotal of A, B, C, and D where T is the grand total. The "Herriot Imputation Method" is then applied to impute the final values of A, B, C, and D.

#### "Impute/Import" imputations

The Herriot Method is not necessary when the variance of the item to the subtotal across reporting states is sufficiently low. In this case, the imputation method can be simplified by comparing the missing components to the subtotal rather than the grand total. If the subtotal is reported but the distribution of that subtotal across items is unknown, then the "Impute/Import" function uses the ratio of one or more elements to the subtotal, averaged across "fully reporting" states to distribute the reported subtotal into one or more item components. In Appendix D, the syntax for "Impute/Import" imputations is "A Impute/Import T" where A is a single item or array of items that are components of the total T.

#### "Impute based on" imputations

Statements with "impute based on" indicate that the first item was reported as missing and the missing value was assigned based on information from the variables following "based on." In some cases, the subtotal may have been incomplete. When a component of the subtotal is not reported, and it is known that the subtotal does not include the unreported item, the ratio used in the "impute/import" procedure must be modified. The average subtotal is calculated across "fully reporting" states and the missing item is compared to that modified subtotal. For example, "A imputed based on (T-A)" implies that A, in the target state, is not included in T. Therefore, the average ratio of A to the total excluding A across the "fully reporting" states is applied to T in the target state to estimate A in the target state. Totals must then be recalculated after the imputation, as the imputed value can now be included in the grand total.

#### "Distribute by" imputations

In some cases, the state may have reported a positive value for an item that should actually be zero. In these cases, the value of the misreported item is redistributed into several other reported items based on the known distribution of the target items. For example, the statement "A distributed by destination/salary B, C, D, E, F" can be interpreted as, the value reported as "A" has been prorated into B, C, D, E, and F based on the reported distribution of B, C, D, E, and F. "A" is then set to zero. In these cases, since B, C, D, E, and F were all reported, data from any other states are not necessary to perform the calculation.

#### **Data flags**

For each variable, a companion flag indicates whether the value was reported by the state or was placed there by NCES using one of several imputation or edit methodologies. The flags are as follows:

- R As reported by the state
- A Edited by the analyst (formerly labeled "Adjusted")
- I Imputed based on a method other than prior year's data<sup>14</sup>
- T Total based on sum of internal or external detail

The companion cell in each case is identified by the name of the data cell preceded by an "I." Appendix D explains any action taken by NCES with regard to each variable.

#### C. Variations in the Survey Over Time

NPEFS underwent a major revision in FY 89, acquiring its present name in that year and greatly increasing the number of data items collected. Since that year, items have been added to and deleted from the survey, as follows:

- *Beginning with the FY 92 survey:* 
  - Food Services expenditures were broken out by object, adding the data items Food Services – Salaries (E3A11), Food Services – Employee Benefits (E3A12), Food Services – Purchased Services (E3A13), Food Services – Supplies (E3A14), and Food Services – Other (E3A16).
  - Enterprise Operations expenditures were broken out by object, adding the data items
     Enterprise Salaries (E3B11), Enterprise Employee Benefits (E3B12), Enterprise –
     Purchased Services (E3B13), Enterprise Supplies (E3B14), and Enterprise Other (E3B16).

<sup>14</sup> For some NCES surveys, imputations of missing data items are performed by applying a growth factor to data reported in a prior year. This type of growth-rate imputation is not performed for NPEFS. "I" is assigned the value of "Imputed based on a method other than prior year's data" to maintain consistency in the meaning of imputation flags across NCES surveys.

Facilities Acquisition and Construction Services - Nonproperty expenditures were broken out into Buildings Built and Alterations Performed by LEA's Own Staff (E611) and Buildings Built and Alterations Performed by Contractors (E612). In addition, Facilities Acquisition and Construction Services – Property expenditures were broken out into Land (E62A) and Buildings (E62B). STE6, the sum of all of the Facilities Acquisitions and Construction Services items, was added.

#### Beginning with FY 98 survey:

- The Facilities Acquisition and Construction Services breakouts listed above (items E611, E612, E62A, and E62B) were discontinued.

#### ■ *Beginning with FY 04 survey:*

- Teacher salaries expenditures were broken out by program, adding the data items
   Teacher Salaries Regular Programs (E11A), Teacher Salaries Special Education
   Programs (E11B), Teacher Salaries Vocational Education Programs (E11C), and
   Teacher Salaries Other Education Programs (E11D).
- -A data item for textbooks expenditures (E2) was added.
- *Beginning with FY 09 survey:* 
  - Seven items for expenditures from the ARRA funds were added:

Instructional Expenditures From ARRA Funds (ARRASTE1), Total Current Expenditures From ARRA Funds (ARRATE5), Community Service Nonproperty and Direct Cost Programs From ARRA Funds (ARRAE81Z), Property Expenditures From ARRA Funds (ARRATE10), School Construction Expenditures From ARRA Funds (ARRASTE6), Expenditures From Title I Received Under ARRA (ARRATLEIZ), and Direct Program Support Expenditures From ARRA Funds (ARRASTE4).

#### ■ *Beginning with FY 15 survey:*

– Seven items for expenditures from the ARRA funds were removed:

ARRASTE1, ARRATE5, ARRAE81Z, ARRATE10, ARRASTE6, ARRATLEIZ, and ARRASTE4.

- *Beginning with FY 16 survey:* 
  - Two items for current expenditures by fund type were added:

Current Expenditures Paid from State and Local Funds (CE1) and Current Expenditures Paid from Federal Funds (CE2).

#### D. Fiscal Data Plan

NCES collects information from each state to help process the data and to gain a better understanding of what programs and/or policies are connected with the data items and definitions. The FY 17 fiscal data plan questionnaire appears in appendix E, and the responses for each state or jurisdiction appear in appendix F. The fiscal data plan responses are presented as reported by SEAs with minimal editing by NCES. The responses to the fiscal data plan are not included on the data file.

#### E. State Notes

The state notes contain information from state data providers regarding any significant changes in the data they are reporting. See Appendix H. These comments are reported in this documentation as stated by the respondents with minimal editing by NCES. The beginning and end dates of the fiscal year are also reported for each state.

This glossary applies to the Common Core of Data National Public Education Financial Survey (NPEFS). For additional detail, it is suggested that the data user consult the NCES accounting handbook, *Financial Accounting for Local and State School Systems: 2014 Edition* (Allison 2015). When applicable, line numbers corresponding to the handbook are listed in parentheses, and corresponding NPEFS variable names are listed in brackets.

**administration expenditures:** Expenditures for school administration (2400) (the school principal's office), general administration (2300) (the superintendent and board of education and their immediate staff), and other support services expenditures (2500 and 2900) (local education agency [LEA] planners/ researchers, personnel, fiscal services, warehousing, and other activities of an LEA).

average daily attendance: Average daily attendance (ADA) is defined by state law or regulations. In their absence, ADA should be calculated by summing the counts of resident students attending public school each day of the school year and then dividing by the total number of days that school is in session during the school year. Students who reside in one state and attend public school in another state should be counted in the state where they reside. [ADA, A14A, and A14B.]

**CCD:** Common Core of Data. A group of public elementary/secondary education surveys of NCES. CCD data are collected from the administrative records systems of each state's department of education.

**capital outlay:** Direct expenditures for construction of buildings, roads, and other improvements and for purchases of equipment, land, and existing structures. Includes amounts for additions, replacements, and major alterations to fixed works and structures. However, expenditures for repairs to fixed works and structures are classified as current expenditures for operations.

**charter school:** A school providing free public elementary and/or secondary education to eligible students under a specific charter granted by the state legislature or other recognized public chartering agency, and designated by such authority to be a charter school.

**community services:** A functional category of expenditures (3300) for such services as swimming pools, day care centers, and programs for the elderly. [**E81** and **E82**].

**current expenditures:** Funds spent operating local public schools and local education agencies, including such expenses as salaries for school personnel, student transportation, school books and materials, and energy costs, but excluding capital outlay, interest on school debt, payments to private schools, and payments to public charter schools. [**TE5** is the total of **STE1**, **STE2T**, and **STE3**.]

**current expenditures per pupil:** Current expenditures per pupil are calculated by dividing current expenditures by membership. **[TE5, MEMBR16.]** 

debt services: A subfunction (5100) within the expenditure function "other uses" (5000). It

includes interest and principal payments related to servicing the long-term debt of the school system or its parent government with obligations exceeding 1 year. [E7A1 and E7A2.]

direct cost programs: A category of expenditures for programs not part of public elementary and secondary education. These programs include community colleges (565), adult education, and nonpublic school support. [E9A, E9B, E9C, E9D, E91, and subtotal STE9. NOTE: STE9 does not include E91.]

direct program support: Expenditures made by state education agencies (SEAs) for, or on behalf of, local education agencies (LEAs). State expenditure for staff retirement programs is the most common form of direct support. The remainder are for textbooks, busing, and special programs, such as education for disabled students. Although states often report these expenditures in the appropriate function, they are sometimes lumped together under the heading "direct program support," in which case NCES distributes them by function and object after consultation with state officials. Direct program support for public elementary and secondary education is reported in the data file as zero. [E4A1, E4A2, E4B1, E4B2, E4C1, E4C2, E4D, E4E1, E4E2, and subtotal STE4. NOTE: STE4 does not include E4A2, E4B2, E4C2, E4D, and E4E2.]

