The National Center for Education Statistics (NCES) is the primary federal entity for collecting, analyzing, and reporting data related to education in the United States and other nations. It fulfills a congressional mandate to collect, collate, analyze, and report full and complete statistics on the condition of education in the United States; conduct and publish reports and specialized analyses of the meaning and significance of such statistics; assist state and local education agencies in improving their statistical systems; and review and report on education activities in foreign countries.

NCES activities are designed to address high-priority education data needs; provide consistent, reliable, complete, and accurate indicators of education status and trends; and report timely, useful, and high-quality data to the U.S. Department of Education, the Congress, the states, other education policymakers, practitioners, data users, and the general public. Unless specifically noted, all information contained herein is in the public domain.

We strive to make our products available in a variety of formats and in language that is appropriate to a variety of audiences. You, as our customer, are the best judge of our success in communicating information effectively. If you have any comments or suggestions about this or any other NCES product or report, we would like to hear from you. Please direct your comments to

I. Introduction to Documentation for the 2001-02 State Nonfiscal Survey of Public Elementary and Secondary Education (Revised 1c)

The State Nonfiscal Survey provides information about student and staff for public elementary and secondary education for the 2001-02 school year, and numbers of high school graduates for the prior year. The statistics are based on data collected through one of the five surveys of the Common Core of Data (CCD) conducted annually by the U.S. Department of Education's National Center for Education Statistics (NCES).

Data were provided by state education agencies (SEAs) from their administrative records. NCES and the SEAs work cooperatively to ensure comparability between data elements requested and reported. Each state's CCD Coordinator was sent a copy of the previous year's nonfiscal data for his or her state with the request to update the data with currently available information and return it to NCES. The data tables are included in **appendix D**.

A copy of the *State Nonfiscal Survey of Public Elementary and Secondary Education* survey form is included in **appendix E**. NCES began accepting responses to the survey from SEAs in the 50 states, the Bureau of Indian Affairs Schools, the Department of Defense Dependents Schools, the District of Columbia, and the five outlying areas under U.S. jurisdiction on March 15, 2002. Data collection ceased on October 21, 2002, while editing and imputations continued until January 17, 2003. NCES edits state submissions, returning for confirmation or correction any items that appear to be out of range in light of previous reports. Other adjustments and imputations are discussed in the following section.

In compiling these data from administrative record systems, each SEA obtains data from the local education agencies (LEAs) that operate public schools. Each SEA may edit or examine the individual LEA reports before computing state totals. While SEAs are requested to provide counts as of the school day closest to October 1, the "as of" dates for membership counts may vary slightly from state to state.

Documentation layout. This documentation is intended to answer questions users may have about the contents of the Common Core of Data (CCD) State Nonfiscal Survey file. You may access each appendix independently.

Revised file changes (January 2008). The file that is documented in this text contains revised data for the 2001-02 State Nonfiscal data. The revised file replaces version 1b of the 2001-02 file. See the *Comments for Users of the Data File* section for details on what data fields changed between the two files.

Section I. Introduction. This provides a brief description of the CCD survey system.

Section II. User's Guide. There are four subsections. The subsection on *Methodology* describes the data collection process, any adjustments that were made to the reported data, and how missing data were imputed. It is followed by a specific *List of imputations and adjustments* that identifies any data element that was adjusted for any state. *Comments for users of the data file* identify any cases in which a state varied from the CCD standards in reporting a data item. *State codes and abbreviations used in the data set* identify the two-letter postal abbreviation and the federal information processing standard number for each state or other group reporting on the CCD.

Appendix A—Record layout and data element description provides the variable names and labels of the data elements discussed throughout the documentation, as well as their location on the data file.

Appendix B—Imputation flag frequencies indicates the number of states for which any data item was imputed.

Appendix C—Glossary provides definitions for CCD data items.

Appendix D—Data tables includes published statistics derived from the file

Appendix E—State nonfiscal survey form consists of a copy of the survey instrument.

