

Standard Error Tables

This section includes tables of standard errors for the supplemental tables in appendix A. This section only includes standard errors for tables that present data collected through sample surveys. There are no standard error tables for tables that present data from universe surveys (such as all school districts), compilations of administrative records, or statistical projections.

The standard error tables are labeled with the prefix "S-" followed by the number of the table as it appears in appendix A. Thus, the standard error table for Table 13-1 in indicator 13 is Table S-13-1.