**elementary/secondary education:** Programs providing instruction, or assisting in providing instruction, for students in prekindergarten, kindergarten, grades 1 through 12, and ungraded programs.

employee benefits: Expenditures (200) made in addition to gross salary that are not paid directly to employees. Employee benefits include amounts paid by, or on behalf of, an LEA for retirement contributions, health insurance, social security contributions, unemployment compensation, worker's compensation, tuition reimbursements, and other employee benefits. [E12, E222, E223, E224, E225, E226, E227, E228, E3A12, and E3B12. Variables E222, E223, E224, E225, E226, E227, and E228 sum to TE22.]

enterprise operations: A subfunction (3200) of noninstructional services (3000). Enterprise operations are activities that are financed, at least in part, by user charges, similar to a private business. These operations are sometimes subsidized by LEAs. Food services expenditures are reported under food services, even if they are run as an enterprise. [E3B11, E3B12, E3B13, E3B14, E3B2, E3B16, and subtotal E3B1. NOTE: E3B1 does not include E3B2.]

**equipment:** An object subcategory (730) within facilities acquisition and construction services (4000). It includes the initial purchase of property items such as books for a newly constructed school or addition. Replacement equipment is labeled property and is reported by function. [**E63**]

**expenditures:** All amounts of money paid out by a school system, net of recoveries and other correcting transactions, other than for retirement of debt, purchase of securities, extension of loans, and agency transactions. Expenditures include only external transactions of a school system and exclude noncash transactions such as the provision of perquisites or other in-kind payments.

**facilities acquisition and construction services:** An expenditure function (4000) that includes the acquisition of land and buildings; building construction, remodeling, and additions; the initial installation or extension of service systems and other built-in equipment; and site improvement. **[E61, E62, E63,** and subtotal **STE6**.]

**federal revenues:** Includes direct grants-in-aid to schools or agencies, funds distributed through a state or intermediate agency, and revenues in lieu of taxes to compensate a school district for nontaxable federal institutions within a district's boundary. [R4A, R4B, R4C, R4D, and subtotal STR4.]

**fiscal year:** The 12-month period to which the annual operating budget applies. At the end of the fiscal year, the agency determines its financial condition and the results of its operations.

**food services:** A subfunction (3100) of noninstructional services (3000). Food services are activities that provide food to students and staff in a school or LEA. These services include preparing and serving regular and incidental meals or snacks in connection with school activities as well as delivery of food to schools. [E3A11, E3A12, E3A13, E3A14, E3A2, E3A16, and subtotal E3A1. NOTE: E3A1 does not include E3A2.]

**function:** A category of expenditure defining the activity supported by the service or commodity bought.

**general administration:** One of nine subfunctions (2300) within the expenditure function support services (2000). It includes expenditures for the board of education and administration of LEAs. [E214, E224, E234, E244, E254, E264, and subtotal STE24. NOTE: STE24 does not include E254.]

**instruction:** Current expenditures (1000) for activities directly associated with the interaction between teachers and students, including teacher salaries and benefits, supplies (such as textbooks), and purchased instructional services. These expenditures also include expenditures relating to extracurricular and cocurricular activities. [E11, E12, E13, E14, E15, E16, E17, E18, and subtotal STE1. Variables E15 and E17 are not included in STE1.]

instruction and instruction-related expenditures: Expenditures for instruction (1000) and instructional staff support services (2200). These are expenditures that are directly related to providing instruction and for activities that assist with classroom instruction. The instruction and instruction-related expenditures category is more expansive than only instruction expenditures. Specifically, the instruction and instruction-related expenditures category includes salaries and benefits for teachers, teaching assistants, librarians and library aides, in-service teacher trainers, curriculum development, student assessment, technology (for students, but outside the classroom), and supplies and purchased services related to those activities.

instructional staff support services: One of nine subfunctions (2200) within the expenditure function support services (2000). It includes instructional staff training, educational media (library and audiovisual), and other instructional staff support services. [E213, E223, E233, E243, E253, E263, and subtotal STE23. NOTE: STE23 does not include E253.]

interest on debt expenditures: Interest expenditures (832) on long-term debt. [E7A1]

**intermediate sources of revenue:** Education agencies with fundraising capabilities that operate between the state and local government levels. One example is New York's Board of Cooperative Educational Services (BOCES). Intermediate revenues are included in local revenue totals for many publications, but are separate in the data file. [**R2**]

**local education agency (LEA):** The government agency at the local level whose primary responsibility is to operate public schools or to contract for public school services. This item may be used interchangeably with the term "school district."

**local revenues:** Include revenues from such sources as local property and nonproperty taxes, investments, and student activities such as textbook sales, transportation and tuition fees, and food service revenues. [R1A, R1B, R1C, R1D, R1E, R1F, R1G, R1H, R1I, R1J, R1K, R1L, R1M, R1N, and subtotal STR1. R1F and R1H are not included in STR1.]

**NPEFS:** National Public Education Financial Survey, a component of the Common Core of Data (CCD).

**long-term debt:** Debt payable more than 1 year after the date of issue.

**object:** A category of expenditure defining the service or commodity bought.

operations and maintenance: One of nine subfunctions (2600) within the expenditure function support services (2000). It includes expenditures for the supervision of operations and maintenance, the operation of buildings, the care and upkeep of grounds and equipment, vehicle operations (other than student transportation) and maintenance, and security. [E216, E226, E236, E246, E256, E266, and subtotal STE26. NOTE: STE26 does not include E256.]

**other program expenditures:** Expenditures for community services, adult education, community colleges, private schools, and other programs that are not part of public elementary and secondary education.

other support services: Combines three of nine subfunctions (2500, 2800, and 2900). It includes expenditures for business support services (activities concerned with the fiscal operation of the LEA), central support services (activities, other than general administration, which support each of the other instructional and support services programs, including planning, research, development, evaluation, information, and data processing services), and other support services expenditures not reported elsewhere. [E218, E228, E238, E248, E258, E268, and subtotal STE28. NOTE: STE28 does not include E258.]

**property:** One of six expenditure objects (700). Property includes expenditures for initial, additional, and replacement furniture and fixtures such as desks, file cabinets, computers, copying machines, printing equipment, and other equipment. Property expenditures are not

included in current expenditure subtotals. [E17, E252, E253, E254, E255, E256, E257, E258, E3A2, E3B2, E62, E63, E82, E91, and subtotal TE10. Property variables are excluded from all totals and subtotals in the file except for variables TE25, TE10, and TE11. Support services subtotal TE25 is the sum of E252, E253, E254, E255, E256, E257, and E258.]

purchased services: One of six expenditure objects. It is for professional and technical services and the renting of equipment. [E13, E232, E233, E234, E235, E236, E237, E238, E3A13, and E3B13. TE23 is the sum of E232, E233, E234, E235, E236, E237, and E238.]

**replacement equipment expenditures:** Expenditures for equipment for schools that are not new or recently renovated. Equipment is generally defined as items that last more than 1 year, are repaired rather than replaced, and have a cost over a level set by the state or local education agencies.

**revenues:** Additions to assets that do not incur an obligation that must be met at some future date, do not represent exchanges of fixed assets, and are available for expenditure by the local education agencies in the state. Revenues include funds from local, intermediate, state, and federal sources.

salaries: One of six expenditure objects (100). It includes the gross salaries of permanent and temporary staff on the payroll of LEAs, including those substituting for permanent employees. Salaries for full- and part-time staff are included along with overtime and salaries for staff on sabbatical leave. Also included are supplemental amounts for additional duties such as coaching or supervising extracurricular activities, bus supervision, and summer school teaching. Salaries for teachers and staff that are contracted out by an LEA are not included. [E11, E212, E213, E214, E215, E216, E217, E218, E3A11, and E3B11. Support services subtotal TE21 is the sum of E212, E213, E214, E215, E216, E217, and E218.]

school administration: One of nine subfunctions (2400) within the expenditure function support services (2000). It includes expenditures for the office of the principal, full-time department chairpersons, and graduation expenses. [E215, E225, E235, E245, E255, E265, and subtotal STE25. STE25 does not include E255.]

**state revenues:** Revenues received by LEAs from the state, including unrestricted grants-in-aid, restricted grants-in-aid, revenue in lieu of taxes, and payments for, or on behalf of, LEAs. It includes both direct funds from state governments and funds in lieu of taxation. Revenues in lieu of taxes are paid to compensate a school district for nontaxable state institutions or facilities within the district's boundary. **[R3]** 

**student membership:** Annual unduplicated headcount of students enrolled in school on October 1 or the school day closest to that date. In any given year, some small schools will not have any students.

**student support services:** One of nine subfunctions (2100) within the expenditure function support services (2000). It includes attendance and social work, guidance, health, psychological services, speech pathology, audiology, and other student support services. [E212, E222, E232, E242, E252, E262, and subtotal STE22. NOTE: STE22 does not include E252.]

**student transportation:** One of nine subfunctions (2700) within the expenditure function support services (2000). It includes expenses for the supervision, vehicle operation, monitoring, and vehicle servicing and maintenance associated with student transportation services. Expenditures for purchasing buses are reported under equipment. [**E217**, **E227**, **E237**, **E247**, **E257**, **E267**, and subtotal **STE27**. NOTE: **STE27** does not include **E257**.]

supplies: One of six expenditure objects (line item 600). Supplies are items that are consumed, wear out, or deteriorate through use, or items that lose their identity through fabrication or incorporation into different or more complex units or substances. These include expenditures for general supplies; paper and other materials required for printing and copying; and books, periodicals, and reference materials. [E16, E242, E243, E244, E245, E246, E247, E248, E3A14, and E3B14. Support services subtotal TE24 is the sum of E242, E243, E244, E245, E246, E247, and E248.]

support services: An expenditure function (2000) divided into nine subfunctions: student support services (2100), instructional staff support (2200), general administration (2300), school administration (2400), operations and maintenance (2600), student transportation (2700), and other support services (2500, 2800, 2900). [Support services subtotal STE2T is the sum of subtotals STE22, STE23, STE24, STE25, STE26, STE27, and STE28. STE2T is also the sum of subtotals TE21, TE22, TE23, TE24 and TE26.]