Item nonresponse. Values for items for which the states did not report anything or reported an entry of less than 1, and for which no imputations or adjustments were made, have been adjusted to 0, M or N according to the following criteria:

- 0 (zero) indicates that a numerical value was measured and no quantity was found.
- M indicates that the data are missing; a value was expected, but no value was measured.
- N indicates that the data are not applicable; a value was neither expected nor measured.

II. User's Guide

A. Methodology

NCES has imputed and adjusted some reported values in order to create a data file that more accurately reflects student and staff counts and improves comparability among states. Imputations and adjustments were performed on data from the 50 states and the District of Columbia only. Imputations and adjustments were implemented to correct for item nonresponse only. It should be noted that no adjustments or imputations were made to high school graduates or other high school completer categories. No adjustments or imputations were performed to race/ethnicity data for any state. All items affected by these adjustments and imputations are indicated in the "imputation flag" data set (see record layout and data element description).

The imputation process consisted of several stages and steps, and varied with the nature of the missing data. Subsection *IIB, List of adjustments and imputations*, identifies all items affected by these procedures. All items (except totals and subtotals) affected by these adjustments are presented on the left side of the list. All items (including totals and subtotals) affected by the adjustments and imputations are indicated as such in the “imputation flag” field of the data set. Imputations for prekindergarten students were performed first, then staff imputations, followed by the other adjustments. Totals and subtotals were recalculated after all imputations and adjustments had been performed.

Adjustments are corrections to a situation in which a value reported for one item contained a value for one or more additional items not reported elsewhere. For example, a state may not differentiate between kindergarten teachers and prekindergarten teachers, reporting M (missing) for prekindergarten teachers and a value representing the count of staff for both categories as kindergarten teachers. NCES adjusts these two responses by reducing the amount reported for kindergarten teachers and adding that amount to prekindergarten teachers. The total count for teachers would not be affected by this adjustment.

Imputations correct cases in which the missing value is not reported at all, indicating that subtotals for the category are under-reported. An imputation by NCES would assign a value to the missing item, and the subtotals containing this item would increase by the amount of the imputation.

Imputations and adjustments. The method used for imputing prekindergarten students was to 1) calculate the ratio of prekindergarten students (PK) to total students (MEMBER) minus prekindergarten students (PK), for all states reporting these items strictly by the definition; 2) calculate the average of these ratios, and 3) multiply the total student count (MEMBER) of the state with the missing item times the average ratio. States reporting these items "strictly by the definition" are those states reporting values greater than 0 for each of the items involved in the adjustment, and none of whose values is affected by another "contains" or "combined with" adjustment. "Contains" and "combined with" adjustments are described below.

The method used for imputing prekindergarten teachers in all states was to 1) calculate the ratio of prekindergarten teachers (PKTCH) to prekindergarten students (PK), for all states reporting these items strictly by the definition; 2) calculate the average of these ratios, and 3) multiply the prekindergarten student count (PK) of the state with the missing item times the average ratio.

The method used for imputing all other missing staff counts was to 1) calculate the ratio of the missing item to total students (MEMBER) for all states reporting these items strictly by the definition; 2) calculate the average of these ratios, and 3) multiply the total student count (MEMBER) of the state with the missing item times the average ratio.

There are several variations in the way adjustments were carried out. These variations are indicated in the following "List of Imputations and Adjustments," and are described below. Please note that each item adjusted in this process has a line on the "List of Imputations and Adjustments." Variable names can be identified by using the record layout in appendix A.

Statements with "combined" indicate that the first item was reported as missing and the value included in the item(s) following "combined with." These statements can be matched to statements with "contains" where the first variable contains the value for that item plus the value for the item(s) following "contains." At the end of the "contains" statement, the total used in calculating the ratio used in the adjustment is indicated by the word "using." In all cases this total is total students (MEMBER). For example, "STUSUP combined with LEAADM" indicates that the value for student support services staff (STUSUP) was included in the amount reported for LEA administrators (LEAADM). The "adjustment" process (described in the next paragraph) reduced the amount for LEAADM and placed it in STUSUP. "LEAADM contains STUSUP using MEMBER" describes the same condition as above. The amount reported for LEAADM contains the count for STUSUP, and the distribution was based on a ratio with MEMBER (total students) in the denominator.

The method used for this adjustment was to 1) calculate the ratios of each missing item and the item containing the missing value(s) to the total indicated at the end of the "contains" statement for all states reporting these items strictly by the definition; 2) calculate the average of each of these ratios, 3) calculate the ratio of each average ratio to the sum of the average ratios for the unreported items as well as for the item that will be distributed, and 4) multiply the reported item by the ratio calculated in step 3 to determine the share for each item. States reporting these items "strictly by the definition" are those states that a) report values greater than 0 for each of the items involved in the adjustment, and b) none of whose values is affected by another "contains" or "combined with" adjustment.

Adjustment statements with "totals" are used only for the distribution of total guidance counselors (TOTGUI) into elementary and secondary counselors (ELMGUI and SECGUI) in those states not reporting this detail. In these cases, the total number of counselors is not affected by the adjustment operation. "Totals adjustments" are similar to the "contains adjustment" described above. The method used for "totals adjustments" was to 1) calculate the ratio of each item (in the totals list) to the reported total for each state reporting detail counselor counts; 2) calculate the average of each of these ratios, 3) calculate the ratio of each average ratio to the sum of the average ratios for the items to be imputed as well as for the item that will be distributed, and 4) multiply the reported item by the ratio calculated in step 3 to determine the share for each item. The elementary counselors (ELMGUI) and secondary counselors (SECGUI) are also listed as being "supplemented" by the total counselor count (TOTGUI) in this operation.

Imputations, as defined above, are indicated on the List of Adjustments and Imputations with "impute/import." The first item listed is the item being imputed. The second item listed is the item used in calculating the ratios, and the state value for this item is multiplied by the calculated mean ratio.

After all of the imputations and adjustments were performed, all totals and subtotals were recalculated.

B. List of Imputations and Adjustments

LIBSUP combined with OTHSUP
OTHSUP contains LIBSUP using MEMBER

C. Comments for Users of the Data File

NCES has made the following edit changes to nonfiscal data. When known, we have listed specific state reporting practices concerning missing data. All nonfiscal edits and reporting practices listed below apply to school year 2001-02. NCES does not impute for outlying areas, the Bureau of Indian Affairs Schools or the Department of Defense Dependent Schools.

Revised File Changes —Each year CCD files are revised one year later if errors are found on the file or a state resubmits. The following are changes from the original release of the Common Core of Data State Nonfiscal Survey of Public Elementary/Secondary Education: School Year 2001-02.

The following changes were made in version 1b:

1. All data imputed based on current year (Fall 2001) data changed due to the states for which the imputation were performed resubmitting actual data.
2. Directory information was revised for the following states: Texas, American Samoa, and Northern Marianas.
3. Student membership, membership by grade, and/or membership by race/ethnicity were revised for the following states: Alabama, Alaska, Colorado, Delaware, Idaho, Kentucky, Massachusetts, Minnesota, New Mexico, North Carolina, North Dakota, Rhode Island, South Carolina, Texas, Utah, Wisconsin, Wyoming, and Puerto Rico.
4. Staff counts were revised for the following states: Alabama, Alaska, Colorado, Connecticut, Delaware, Georgia, Illinois, Maine, Maryland, Massachusetts, Minnesota, Nebraska, New Hampshire, North Dakota, South Carolina, Virginia, Washington, West Virginia, Wisconsin, Wyoming, and Virgin Islands.
5. High school completion data were revised for the following states: Arizona, Missouri, Oregon, South Carolina, Utah, and Puerto Rico.

The following change was made in version 1c:

1. The total number of students was adjusted to equal the total number of students in grades PK–12 and ungraded.

Total membership. This file excludes 6,943 charter school students reported for the District of Columbia. Enrollment by grade was missing for these students.

Prekindergarten (PK) student membership. Alabama, California, Tennessee, Wyoming, the Bureau of Indian Affairs schools and the Virgin Islands reported PK membership as non-applicable or missing. Data were imputed for Alabama, California and Tennessee. NCES accepts Wyoming's assertion by the state department of education that they do not have any prekindergarten students.