**teacher salaries - other programs:** Salaries for teachers in programs other than regular education, special education or vocational education (objects 111 and 113; programs #400 and #900). Include salaries in alternative education programs. [**E11D**]

**teacher salaries - regular education:** Salaries for teachers in regular education programs, grades: Prekindergarten, Kindergarten, Ungraded and Grades 1 through 12. Missing data are included in the amount reported for Instruction Salaries. Include salaries in alternative education programs. (Objects 111 and 113; Program #100) [**E11A**]

teacher salaries - special education: Salaries for teachers in special education programs, relating to intellectual disability, orthopedic impairment, emotional disturbance, developmental delay, specific learning disabilities, multiple disabilities, hearing impairment, other health impairments, visual impairments including blindness, autism, deaf-blindness, traumatic brain injury, and speech or language impairments. Include salaries in alternative education programs. (Objects 111 and 113; Program #200) [E11B]

**teacher salaries - vocational education:** Salaries for teachers in vocational and technical programs. Include salaries in alternative education programs. (Objects 111 and 113; Program #300) [**E11C**]

**textbook expenditures:** Expenditures for textbooks used in instructing students (function 100, object 640). Missing data are included in the amount reported Instruction Supplies. [**E2**]

**total expenditures:** The sum of current expenditures, nonelementary/secondary expenditures, capital outlay, and interest payments on debts. **[TE11]** 

**total revenues:** The sum of revenue contributions emerging from local, state, and federal sources. Revenue received from bond sales or the sale of property or equipment is not included. **[TR]**

# **Appendix E—Fiscal Data Plan Questions**

# National Public Education Financial Survey (NPEFS) Fiscal Year 2017 Fiscal Data Plan January 30, 2018

### Direct Program Support / State Payments on Behalf of the Local Education Agency (LEA)

**Note:** Both NPEFS and the School District Finance (F-33) Survey use your responses to questions 1-4 below to analyze and process the Direct Program Support/State Payments on Behalf of the LEA sections of the surveys. It is critical that these questions be completed as accurately as possible so that state expenditures on behalf of LEAs are reflected correctly on NPEFS and F-33.

In some instances, the amounts requested in question 4 are missing in the fiscal data plan, yet are included within the Direct Program Support section of NPEFS. If applicable to your state, the amounts reported in question 4 below should match the amounts reported within the Direct Program Support section of NPEFS unless the Direct Program Support amounts have been functionalized within the survey. If the amounts have been functionalized, then Direct Program Support payments will still need to be broken out and reported separately under question 4.

1.	In your state, do LEAs receive funds from the state classified as Direct Program Support (NPEFS)/State Payments on Behalf of the LEA (F-33)?
	No (Please go to question 5.) Yes
2.	Where are these amounts reported in NPEFS? (Check all that apply.)
	Revenues
	Expenditures
	Direct Program Support is not reported on NPEFS
3.	How are these amounts reported in F-33?
	Amounts are reported in F-33 at the school district level
	Amounts are reported in F-33 as state totals
	Amounts are reported only in the fiscal data plan, not F-33

4.	Please provide the TOTAL Direct Program Support/State Payments on Behalf of the LEA amounts in your state (include all amounts, even those reported under their appropriate functions).					
	4a. Textbooks for Public Scho					
	1. Non-Property	\$				
	2. Property Only	\$				
	<b>4b. Transportation for Public</b> 1. Non-Property	School Students \$				
	2. Property Only	\$				
	4c. Employee Benefits for Pul 1. Non-Property	blic School Employees \$				
	LEA expenditures for Em of employee benefits these Retirement Health Insurance	et Program Support/State Payments on B ployee Benefits, please indicate the general expenditures support: (Check all that appears)	ral categories			
	<b>4e. Direct Program Support f</b> 1. Non-Property	\$				
	2. Property Only	\$				
	4f. Other Direct Program Sup	pport for Public School Students				
	1. Non-Property	\$				
	If applicable, ple	ease specify program name(s)				
	2. Property Only	\$				

	if applicable, please specify program name(s)
5.	In your state, does the SEA provide funds directly to students or families for payment of elementary/secondary education expenses?
	No (Please go to question 6.)
	Yes
	5a. If yes, please provide the amount and specify the program names(s):
	Non-Property \$ Please specify program name(s)
	5b. Please indicate below whether this data is reported in NPEFS and F-33 for fiscal year 2017.
	Amounts are reported in FY 2017 NPEFS and are reported in FY 2017 F-33 at the school district level for the student resident district.
	Amounts are reported in FY 2017 F-33 and NPEFS as state totals.
	Amounts are reported only in the fiscal data plan, not F-33 or NPEFS.
	Amounts are not reported in F-33 or NPEFS.
Pr	ekindergarten (PK) Data
6.	Please indicate below if finance data (local, state, and federal sources) for PK students are included in NPEFS and F-33 data for fiscal year 2017: (Check all that apply.)
	Included in FY 2017 NPEFS
	Included in FY 2017 F-33
	Not included in NPEFS or F-33
Fin	nance Data for School Districts with Charter Schools
7.	Please indicate below if your state has any of the following types of LEAs: (Check all that apply.)
	The state does not have public charter schools (Please go to question 8.)

LEAs where all associated schools are public charter schools
LEAs where some associated schools are public charter schools and some are public noncharter schools
Public charter schools authorized by an outside entity that are not organized into an LEA.
7a. Please indicate below how finance data for charter schools is included in NPEF for fiscal year 2017: (Check all that apply.)
Data reported includes functionalized revenues and expenditures for charte schools from both government and private sources.
Data reported includes functionalized revenues and expenditures for charte schools from only government sources.
Data reported includes only government payments to charter schools.
Data for charter schools is not included in NPEFS.
Other (Please Explain)
7b. Please indicate below how finance data for charter schools is included in F-33 for fiscal year 2017? (Check all that apply.)
Data reported includes functionalized revenues and expenditures for independent charter schools.
Revenues and expenditures are only from government sources.
Revenues and expenditures are from both private and government sources.
Data reported includes functionalized revenues and expenditures for <b>dependent charter schools</b> . (Reported data for some LEAs includes data for charter schools and noncharter schools.)
Revenues and expenditures for charter schools are from only government sources.
Revenues and expenditures for charter schools are from both private and government sources.

Data reported includes only government payments to charter schools.
Data for charter schools is not included in F-33.
Other (Please explain.)
NPEFS Average Daily Attendance (ADA)
8. When calculating ADA on the NPEFS survey, do you include summer school attendance?
No (Please go to question 9.)
Yes
8a. What weight or adjustment do you use on summer school attendance when adding it into the state ADA?
Note: If your state calculates ADA based on state statutes defining ADA, NCES requests that you subm the statutory citation documenting how ADA is defined in your state.  9. Is the ADA your state reported on NPEFS calculated based on state statute definition
No, ADA is calculated based on NCES definition. (Please go to question 10.)
Yes
9a. Please upload a pdf file containing your state statutory citation documenting how ADA is defined?
10. Is the ADA your state reported on NPEFS calculated using a multiplier to convert Average Daily Membership (ADM) to ADA?
No (Please go to question 11.)
Yes
10a. Please provide the multiplier used.

## **School-Level Finance Data**

11. Does your state currently maintain school-level finance data?
No, the state does not maintain school-level finance data. (Please go to question 12.)
Yes, for all public schools in the state (including charter schools).
Yes, for all public schools in the state except charter schools.
Yes, however the state only has the data for some schools.
11a. If you make school-level financial data available on your website, please provide the URL:
11b. If your state currently tracks expenditures at the school-level, please indicate the types of expenditures collected. (Check all that apply.)
Personnel expenditures
Nonpersonnel expenditures
11c. If your state currently tracks personnel expenditures at the school-level, pleas indicate the types of expenditures collected. (Check all that apply.)
Expenditures for instructional staff
Expenditures for instructional aides
Expenditures for teacher salaries
Expenditures for support services staff
Expenditures for school administration staff
Expenditures for other school-level personnel
Personnel expenditures are not collected at the school level
11d. If your state currently tracks nonpersonnel expenditures at the school-level, please indicate the types of expenditures collected. (Check all that apply.)
Technology-related supplies and purchased services
Nontechnology-related sumplies and purchased services

Technology-related equipment
Technology software
Textbooks and periodicals
Instructional staff support
Improvement of instruction(e.g., professional development curriculum development)
Library and media services
Nonpersonnel expenditures are not collected at the school level
11e. If your state currently tracks personnel or nonpersonnel expenditures at the school-level, has your state's uniform chart of accounts been adjusted to include school-level codes?
Yes No
Virtual Schools
<b>Note:</b> For the purposes of this question, a "virtual school" is a public elementary-secondary (PK-12) school that only offers instruction in which students and teachers are separated by time and/or location, and interaction occurs via computers and/or telecommunications technologies. A virtual school generally does not have a physical facility that allows students to attend classes or site.
12. Does your state have virtual schools?
No (Please go to question 13.)
Yes
12a. Are finance data for virtual schools included in your state's NPEFS and F-33 data submissions? (Check all that apply.)
Included in FY 2017 NPEFS
Included in FY 2017 F-33
Amounts are reported only in the fiscal data plan, not F-33 or NPEFS.

Not included in FY 2017 NPEFS or F-33
12b. What type of LEAs are the finance data for virtual schools reported under?
Finance data is functionalized and reported as a separate education agency.
Finance data is functionalized and reported under the LEA of the students' home school.
Expenditures for the virtual school are reported as tuition payments or purchased services under the LEA of the students' home school.
Revenues from Private Sources
<b>Note:</b> Revenues from private sources include contributions and donations made by private entities. These entities include, but are not limited to: educational foundations, parent teacher associations/organizations, campus booster clubs, and private individuals.
13. Does your state report revenues from private sources?
No (Please go to question 14.)
Yes
13a. Please indicate where revenue from private sources are reported on NPEFS. (Check all that apply.)
Transportation Fees from Individuals (R1G)
Other Revenue from Local Sources (R1L)
Other Sources of Revenue (R5)
13b. Please indicate which donors are included in your revenue reporting. (Check all
that apply.)
Private foundations
Non-profit organizations
Parent teacher associations/organizations
Campus booster clubs
Private individuals

# **Accounting Methodology**

ndicate which method of accounting school districts use when reporting and expenditures.
All LEAs report to the state using a Cash Basis method of accounting.
All LEAs report to the state using a Modified Accrual method of accounting
LEAs may report to the state using either a Cash Basis or Modified Accrual od of accounting.
LEAs report using a different method (Please specify.)-

Exhibit F-7. Fiscal Data Plan responses to question 7.a, by state or jurisdiction: Fiscal Year 2017

O.7.a

				<u>Q.7.a</u>	
	Please indicate b	elow how finance	data for charter s	chools is inclu	ded in NPEFS and F-33 data for fiscal year 2017:
	Data reported includes functionalized revenues and	Data reported includes functionalized revenues and			
	expenditures for charter schools from both government and	expenditures for charter schools from only government	Data reported includes only government payments to	Data for charter schools is not included	
State or jurisdiction	private sources	sources	charter schools	in NPEFS	Other
Alabama	Yes	†	†	†	t
Alaska	Yes	t	t	†	The State in 2017 had NO charter schools that were part of a school district. Because of the way, the question has been changed in 2017; the questions is being responded to based on
Arizona	Yes	†	†	†	the questions is being responded to based on the charter LEAs in the State despite the heading. Therefore, if these questions are asking only about District Sponsored Charter schools; THERE ARE NONE.
Arkansas	Yes	t	t	†	Everything the charters enter into their eFinance database which is supposed to be their official origin of accounting data is reported. We know they report state funding, but we have no way to verify what 'private' money they do or do not receive nor do we have the revenue and expenditure that is run through the Corporate office.
California	Yes	†	†	†	Some charter schools reported their data with functionalized revenues and expenditures in the Standardized Account Code Structure.  However, some charter schools elected to report their data in a highly summarized format known as the Alternative Form, which lacks any revenue or expenditure detail by function.
Colorado	Yes	†	†	†	†
Connecticut	Yes	†	†	†	†
Delaware	Yes	· †	†	†	†
District Of Columbia	Yes	Yes	Yes	†	†
Florida	†	†	Yes	†	† Georgia has some local charter schools within the school districts that do not report the expenditures by object level such as salaries, etc. The payment made by the school district to the local charter school for that activity is reported in purchased services. Beginning in FY 2017, the school districts are required to
Georgia  See notes at end of t	Yes	t	Yes	t	disaggregate the expenditure data as expended by the local charter school. However, two metro Atlanta school districts failed to disaggregate the expenditure data as expended by their local charter schools. Therefore, the payment from the school district to the local charter school is included as "other purchased services" to capture costs/expenditures of that individual local charter school.

Georgia	†	Yes	†	Yes	Yes	†	State Charter Schools in Georgia are approved by the State Charter School Commission of Georgia and are considered (treated like and report as) local education agencies. In addition, Georgia has local charter schools which have been approved by local school districts throughout the state.  Some local charter schools within the school districts that do not report the expenditures by object level such as salaries, etc. The payment made by the school district to the local charter school for that activity is reported in purchased services. Beginning in FY 2017, the school districts are required to disaggregate the expenditure data as expended by the local charter school. However, two metro Atlanta school districts failed to disaggregate the expenditure data as expended by their local charter schools.  Revenues and Expenditures for Independent Charter Schools (State Charters) - both private and government sources are included on the F-33 Survey - if reported in the financial data submitted to

Exhibit F-16. Fiscal Data Plan responses to question 14, by state or jurisdiction: Fiscal Year 2017

Q.14

	Please indicate which method of accounting	school districts use when reporting revenues and expenditures
State or jurisdiction		
Alabama	All LEAs report to the state using a Modified Accrual method of accounting	
Alaska	All LEAs report to the state using a Modified Accrual method of accounting	
Arizona	LEAs report using a different method	Districts are budget based and charters are cash based.
Arkansas	All LEAs report to the state using a Modified Accrual method of accounting	
California	LEAs report using a different method	All school districts reported to the state using the modified accrual method of accounting. However, some school districts report charter school financial data in a fund that is reported using the full accrual method of accounting.
Colorado	All LEAs report to the state using a Modified Accrual method of accounting	
Connecticut	All LEAs report to the state using a Modified Accrual method of accounting	
Delaware	All LEAs report using a Cash Basis method of accounting	
District Of Columbia	All LEAs report to the state using a Modified Accrual method of accounting	
Florida	All LEAs report to the state using a Modified Accrual method of accounting	
Georgia	All LEAs report to the state using a Modified Accrual method of accounting	
Hawaii	All LEAs report using a Cash Basis method of accounting	
Idaho	All LEAs report to the state using a Modified Accrual method of accounting	
Illinois	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Indiana	All LEAs report using a Cash Basis method of accounting	
lowa	LEAs report using a different method	LEAs report using Generally Accepted Accounting Principles so modified accrual is used for governmental fund types and full accrual for proprietary type funds.
Kansas	All LEAs report using a Cash Basis method of accounting	
Kentucky	All LEAs report to the state using a Modified Accrual method of accounting	

Exhibit F-16. Fiscal Data Plan responses to question 14, by state or jurisdiction: Fiscal Year 2017

Q.14

	Please indicate which method of accounting school districts use when reporting revenues and expenditures
State or jurisdiction	

State or jurisdiction		
Louisiana	All LEAs report to the state using a Modified Accrual method of accounting	
Maine	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Maryland	All LEAs report to the state using a Modified Accrual method of accounting	
Massachusetts	All LEAs report to the state using a Modified Accrual method of accounting	
Michigan	All LEAs report to the state using a Modified Accrual method of accounting	
Minnesota	All LEAs report to the state using a Modified Accrual method of accounting	
Mississippi	All LEAs report to the state using a Modified Accrual method of accounting	
Missouri	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Montana	All LEAs report to the state using a Modified Accrual method of accounting	
Nebraska	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Nevada	All LEAs report to the state using a Modified Accrual method of accounting	
New Hampshire	All LEAs report to the state using a Modified Accrual method of accounting	
New Jersey	LEAs report using a different method	Modified Accrual Method Adjusted for certain state revenue payments.
New Mexico	All LEAs report using a Cash Basis method of accounting	
New York	All LEAs report to the state using a Modified Accrual method of accounting	
North Carolina	All LEAs report to the state using a Modified Accrual method of accounting	
North Dakota	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Ohio	All LEAs report using a Cash Basis method of accounting	

Exhibit F-16. Fiscal Data Plan responses to question 14, by state or jurisdiction: Fiscal Year 2017

Q.14

	Please indicate which method of accounting	school districts use when reporting revenues and expenditures
State or jurisdiction		
Oklahoma	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Oregon	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	Modified Accrual is used by all LEAs to report Governmental Fund
Pennsylvania	All LEAs report to the state using a Modified Accrual method of accounting	revenue and expenditures however Proprietary Fund revenues and expenses are reported using the full accrual method. Note: PA LEAs are required to utilize an Enterprise fund for their food service activities.
Rhode Island	All LEAs report to the state using a Modified Accrual method of accounting	
South Carolina	All LEAs report to the state using a Modified Accrual method of accounting	
South Dakota	All LEAs report to the state using a Modified Accrual method of accounting	
Tennessee	All LEAs report to the state using a Modified Accrual method of accounting	
Texas	All LEAs report to the state using a Modified Accrual method of accounting	
Utah	All LEAs report to the state using a Modified Accrual method of accounting	
Vermont	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
Virginia	All LEAs report to the state using a Modified Accrual method of accounting	
Washington	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting	
West Virginia	All LEAs report to the state using a Modified Accrual method of accounting	
Wisconsin	All LEAs report to the state using a Modified Accrual method of accounting	
Wyoming  See notes at end of table.	All LEAs report using a Cash Basis method of accounting	I wasn't sure how to add comments regarding questions in this data plan, so I put my information here:  Question 11d - Districts have the option to code non-personnel expenses to a school level. Wyoming dictates school-level coding for a some functions, typically those related to direct instruction. However, if expenses are coded to the district level, we are able to allocate them to a school level based on enrollment, if needed. Question 13b - Revenue from private sources is not designated by source. For our reporting purpose, a private donation, if reported, is counted as a local resource. (R1L)

Exhibit F-16. Fiscal Data Plan responses to question 14, by state or jurisdiction: Fiscal Year 2017

Q.14

	Please indicate which method of accounting school districts use when reporting revenues and expenditures
State or jurisdiction	
American Samoa	All LEAs report using a Cash Basis method of accounting
Guam	All LEAs report to the state using a Modified Accrual method of accounting
Commonwealth of the Northern Mariana Islands	All LEAs report to the state using a Modified Accrual method of accounting
Puerto Rico	All LEAs report using a Cash Basis method of accounting
U.S. Virgin Islands	LEAs may report to the state using either a Cash Basis or Modified Accrual method of accounting

Table G-1. Number and percentage distribution of imputation flag values, by imputation flag: Fiscal year 2017

# Appendix H—State Notes

#### Appendix H - State Notes

The following notes describe known anomalies in state data reported to the collection agent. Unless otherwise noted, each anomaly recorded here applies to fiscal year 2017 (FY17). The absence of "Notes" for a state indicates that the state's data did not contain any known anomalies. States are in order by their American National Standards Institute (ANSI) code.