Ungraded student membership. Alabama, Alaska, Colorado, Connecticut, Delaware, Florida, Georgia, Idaho, Massachusetts, Minnesota, Nebraska, New Mexico, North Carolina, North Dakota, Rhode Island, South Carolina, Texas, Washington, Wisconsin, Wyoming, the Department of Defense Dependents Overseas Schools, Guam and the Bureau of Indian Affairs schools reported zero or non-applicable for ungraded student membership; all counts were set to non-applicable. In most of these states and territories all students are assigned grades, and

therefore in those states and territories, this category does not exist. The Virgin Islands reported ungraded student membership as missing.

Prekindergarten (PK) teachers. Alabama, California, Maine, Montana, Nebraska, Pennsylvania, Wyoming, the Bureau of Indian Affairs schools and the Virgin Islands did not report PK teachers. Maine, Montana, Nebraska, and Pennsylvania include PK teachers in the elementary and secondary teacher counts. Imputations or adjustments were performed for all of these states except for Wyoming, the Bureau of Indian Affairs schools and the Virgin Islands.

Kindergarten teachers. Hawaii, Maine, Montana, Nebraska, Pennsylvania, and the Bureau of Indian Affairs schools did not report kindergarten teachers. Hawaii, Maine, Montana, Nebraska and Pennsylvania include these teachers with elementary and secondary teacher counts. Imputations or adjustments were performed for all of these states except for the Bureau of Indian Affairs schools.

Elementary teachers. The Bureau of Indian Affairs schools did not report elementary teachers. Hawaii, Maine, Montana, Nebraska and Pennsylvania include PK and/or kindergarten teachers in the elementary and secondary teacher counts. This count was adjusted for all of these states.

Secondary teachers. The Bureau of Indian Affairs did not report secondary teachers.

Ungraded teachers. Alabama, Alaska, Arizona, California, Colorado, Delaware, Georgia, Idaho, Maine, Maryland, Montana, Nebraska, New Hampshire, North Dakota, Virginia, Wisconsin, and the Bureau of Indian Affairs schools did not report ungraded teachers. Ungraded teacher counts were not imputed for any of these states.

Instructional aides. Illinois, Montana, South Carolina, and the Bureau of Indian Affairs schools did not report instructional aides. Instructional aides were imputed or adjusted for each state except for the Bureau of Indian Affairs.

Instructional coordinators and supervisors. Alaska, New Hampshire, Tennessee, and the Bureau of Indian Affairs schools did not report instructional coordinators and supervisors. These counts were imputed or adjusted for all these states except for the Bureau of Indian Affairs schools.

Elementary guidance counselors. Hawaii, Michigan, and the Bureau of Indian Affairs schools did not report elementary guidance counselors. Hawaii and Michigan reported total guidance counselors only. Wyoming reported more total guidance counselors than the sum of elementary and secondary guidance counselors. These counts were imputed or adjusted for Hawaii and Michigan.

Secondary guidance counselors. Hawaii, Michigan, and the Bureau of Indian Affairs schools did not report secondary guidance counselors. Hawaii and Michigan reported total guidance counselors only. Wyoming reported more total guidance counselors than the sum of elementary and secondary guidance counselors. These counts were imputed or adjusted for Hawaii and Michigan.

Librarians/Media Specialists. The Commonwealth of the Northern Marianas and the Bureau of Indian Affairs schools did not report librarians/media specialists.

Library/Media support staff. California, Illinois, Missouri, Montana, Tennessee, Texas, the Bureau of Indian Affairs Schools, and the Department of Defense Dependents Schools did not report library/media support staff. This category was imputed or adjusted for each state except for the Bureau of Indian Affairs Schools and the Department of Defense Dependents Schools.

LEA Administrators. The Bureau of Indian Affairs schools did not report LEA Administrators.

Administrative support staff. Illinois, Maine, Massachusetts, Montana, South Carolina, Tennessee and the Bureau of Indian Affairs schools did not report administrative support staff. Nebraska includes school administrative support staff with administrative support staff. Administrative support staff counts were imputed or adjusted for each state except for the Bureau of Indian Affairs schools.

School Administrators. The Bureau of Indian Affairs did not report school administrators. New Hampshire includes instructional coordinators and supervisors with school administrators. This count was adjusted for New Hampshire.

School administrative support staff. Illinois, Maine, Minnesota, Missouri, Montana, Nebraska, South Carolina, and the Bureau of Indian Affairs schools did not report school administrative support staff. Data for all of these states were imputed or adjusted except for the Bureau of Indian Affairs schools. New Hampshire includes student support services with school administrative support staff. Tennessee includes Instructional coordinators and supervisors with school administrative support staff. These numbers were adjusted for both states.

Student support services staff. New Hampshire, Tennessee, and the Bureau of Indian Affairs schools did not report student support services staff. Data for all of these states were imputed or adjusted except for the Bureau of Indian Affairs schools.

All other support staff. Illinois, Montana, and the Bureau of Indian Affairs schools did not report all other support staff. California, Maine, Minnesota, Missouri, Tennessee and Texas include other counts in all other support staff. These counts were imputed or adjusted except for the Bureau of Indian Affairs schools.

Regular diploma recipients. The Bureau of Indian Affairs schools reported regular diploma recipients as missing.

Other diploma recipients. This item has not been collected since 1997-98. These counts are included in the regular diploma recipients' total.

High school equivalency recipients. Arizona, California, District of Columbia, Georgia, Hawaii, Idaho, Illinois, Indiana, Kansas, Kentucky, Maryland, Massachusetts, Nebraska, South Carolina, South Dakota, Tennessee, Wyoming, the Bureau of Indian Affairs schools, Guam, the

Commonwealth of the Northern Marianas, the Virgin Islands and the Department of Defense Dependents Schools did not report high school equivalency recipients. The variable for all of the states was adjusted to M.

Other high school completers. California, Illinois, Kansas, Massachusetts, Minnesota, Missouri, Montana, New Jersey, North Dakota, Ohio, Oklahoma, Pennsylvania, South Dakota, Texas, Guam and the Department of Defense Dependents Schools reported other high school completers as not applicable. New Hampshire, Wisconsin, the Bureau of Indian Affairs schools, and the Commonwealth of the Northern Marianas reported other high school completers as missing. Other high school completers counts were not imputed.

Race/ethnicity student data. Idaho and the Virgin Islands did not report race/ethnicity student data by grade. NCES does not impute race/ethnicity data.

Race/ethnicity graduate data. Arizona, New Hampshire, South Carolina, Tennessee, Vermont and the Bureau of Indian Affairs schools did not report race/ethnicity graduate data. NCES does not impute race/ethnicity data.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

For CCD to have comparable data across states, all states must abide by the same standard definitions when reporting on schools, students, and staff. To ensure a common understanding, definitions for critical terms are presented below. The glossary contains definitions for all variables and terms found on the CCD school, agency, or state files.

Alternative Education School

A public elementary/secondary school that addresses needs of students which typically cannot be met in a regular school; provides nontraditional education; serves as an adjunct to a regular school; and falls outside of the categories of regular, special education, or vocational education.

American Indian/Alaskan Native

A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Asian/Pacific Islander

A person having origins in any of the original peoples of the Far east, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This includes, for example, China, India, Japan, Korea, the Philippine Islands, and Samoa.

Black

A person having origins in any of the black racial groups of Africa.

Boundary Change

See "Operational Status, Agency" for definition. Name of term was changed to "Operational Status, Agency," after 1997-98.

Central City

The largest city of a Metropolitan Statistical Area or a Consolidated Metropolitan Statistical Area, plus additional cities that meet specified statistical criteria. (See also "Locale Code".)

Charter School

A school providing free public elementary and/or secondary education to eligible students under a specific charter granted by the state legislature or other appropriate authority, and designated by such authority to be a charter school. Item was first collected in 1998-99.

Classroom Teacher

See "Teacher".