#### Alabama

**Fiscal Year:** October 1–September 30 **Notes:** 

- Student Transportation Support Services, Property (E257) increased more than 25% from the prior year. 224 more buses were purchased in FY17 compared to FY16.
- Other Support Services, Supplies (E248) increased more than 25% from the prior year. Most of the increase was due to two LEAs purchasing computer hardware for data processing services.
- Alabama had two new charter schools for FY17. Acceleration Day and Evening Academy began operating school year 2017-2018. Fiscal data for fiscal year ending 9/30/2017 is included in NPEFS (a couple of months of data, as the school year and fiscal year are different).

#### Alaska

Fiscal Year: July 1–June 30

#### Notes:

- There was a substantial decrease in Earnings on Investments (R1I). Overall, 64% of Alaska's school districts saw either decreases here or no changes in FY17.
- There was an increase in Grants-in-Aid Direct from the Federal Government (R4A), with 57% of districts seeing a decrease in FY17. The main driver behind this increase was the Annette Island School District, which saw a \$2M increase in a capital projects fund.
- Other Revenue from Federal Sources (R4D) increased in 43% of reporting districts. Two districts, Lower Kuskokwim and Bering Strait School Districts, saw increases in their Impact Aid payments of \$14.7M and \$12.6M, respectively.
- Instruction Support Services, Supplies (E243) is at least \$5,000,000, and increased more than 25% from the prior year. The main driver behind this increase was the Anchorage School District, which saw a \$3.5M increase, the majority of which occurred in their operating fund.

#### Arizona

Fiscal Year: July 1–June 30

#### **Notes:**

- Ombudsman Education Services charter combined two charters into one and had intentional growth, larger facility and administrative staff, and management fees.
- Gilbert Unified School District acquired 40 large buses and 13 special needs buses.

#### Appendix H - State Notes

#### <u>Arkansas</u>

Fiscal Year: July 1–June 30

**Notes:** None

#### California

Fiscal Year: July 1–June 30

**Notes:** 

- Starting in FY17, there was an accounting reporting change in California. Transportation Fees from Other LEAs Within the State (R1H) was not able to be separately identified within the transportation fees collected from other LEAs within the state.
- In California, revenues for District Activities (R1K) are typically collected and managed by student organizations rather than by school districts. Incidental revenues that school districts collect for District Activities are reported as Other Revenue from Local Sources (R1L).
- The \$4.4B increase in Other Sources of Revenue (R5) was mainly due to the proceeds from the issuance of bonds for capital projects.
- Instruction, Property (E17) increased approximately 30%, or \$20.9M, from the prior year. The increased expenditures were mainly due to equipment expenditures for career technical education. This one-time funding for a three-year competitive grant program was to encourage the creation and expansion of high-quality career technical education programs. \$300M was provided in FY17 (which is year two of the three-year program), and it required the local educational agencies to provide a dollar-to-dollar funding match. Also, property expenditures normally fluctuate from year to year.
- General Administration Support Services, Purchased Services (E234) decreased approximately 37%, or \$121M, from the prior year. The decrease was primarily attributable to California's largest school district. This school district increased these expenditures by \$138M primarily due to legal settlements on various high profile cases in FY16. Therefore, it was reasonable to see these expenditures decrease in FY17.
- Student Transportation Support Services, Property (E257) increased approximately 29.7%, or \$24.9M, from the prior year. The increased expenditures were mainly attributable to a few school districts that purchased school buses using both state and local funding.
- Direct Cost Programs, Property (E91) increased approximately 111.6%, or \$1M, from the prior year. The increased expenditures were mainly due to the increased state funding for adult education programs.
- State Per Pupil Expenditures (PPE15): Per pupil expenditures increased \$788 (6.81%) from the prior year. The increased spending on K-12 education was reasonable due to the increase in total revenue from all sources and the spending down of carryover balances from prior year. The total revenue from all resources (TR) increased \$2.3 billion (2.72%) from the prior year and the carryover balances from prior year were \$6 billion, resulting in an increase in net current expenditures for education (NCE13) of \$4.6 billion (6.64%) from the prior year. At the same time, average daily attendance decreased slightly by 9,537 (-0.16%), from the prior year. In FY2016, the total

revenue from all resources (TR) was \$85.8 billion (increased \$11.4 billion or 15.30% from FY2015); and the total expenditures for education (TE11) were \$79.7 billion (increased \$6.6 billion or 8.98% from FY2015). Therefore, the carryover balances from FY2016 were approximately \$6 billion. It seems reasonable for school districts to spend down the FY2016 carryover balances in FY2017.

#### Colorado

Fiscal Year: July 1–June 30

- The \$9.4M decrease in Federal Sources of Revenue (STR4) was due to the change of reporting for School to Work Alliance Program (SWAP) funds. In prior years these funds were considered as a federal sub grant to the districts from the Colorado Department of Human Services and included on the districts Schedule of Expenditures of Federal Awards (SEFA). These are now considered as state funds.
- The increase in School Administration Support Services, Other Expenditures (E265) was mainly due to the change in reporting for Denver with their associated charter schools.

## Connecticut

Fiscal Year: July 1-June 30

Notes:

- Connecticut does not collect data from local school districts for District Activities (R1K).
- School districts confirmed expending more for students sent to other districts in the state for Tuition and Voucher Payments to Other LEAs and Charter Schools within the State (E15).

## <u>Delaware</u>

Fiscal Year: July 1–June 30

**Notes:** 

- The decrease in Property Tax (R1A) was due to referend that passed and were realized during FY17.
- Delaware has not collected Tuition from Individuals (R1E) for several years.
- The increase in Facilities Acquisition and Construction Services, Property Expenditures (E62) was due to a FY17 Bond Bill that authorized over \$76M of bonds for Minor Capital Improvements (MCIs) and education capital improvements.

#### District of Columbia

Fiscal Year: October 1-September 30

- The increase in Transportation Fees from Individuals (R1G) was largely driven by the international field trips that were introduced in FY17. The increase was due to the school offering greater opportunities for international travel for students and greater efforts to collect funds to cover the travel expenses.
- The revenue reported in Other Sources of Revenue (R5) mainly includes proceeds from loans. DC Prep received approximately \$25.6M from new loans in FY17 for a

- facilities construction project at Anacostia Elementary Campus. FY17 was significantly higher than FY16 because of the new loans for the construction project.
- The \$30.5M increase in Instruction Support Services, Salaries (E213) was primarily attributable to performance bonuses paid to instructional staff.
- D.C.'s State Per Pupil Expenditure (SPPE) increased by nearly 6% from FY 16.
   Multiple factors contributed to this increase, including 1) an increase in instructional staff (and instructional expenditures) for the District of Columbia Public Schools (DCPS), 2) FY 16 and FY 17 performance bonuses for DCPS instructional support employees not being paid out until FY 17, 3) improved reporting and increased general administration expenditures for DCPS, and 4) expansion of several charter school LEAs, which resulted in increased charter school salaries, benefits, management fees, etc.

## Florida

Fiscal Year: July 1–June 30

**Notes:** 

- Payments to public charter schools (that are part of the district) were included in Instruction, Purchased Services (E13) and on the F33, were also included in purchased services in Instruction, item code E13. There were no government payments by the school districts to independent charter schools.
- Two independent charter school LEAs were listed on the LEA nonfiscal survey. Neither of these LEAs have any schools associated with them. The schools operated by the charter districts are authorized by regular school districts. Government payments to public charter schools are reported as Instruction, purchased services within the authorizing regular school district. Membership for charter schools were also reported within the authorizing regular school district.

#### Georgia

Fiscal Year: July 1—June 30

- The increase in Earnings on Investments (R1I) corresponds with districts that sold a bond issue in FY17. Districts that sold large bond issues in FY16 also had increases (available balances for investment are large). Improvements in the economy from FY14 through FY17 have led to increases in state funding (reductions in austerity cuts) and districts are starting to build back up their local reserves.
- The decrease in Other Sources of Revenue (R5) was due to less bonds being issued in FY17 than FY16. Districts issued General Obligation Bonds for 5 year periods to advance fund the voter approved Educational Special Purpose Local Option Sales Tax (ESPLOST) projects; therefore, there will be increases and decreases in bond sales from year to year.
- The increase in Other Support Services, Purchases Services (E238) and Other Support Services, Supplies (E248) correlated with the significant increase of over \$20 million for capital projects related to the large amount of bonds issued in FY16 and additional Bonds issued in FY17.
- State Per Pupil Expenditures (SPPE) increased by 5.5% over FY16. Total expenditures being reported for NPEFS for FY17 increased by 5.1% from FY16 to

FY17. The increase was due to an increase in appropriations to districts, various local revenues increased highlighting economy recovery and growth, and a decrease in ADA. We had several things going on in that fiscal year with our school districts, which increased expenditures.

- 1. Increase in Salaries for both certified and classified employees. The Governor requested all school districts provide a 3% salary increase in FY 2017, due to the reduction of the austerity grant of \$166M (the austerity amount reduced state funding, so the reduction in austerity meant an increase in funding for school districts in FY 2017). Districts also experienced an increase in property tax revenue during FY 2017, due to the rebound of property values after the recession. We also have salary surveys which indicate school districts were again hiring employees for positions that were eliminated during the recession and very few (I believe 4 districts) were continuing to operate with furloughs and reduced calendar schedules.
- 2. Employee benefits increased in FY 2017. TRS employer rates increased from 13.57 to 14.34%. Classified health insurance employer premiums increased in FY 2017 from \$746.20 per employer per month to \$846.20 per employer per month in January 2017. The increase was for all non-certified employees that elected health insurance coverage. This includes maintenance and custodial staff, as well as paraprofessionals, lunchroom employees, and business administration staff.
- 3. Local Charter School actual expenditure activity was reported in all of our school districts except Dekalb County and Douglas County in FY 2017. Prior to FY 2017, school districts were only reporting the portion of state and local revenue that was allotted to the individual local charter school as an expenditure, so any expenditures funded with supplemental revenue such as donations was not captured. This resulted in an increase in expenditures throughout all categories.

# <u>Hawaii</u>

Fiscal Year: July 1–June 30

#### **Notes:**

- Hawaii does not charge Tuition from Individuals (R1E).
- The State of Hawaii has issued General Obligation Bonds from which proceeds were used to fund various school projects of the State of Hawaii, Department of Education (DOE); however, the DOE itself is not responsible, in any way, for the repayment of the debt to bondholders which is the liability of the State of Hawaii and is being handled by the State of Hawaii, Department of Budget and Finance.

### Idaho

Fiscal Year: July 1–June 30

**Notes:** 

• Beginning in FY17, Idaho reported revenues and expenditures for the Idaho Digital Learning Academy (IDLA). They provide online classes for Idaho's public school

- students. While the bulk of the IDLA funding was from their state appropriation, they do collect nominal fees from students taking their classes.
- The amount for Other Sources of Revenue (R5) varies from year to year. The vast majority of these funds are from new bonds passed by Idaho's school districts and loans acquired by Idaho's public charter schools. During FY17, the net bonded debt for Idaho's school districts increased \$125M.
- State Per Pupil Expenditure (PPE15) increased more than 5% from the prior year. Idaho's sate per pupil expenditure amount increased approximately 5.5%. Idaho Public School Appropriation for General Funds increased by \$107M, or 7.3% in FY17 from FY16. When adding in an increase of \$3.2M in state dedicated revenues in FY17 over FY16, FY17 saw an increase of \$110,741,100 in dollars for public schools. An increase of 5.5% in current expenditures is reasonable based on the increased public school appropriations for FY17.

## Illinois

Fiscal Year: July 1–June 30

## **Notes:**

- The decrease in Grants-in-Aid Direct from the Federal Government (R4A) was due to the city of Chicago receiving \$25M in federal aid to pay bonds.
- Direct Cost Programs, Community College (E9C) decreased due to Illinois cutting funding to Community Colleges and Universities in FY17.
- SPPE increased by 9.21%, due to a 7.77% increase in Net Current Expenditures and a 1.32% decrease in ADA. The majority of the increase in Net Current Expenditures can be attributed to a \$1.95B increase in state direct program support for Employee Benefits for Public School Employees (E4C1). In FY17, the state improved training to LEAs on including On Behalf of Employee Benefits in their audit reports. This training resulted in improved reporting and a significant increase in item E4C1.
- In FY17, the state added \$6.7B in State Payments On Behalf Of Employee Benefits (SPOB) to state revenue per NCES instructions. These were not included in FY16. IL pays a percentage to Teachers Retirement System. SPOB was added to revenue to create a better match between revenues and expenditures, and to better match reporting in the F-33 survey.
- The majority of the increase in Net Current Expenditures can be attributed to a \$1.95 billion increase in state direct program support for employee benefits for public school employees (E4C1). In FY17, the state improved instructions to LEAs on including On Behalf of Employee Benefits in their audit reports. This training resulted in improved reporting and a significant increase in item E4C1.

## Indiana

Fiscal Year: July 1–June 30

- The increase in Non-Property Tax (R1B) was due to school corporations experiencing an increase in Local Option Income Tax (LOIT) distribution.
- The increase in Other Support Services, Property (E258) was due to one school corporation that purchased network switches and another school corporation that purchased VMware.

## Iowa

Fiscal Year: July 1–June 30

**Notes:** 

• Debt Service, Other Uses Subtotal (STE7) increased because many districts refunded bonds this year to save interest costs.

## Kansas

Fiscal Year: July 1–June 30

**Notes:** 

- Other Sources of Revenue (R5) increased because many districts were having bond elections prior to July 1, 2015 due to legislative talks of cutting funding. Districts issued those bonds beginning with the FY17 school year.
- Many districts purchased new buses due to the 25-year age limit; this led to an increase in Student Transportation Support Services, Property (E257).
- The increase in Other Support Services, Supplies (E248) was due to a district purchasing a new student data information system, a new student location system, as well as district software.

## **Kentucky**

Fiscal Year: July 1–June 30

**Notes:** 

- Kentucky established a dual credit grant through Kentucky Higher Education Assistance Authority (KHEAA) for students to obtain college credit. The costs were put under Tuition Payments (E14), which caused an increase for FY17.
- The increase in Instruction Support Services, Supplies (E243) was due to a district that purchased a unified curriculum for the entire district and purchases of Chromebooks for students.
- Food Services, Employee Benefits (E3A12) increased due to pension liability expenditures increasing benefits total when compared to the prior year.
- There was an increase in the cost of food supplies from the prior year, investment in higher quality food items, and many districts adopted the CEP program in FY17.

#### Louisiana

Fiscal Year: July 1–June 30

- Several LEAs reported receiving Legal Settlements in FY16 and not in FY17. This caused Other Revenue from Local Sources (R1L) to decrease.
- The increase in Operation and Maintenance Support Services, Purchased Services (E236) was due to several LEAs maintenance and repairs increasing attributable to the 2016 Louisiana floods.
- Several LEAs had a decrease in materials and supplies due to a decrease in uniform expenses in FY17.

#### Maine

Fiscal Year: July 1–June 30

**Notes:** None

## **Maryland**

Fiscal Year: July 1–June 30

**Notes:** 

- Instruction Support Services, Purchased Services (E233) was at least \$10,000,000, and decreased more than 25% from the prior year. The purchased services in Maryland, such as professional/technical services, travel, and communications, can vary year to year based on the need of the Local Education Agency.
- General Administration Support Services, Employee Benefits (E224) increased more than 25% from the prior year. Employee benefits in Maryland are expenditures such as life insurance, health insurance, accident insurance, unemployment compensation, workmen's compensation plans and other employee benefits, thus the total amount could vary from year to year based on premiums.
- Other Support Services, Supplies (E248) was at least \$5,000,000, and decreased more than 25% from the prior year. The supplies and materials object in Maryland includes supplies other than classroom materials and food or food related supplies of the Local Education Agency. These costs can vary year to year based on the needs of the Local Education Agency's central office.
- Adult Education (E9B) provided through local school systems is a small portion of Adult Education services provided in Maryland. Almost all adult education services in Maryland are provided through the State Department of Labor, Licensing and Regulation.

# Massachusetts

Fiscal Year: July 1–June 30

**Notes:** None

## Michigan

Fiscal Year: July 1–June 30

- Other Local Government Units Property Tax (R1C) amount increased again in FY17, but has been confirmed as accurate. Very few districts receive revenue in this category, so just a handful of districts receiving new or increased revenue can significantly increase the statewide amount.
- Other Sources of Revenue (R5) decreased significantly from prior year. This "other" category of revenue is used for extra-ordinary revenue items such as bond and loan proceeds, and is expected to fluctuate from year to year.
- Food Services Operations, Other (E3A16) increased from prior year. This is an "Other" category and includes things like discounts on food service sales and any miscellaneous expenditures that cannot be coded to another defined account code. This is expected to fluctuate from year to year, and this increase may be the result of newer USDA requirements related to the writing off of "bad/non-collectable" debt in the Food Service Fund (districts may be discounting sales to avoid this).

#### Minnesota

Fiscal Year: July 1–June 30

**Notes:** 

- Earnings on Investments (R1I) increased significantly. A number of the districts that reported significant gains have larger numbers in their FY17 OBEB trusts because they are allowed by Minnesota Statute to invest into higher risk investment vehicles.
- There was a large decrease in Other Sources of Revenue (R5) due to the fact that in the prior year there was a significant number of bond sales and/or certificates of participation by a number of districts.
- Minnesota Department of Education created codes per Federal direction to record certain instructional technology in a separate code for non-capital items. Districts are now coding the expenditures to the new codes which caused the increase in Instruction Support Services, Supplies (E243) for FY17.
- Other Support Services, Property (E258) increased due to two districts that made a major investment in technology in FY17 compared to FY16.
- Facilities Acquisition and Construction Services, Property Expenditures (E62) increased 24% due to 19 districts which had increased acquisition of land and/or improvements to existing buildings including construction and remodeling, renovation of HVAC systems, etc.
- Minnesota will not be able to provide Current Expenditures Paid from State and Local Funds (CE1) and Current Expenditures Paid from Federal Funds (CE2) until FY19.

### Mississippi

Fiscal Year: July 1–June 30

- Other Local Government Units Non-Property tax (R1D) increased due to the use of fee-in-lieu of taxes agreements to incentivize economic development.
- Other Revenue from Local Sources (R1L) decreased due to re-alignment of state codes with NCES codes. A corresponding increase was recorded in Earnings on Investments (R1I). The majority of these revenues are from Sixteenth section lands granted to districts by the state for revenue-generation.
- Food Service Operations, Purchased Services (E3A13) increased due to realignment of state codes with NCES codes.
- Previously excluded expenditures for Architecture and Engineering, Building Acquisition and Construction, and Building Improvement services are now included in FACS Non-Property (E61) and Property (E62), due to realignment of state codes with NCES codes.
- Direct Cost Programs Community College (E9C) increased due to realignment of state codes with NCES codes.
- Previously excluded expenditures for Sixteenth section lands are now included in Other Direct Cost Programs (E9D).
- A plan to report the amounts for Current Expenditures Paid from State and Local Funds (CE1) and Current Expenditures Paid from Federal Funds (CE2) with our FY18 data submission is being developed.

# <u>Missouri</u>

Fiscal Year: July 1–June 30

**Notes:** 

- Other Support Services, Supplies (E248) increased from FY16 to FY17. This was mainly due to the Kansas City Public School District significantly increasing their expenditures.
- Missouri does not currently collect expenditures from districts in the state based on funding sources of state, local, and federal funds; therefore, there is not information that can currently be provided for Current Expenditures Paid from state and Local Funds and Current Expenditures Paid from Federal Funds. Missouri is currently working on enhancements to collect this data and will be able to report on this starting with the FY 2019 data.