Consolidated Metropolitan Statistical Area (CMSA)

If an area that qualifies as a metropolitan area (MA) has more than one million people, two or more primary metropolitan statistical areas (PMSAs) may be defined within it. Each PMSA consists of a large urbanized county or cluster of counties (cities and towns in New England) that demonstrate very strong internal economic and social links, in addition to close ties to other portions of the larger area. When PMSAs are established, the larger MA of which they are component parts is designated a consolidated metropolitan statistical area (CMSA). CMSAs and PMSAs are established only where local governments favor such designations for a large MA.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

Diploma, High School

A formal document certifying the successful completion of a secondary school program prescribed by the state education agency or other appropriate body.

Diploma Recipient

A student who has received a diploma during the previous school year or subsequent summer school. This category includes regular diploma recipients and other diploma recipients.

District Locale Code

A code based upon the school locale codes to indicate the location of the district in relation to populous areas. (See also, "Large City", "Mid-size City", "Urban Fringe of Large City", "Urban Fringe of Mid-Size City", "Large Town", "Small Town", "Rural, outside MSA", and "Rural, inside MSA".)

Dropout

A student who was enrolled in school at some time during the previous school year; was not enrolled at the beginning of the current school year; has not graduated from high school or completed a state or district-approved educational program; and does not meet any of the following exclusionary conditions: has transferred to another public school district, private school, or state- or district-approved educational program; is temporarily absent due to suspension or school-approved illness; or has died. Item was first collected in 1992-93.

Education Agency

A government agency administratively responsible for providing public elementary and/or secondary instruction or educational support services.

Elementary

A general level of instruction classified by state and local practice as elementary, composed of any span of grades not above grade 8; preschool or kindergarten included only if it is an integral part of an elementary school or a regularly established school system.

English Language Learner (ELL)

See "Limited-English Proficient (LEP)".

Federally-Operated Education Agency

A federally-operated agency that is charged, at least in part, with providing elementary and/or secondary instruction or support services.

Free Lunch Program

A program under the National School Lunch Act that provides cash subsidies for free lunches to students based on family size and income criteria.

Full-time Equivalency (FTE)

The amount of time required to perform an assignment stated as a proportion of a full-time position, and computed by dividing the amount of time employed by the time normally required for a full-time position.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

General Education Development (GED) Test

A comprehensive test used primarily to appraise the educational development of students who have not completed their formal high school education, and who may earn a high school equivalency certificate through achievement of satisfactory scores.

Grade Span Offered

The span of grades intended to be served by this school or agency, whether or not there are students currently enrolled in all grades. If a high school also has a prekindergarten program, the grade span of the high school is reported as a high school, not as a PK-12 school. For example, if a school has PK, 09, 10, 11, and 12 grades, the grade span will be reported as Grades 9 through 12 (0912). Also, the ungraded designation (UG) cannot be used in a grade span unless the whole school is ungraded students, and in this case the grade span is reported as UGUG. “Grade span” was calculated from school membership through 1997-98, and first collected as a separate item in 1998-99.

Graduate, High School

A high school graduate is defined as an individual who received a diploma recognizing the completion of secondary school requirements during the previous school year and subsequent summer school. It excludes high school equivalency and other high school completers (e.g., those granted a certificate of attendance).

Guidance Counselor/Director

Professional staff assigned specific duties and school time for any of the following activities in an elementary or secondary setting: counseling with students and parents; consulting with other staff members on learning problems; evaluating student abilities; assisting students in making educational and career choices; assisting students in personal and social development; providing referral assistance; and/or working with other staff members in planning and conducting guidance programs for students. The state applies its own standards in apportioning the aggregate of guidance counselors/ directors into the elementary and secondary level components.

Head Start Program

A federally funded program that provides comprehensive educational, social, health, and nutritional services to low-income preschool children and their families, and children from ages 3 to school entry age (i.e., the age of compulsory school attendance). Head Start students and teachers are reported on the CCD only when the program is administered by a local education agency.

High School Completion Count

A count of graduates and other high school completers including regular diploma recipients, other diploma recipients, and other high school completers. (The State Nonfiscal Survey also includes high school equivalency recipients in high school completion counts.)