#### Montana

Fiscal Year: July 1–June 30

• Operation of Non-Instructional Enterprise Operations Subtotal (E3B1) increased more than 25% from the prior year. This item is a rollup of Enterprise Operations (3200) with the largest difference shown in item E3B13 (Purchased Services). This increase is attributed to Kalispell Elementary. This LEA is operating a multidistrict group health insurance plan that is to be accounted for outside the district's operation in FY17. The amount is the expenditure related to the premium on the group health plan.

#### Nebraska

Fiscal Year: September 1–August 31

**Notes:** 

- All account codes from the Cooperative Fund were eliminated from the reporting as they were already being reported in the General Fund figures.
- The large increase in Instruction, Property was attributable to LEAs purchasing vehicles, furnishings, machinery, etc. to cover student growth.
- The large increase in Facilities Acquisition and Construction Services, Equipment was attributable to LEAs purchasing/replacing equipment, fixtures, vehicles, etc.

#### Nevada

Fiscal Year: July 1–June 30

- The decrease in Tuition from individuals (R1E) was largely due to the largest school district, Clark County School District, discontinuing their Full-Day Kindergarten Program fees in FY17, as additional state funding was received to provide this program.
- Instruction, Tuition Payments (E14) increased due to increased state funding in the College and Career Readiness program to districts and charter schools to provide dual credit enrollment programs.

- Instruction, Supplies (E16) increased in FY17. The largest portion of this increase is due to our largest district, Clark County School District, budgeting and expending for technology rehabs and modernization for many schools in the sum of \$25M.
- Student Support Services, Purchased Services (E232) increased due to increased state funding for the Social Worker Grant and state Special Education Contingency Account, totaling over \$8M.
- Student Transportation Support Services, Property (E257) decreased 77% from prior year. This decrease was due to the largest school district, Clark County School District, not receiving their annual bus order during the fiscal year. (For FY17 this expenditure was approximately \$29 million). This expenditure will be included with their FY18 expenditures.
- Other Support Services, Other (E268) increased due to the second largest district, Washoe County School District, bond issuance costs for capital projects to be used for upgrades and capital renewal projects at existing facilities, new school design, and site acquisitions, student housing and overcrowding relief.
- The Facilities Acquisition & Construction Services, Non-Property Expenditures (E61) significant increase from FY16 was due to the largest district's (Clark County School District) expenditures for site and building improvements as per their approved Capital Improvement Plan.

# New Hampshire

Fiscal Year: July 1–June 30

**Notes:** 

• New Hampshire has been seeing a steady decline in recent years in school age population resulting in a lower attendance number.

#### New Jersey

Fiscal Year: July 1–June 30

**Notes:** None

## New Mexico

**Fiscal Year:** July 1–June 30

- Other Revenues from Local Sources (R1L) increased by 43%. In FY17 all entities received mid-year reductions to state aid revenues. To ease the burden of mid-year cuts, many entities turned to increased school district/charter school rental revenues and gains on sale of fixed assets. However, the main driver of this increase was contributions and donations from private sources, primarily in charter schools. Many entities also leveraged miscellaneous revenue from local sources, including non-profits. This accounts for the large increase in funding in this line item.
- The reduction in Student Transportation Support Services, Supplies (E247) is reflective of statewide efforts by LEA's to reduce spending in non-critical areas (like supplies) while maintaining transportation services to students.

# New York

Fiscal Year: April 1–March 31

### **Notes:**

- In the FY17 school year, New York City started reporting debt service from the Transition Finance Authority (TFA), which provides additional capital funding for schools. The total debt service for TFA for 2016-17 school year was \$1.1B. As New York City School district is a dependent district of New York City, the increase in expenditures for the TFA also resulted in the same increase in the Real Property Taxes that is included in Other Local Government Units Property Tax (R1C) on NPEFS. The TFA amount accounts for almost half of the \$2.2B increase for R1C.
- Operations and Maintenance Support Services, Property (E256) increased by 50%. Once every five years, school districts are required to complete a Building Condition Survey and develop a five-year capital facility plan to address issues raised in the survey. The last Building Condition Survey was required to be completed in the FY16 school year. It is likely the significant increase in the FY17 school year for this account was a result of the implementation of the five-year capital facilities plan. There were 35 districts that reported no expenditures in the prior year but reported a total of \$43,044,604 in expenditures in the current year.
- Pre-K data is excluded from New York's ADA and financial data.

## North Carolina

Fiscal Year: July 1–June 30

#### Notes

- District Activities (R1K) cannot be reported because North Carolina's chart of accounts does not identify them.
- The increase in Other Revenue (R5) was primarily due to an increase in Bond and Note proceeds which increased by more than \$235 million.
- The increase in Student Transportation Support Services, Property (E257) was due to the increased expenditures on school buses.

#### North Dakota

Fiscal Year: July 1–June 30

## Notes:

- The decrease in Other Sources of Revenue (R1L) was due to local grants that were available for school districts in oil producing counties where there was significant student growth in FY16. These grants were no longer available in FY17.
- Instruction, Tuition Payments (E14) vary in amount depending on how many students attend schools in other states using our cross border agreements with Minnesota, South Dakota and Montana.

## Ohio

Fiscal Year: July 1–June 30

#### Notes:

• The decrease in Direct Cost Programs, Other (E9D) offsets surge in management expenditures from FY16.

#### Oklahoma

Fiscal Year: July 1–June 30

**Notes:** 

- Other Local Government Units Non-Property Tax (R1D) decreased more than 25% due to Oklahoma's largest school district Metropolitan Area Projects (MAPS) tax project. This project is in its final stages and all revenue has been received in previous years.
- The decreases in Student Transportation Support Services, Supplies (E247), Other Support Services, Supplies (E248) and Other Support Services, Other (E268) are due to Oklahoma's revenue shortfall. School districts are finding every possible way to reduce spending in other areas to keep teachers in the classroom for student instruction.

# Oregon

Fiscal Year: July 1–June 30

**Notes:** 

- The increase in Other Revenue from Local Sources (R1L) is attributable to an increase in private donations as Oregon's economy continues to improve.
- There was a substantial increase in bonding for Long Term Debt Finance Sources due in large-part to the current economy, rates and obligations of school districts. This caused a significant increase in Other Sources of Revenue (R5).
- The increase in Student Support Services, Supplies (E242) was attributable to the robust growth of Oregon's economy and increased funding for education. The spending in this category has increased annually since 2014 and reflects Oregon's continuing recovery from the Great Recession.
- The State of Oregon was not able to provide the breakout of Current Expenditures Paid from State and Local Funds (CE1) and Current Expenditures Paid from Federal Funds (CE2) using FY17 financial data. The process of revising the Chart of Accounts and working with 197 school districts and 19 education service districts to breakout the data for future reporting, beginning with the FY19 NPEFS report, has begun.

#### Pennsylvania

Fiscal Year: July 1-June 30

- The decrease in Instruction Support Services, Property (E253) was due to Philadelphia City SD and Central Bucks SD having very large technology purchases totaling \$20M in FY16. No similar large purchases were made in FY17.
- Changes were made to the Pennsylvania chart of accounts to move electricity costs from Operations and Maintenance Support Services, Purchased Services (E236) to Operations and Maintenance Support Services, Supplies (E246).

- The percentage of Food Service costs made up of Supplies decreased by 1.6% from the prior year. This was attributed to the shift of a small number of LEAs utilizing food service management companies rather than operating their own in-house food service program. The cost of food provided by a food service management company is reported in E3A13 as part of the purchased service cost rather than in E3A14 as a supply cost.
- All Direct Program Support expenditures previously reported in Direct Program Support for Private School Students (E4D) are now being reported more accurately in Direct Cost Programs, Non-Public School Programs (E9A) per the direction of NCES staff.
- As a direct result of Pennsylvania coding guidance distributed to the LEAs, higher education costs for adults were coded more accurately to Direct Cost Programs, Adult Education (E9B) rather than in Direct Cost Programs, Community College (E9C), as was the case in the past.
- The PA Department of Education plans to begin collecting Current Expenditures Paid from State and Local Funds (CE1) and Current Expenditures Paid from Federal Funds (CE2) from the LEAs in this manner starting with FY19.
- The increase State Per Pupil Expenditures (PPE15) was attributed to the following: Employee benefits for instructional and support staff increased \$630M or 8.5% which is reflective of increasing pension obligations, supply costs increased by \$174M or 17.7% as LEAs were more accurately identifying and reporting their expenditures as supplies rather than as property based on accounting guidance distributed by the Comptroller's Office and ADA dropped in FY17 by approximately 0.5% which is a fairly small amount, but enough to cause a larger SPPE increase when coupled with the overall increase in expenditures.

## Rhode Island

Fiscal Year: July 1–June 30

**Notes:** 

• The increase in Other Sources of Revenue (R5) was the result of an increase in debt issued by communities.

#### South Carolina

Fiscal Year: July 1-June 30

**Notes:** 

• Student Transportation Support Services, Property (E257) increased more than 25% from the prior year. These expenditures are classified as "Payments Made on Behalf of LEAs." In FY17, the state replaced several buses that were experiencing thermal events. This amount totaled \$66M.

# South Dakota

Fiscal Year: July 1–June 30

Notes:

• The increase in Operation and Maintenance Support Services, Property (E256) was due to several districts increases in Capital Acquisition expenditures.

- Current Expenditure by Fund Type data (CE1 and CE2) is not currently available in South Dakota.
- The increase in PPE due to change in K12 funding formula. The current expenditure increase would have been as a result of the implementation of a new K-12 state aid funding formulas. The additional funding provided to districts was targeted at increasing teacher salaries and benefits.
- The increase in revenues from state sources would primarily be due to an additional sales tax revenue of 0.5% that was used to fund the increase to state aid to education and provided additional state grant dollars to school districts for specific programs. As part of this significant change in our formulas there were also changes to the local property tax levies for school districts.

# Tennessee

Fiscal Year: July 1–June 30

# **Notes:**

- Williamson County had an increase of \$66.7M in bond proceeds; leading to an increase in Other Revenue from Local Sources (R1L).
- The increase in Operation and Maintenance Support Services, Property (E256) was due to replacement of HVAC systems, expansion/construction of a charter school, and replacement of security cameras and security vehicles within three school districts.
- Two districts had increases in transportation equipment including buses and other vehicles. This led to an increase in Student Transportation Support Services, Property (E257)
- There were across the state increases in Food Services, Supplies (E3A1) due to the increase of USDA commodities.
- Direct Cost Programs, Adult Education (E9B) decreased due to a decrease in adult program expenditures across the state. Many districts have discontinued their adult programs.

## **Texas**

Fiscal Year: September 1–August 31

## **Notes:**

• Other Support Services, Other (E268) expenditures increased due to a total of \$590M increase in premiums on bonds and deposits to paying agents for refunded bonds reported by two districts.

## <u>Utah</u>

Fiscal Year: July 1-June 30

#### **Notes:**

• The increase in Other Revenue from Local Sources (R1L) was from increased fees and other revenue generation. As LEAs get greater pressure to provide additional services they have to generate more revenue to be able to deliver the services. The state board has just begun an investigation into fees and other revenue sources generated at the local level to see what is going on at the LEA the level.

- Many of the charter schools had not been using indirect costs but began using them in FY17. The increase in Other Support Services, Other (E268) was due to inflation and the new usage by charters.
- Several LEAs were reporting their internal service funds incorrectly. Training to have them correct their errors dropped the Operation of Non-Instructional Enterprise Operations Subtotal (E3B1) reported amounts.

### Vermont

Fiscal Year: July 1–June 30

**Notes:** 

- The increase in Property Tax (R1A) was due to a district's increase in redevelopment taxes raised for their Rec Center.
- Vermont did not have the data needed to show Current Expenditures by Fund Type (CE1 and CE2) for FY17.

# <u>Virginia</u>

Fiscal Year: July 1–June 30

**Notes:** 

- As in previous years, Virginia does not have revenues for District Activities (R1K).
- The majority of the decrease in Debt Service, Redemption of Principle (E7A2) is attributable to Chesterfield County, whose reported redemption of principal dropped by over \$77M from FY16 to FY17.

# Washington

Fiscal Year: September 1–August 31

**Notes:** 

- The 77% decrease in Non-property Tax (R1B) revenues was because one district received a large one-time tax payment of \$4.2M in FY16. This type of payment did not occur in previous years and is not anticipated in future years.
- There were large decreases in Instruction Support Services, Purchased Services (E233) and Instruction Support Services, Supplies (E243) along with a large increase in Instruction Support Services, Property (E253). These are non-personnel items and in surveying the largest 32 districts (60% of total expenditures) it is apparent that expenditures were shifted from the non-personnel items to the personnel side. Overall salaries and benefits increased by 7.8% and overall expenditures in this category increased by only 0.1%. With the pressure for salary increases it is expected that this trend will continue into the future.

# West Virginia

Fiscal Year: July 1–June 30

**Notes:** 

• Instruction, Tuition Payments Outside the State, to Private Schools, and Other (E14) increased approximately \$1.6M. This increase was largely due to a new tuition requirement which became effective with the FY17 school year which requires the payment of tuition by the county boards of education to the Mountaineer Challenge Academy (MCA) for each student graduating from the MCA with a high school

diploma. The total amount statewide for MCA tuition payments for FY17 was \$768,875. The remaining increase was due to an increase in tuition to private schools for out of state and out of county placements for three counties.

• The increase in Instruction, Property (E17) was due to districts purchasing tablet computing devices (iPads) and Chromebooks for students.

#### Wisconsin

Fiscal Year: July 1–June 30

**Notes:** 

- Other Local Government Units-Property Tax (R1C) increased by more than \$5,000,000 and 25% more than prior year. Two districts (Wauwatosa and Lake Geneva) received large revenues resulting from the closeout of Tax Incremental Financing Districts.
- Direct Program Support for Private School Students (E4D) increased due to the Parental Choice program being expanded statewide allowing more students to attend private schools.
- The State does not collect ADA for students attending state charter schools, as there is no statutory authority for us to require these schools to report this data.

## Wyoming

Fiscal Year: July 1 – June 30

- Over half of the decrease in Tuition Payments Outside the State, to Private Schools, and Other (E14) was attributed to less out-of-state special education placements. The state experienced a reduction in the number of students with disabilities in FY17 compared to FY16, which aligns with the lower tuition costs. (Please note, the state saw an increase in expenditures for in-state special education tuition during the same time which may explain part of the reduction in E14.) Out-of-state regular education tuition decreased as well to make up the remaining difference. Districts are moving towards utilizing in-state resources to serve students including in-state virtual programs and sharing instructional services with neighboring districts.
- Student Transportation Support Services, Property (E257) increased by 37%. During the FY17 legislative session, the State of Wyoming Legislature was preparing to impose a moratorium on bus purchases while a thorough review of the state's transportation expenditures was conducted. Prior to this time, the State reimbursed districts 100% for transportation operational activities including bus purchases. It appears that districts may have purchased more buses prior to the moratorium in an attempt to mitigate this situation.
- The reduction in Food Services Operations, Purchased Services (E3A13) was primarily because one district changed from a vendor providing lunch services to providing lunch services "in district." As a result, there is an increase in Food Services Operations, Supplies (E3A14) which is similar to the reduction in E3A13.
- Redemption of Principle (E7A2) decreased because one district paid off their remaining debt during FY16 (approximately \$5.5M). (Note: districts in Wyoming currently only bond for enhancements to buildings since the state has been funding capital improvements and new buildings for some time.)

# American Samoa

Fiscal Year: October 1-September 30

#### Notes:

- American Samoa Department of Education (ASDOE) does not collect Food Services (R1J) or Tuition from Individuals (R1E) revenue.
- The increases in Instruction Support Services, Salaries (E213) and Instruction Support Services, Employee Benefits (E223) were due to an increase in personnel.
- SPPE due to (1) increased budget, (2) carry over monies mostly in purchased services, (3) 2 new programs as in Dual Language and Career Tech Education.

## Guam

Fiscal Year: October 1-September 30

#### Notes:

- Guam only has public schools and Tuition from Individuals (R1E) is not charged.
- District Activities (R1K) are not administered by the school district.
- The value for Student Support Services, Purchased Services (E232) increased due to contract with Guam Judiciary of Guam for School Resource Officers (SRO).
- The value for Operations and Maintenance Support Services, Property (E256) increased due to a new Central Office building and two new warehouse buildings.

## Commonwealth of the Northern Mariana Islands

Fiscal Year: October 1-September 30

#### **Notes:**

- The Commonwealth of the Northern Mariana Islands does not collect Tuition from Individuals (R1E) or revenue from District Activities (R1K).
- Student Support Services, Employee Benefits (E222) increased more than 25% from the prior year due to the increase of health insurance.
- Operation and Maintenance Support Services, Salaries (E216) and Other Support Services, Salaries (E218) increased due to more maintenance and support staff being hired.
- State Per Pupil Expenditures (PPE15) increase is a result of the economic improvements locally in which our education system had received from the central government in the form of supplemental funds which adds up to our overall expenditures.

#### Puerto Rico

Fiscal Year: July 1–June 30

- Tuition from Individuals (R1E) and District Activities (R1K) are not applicable for Puerto Rico.
- For 2017, Puerto Rico Department of Education had lower personnel such as teachers, technical assistants, school counselors, school directors, social workers, administrative assistants, office workers and janitors.
- The decrease in Direct Cost Programs, Community College (E9C) was due to a reduction in the personnel assigned to the Technological Institutes.

(SPPE -6.34%) The expenses and ADA decreased in FY2017. The reduction in expenditures during FY 2017 is a direct result of the decrease in the rent expense paid by the State on behalf of the Puerto Rico Department of Education. This reduction was triggered by a State determination that the rental rate possible for the State to pay on behalf of PRDE had to be lowered given the fiscal limitations created by the financial crisis in Puerto Rico. The State was required to make similar adjustments in the funding allocations across all agencies. These changes resulted in the accumulation of debt payments that, when financial conditions improve, will need to be satisfied. Despite the reduction in SPPE related to rental expenses, PRDE did not reduce any expenses on direct education services offered to the students in prior years. Please find below a summary of the change: SPPE for FY 2017 was \$6,505 and for FY 2016 was \$6,945. Decrease in State direct support for and on behalf of school districts. For FY 2017, rent expenses paid by the State on behalf of the Department of Education was \$107,455,025. The explanation to this reduction is directly related to the availability of funds at the PR Central Government. The Commonwealth currently faces a severe fiscal and liquidity crisis, significant governmental deficits, a prolonged economic recession (which commenced in 2006), and high levels of debt and pension obligations. For FY 2016, rent expenses paid by the State on behalf of the Department of Education was \$237,923,076. Other With regards the method used by the Puerto Rico Department of Education for the calculation of the Average Daily Attendance, the PRDE has been using the method as defined by the NCES, no changes to this methodology has been determined, no other statutory determined method has been employed.

## U.S. Virgin Islands

Fiscal Year: October 1-September 30

**Notes:** 

• A special appropriation of local funds for Plant and Operations allocation was added specifically for Operation and Maintenance in all budget categories; therefore there is an increase in Operations and Maintenance Support Services, Salaries (E216), Operations and Maintenance Support Services, Employee Benefits (E226), Student Transportation Support Services, Employee Benefits (E227), Other Support Services, Salaries (E218) and Other Support Services, Employee Benefits (E228).