High School Equivalency Certificate

A formal document certifying that an individual met the state requirements for high school graduation equivalency by obtaining satisfactory scores on an approved examination, and meeting other performance requirements (if any) set by a state education agency or other appropriate body.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

High School Equivalency Recipient

Individual age 19 years or younger who received a high school equivalency certificate during the previous school year or subsequent summer. Item was last reported on the Local Education Agency Survey in 1990-91, but continues to be collected by the State Nonfiscal Survey.

High School Graduate, Regular Day School

A student who received a high school diploma during the previous school year or subsequent summer school; the diploma is based upon completion of high school requirements through traditional means. Term was last used in 1986-87. See, "Regular Diploma Recipient."

High School Graduate, Other Programs

A student who received a high school diploma, equivalency diploma, or other completion credential during the previous school year or subsequent summer school; the credential is based upon completion of other than the standard high school requirements or is achieved through nontraditional means. Term was last used in 1986-87. See, "Other Diploma Recipient," "High School Equivalency Recipient," and "Other High School Completer."

Hispanic

A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.

Individualized Educational Program (IEP)

A written instructional plan for students with disabilities designated as special education students under IDEA-Part B. The written instructional plan includes a statement of present levels of educational performance of a child; statement of annual goals, including short-term instructional objectives; statement of specific educational services to be provided and the extent to which the child will be able to participate in regular educational programs; the projected date for initiation and anticipated duration of services; the appropriate objectives, criteria and evaluation procedures; and the schedules for determining, on at least an annual basis, whether instructional objectives are being achieved.

Instructional Aide

Staff member assigned to assist a teacher with routine activities associated with teaching, i.e., activities requiring minor decisions regarding students, such as monitoring, conducting rote exercises, operating equipment and clerking. *Includes only paid staff, and excludes volunteer aides.*

Instructional Coordinators and Supervisors

Persons who supervise instructional programs at the school district or sub-district level; category includes educational television staff; coordinators and supervisors of audio-visual services; curriculum coordinators and in-service training staff; Title I coordinators and home economics supervisors; and staff engaged in the development of computer-assisted instruction. School-based department chairpersons are excluded.

Kindergarten

A group or class that is part of a public school program, and is taught during the year preceding first grade.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

Large City

A central city of a CMSA or MSA, with the city having a population greater than or equal to 250,000. (See also “Locale Code”.) Prior to 1994-95, “Large City” was defined as a central city of a metropolitan area with a population of 400,000 or more, or a population density of at least 6,000 people per square mile.

Large Town

An incorporated place or Census Designated Place (CDP) with a population greater than or equal to 25,000 and located outside a CMSA or MSA.

Latitude

Latitude is the north or south angular distance from the equator that when combined with longitude, reflects an estimation of where the school is physically situated on the street segment to which it was coded. Coordinate degrees, minutes, and seconds have been converted to and are displayed in terms of their decimal equivalent. The first 3 digits of the code represent the number of degrees from the equator; the last 6 digits represent the fraction of the next degree carried out to six decimal places, with an implied decimal. For example, if a school’s latitude is 30 degrees, 30 minutes north then it is shown as 030500000.

Local Education Agency (LEA) Administrative Support Staff

All staff members who provide direct support to LEA administrators, business office support, and data processing.

LEA Administrator

Chief executive officer of the education agencies, including superintendents, deputies, and assistant superintendents; other persons with district-wide responsibilities: e.g., business managers, administrative assistants, and professional instructional support staff. *Exclude supervisors of instructional or student support staff.*

Librarian

As professional staff member or supervisor assigned specific duties and school time for professional library services activities. This includes selecting, acquiring, preparing, cataloguing, and circulating books and other printed materials; planning the use of the library by students, teachers, and instructional staff; and guiding individuals in use of library books and material maintained separately or as a part of an instructional materials center.

Library and Media Support Staff

Staff member who renders other professional library and media services; also includes library aides and those involved in library/media support. Duties include selecting, preparing, caring for, and making available to instructional staff, equipment, films, filmstrips, transparencies, tapes, TV programs, and similar materials maintained separately or as part of an instructional materials center. Also included are activities in the audio-visual center, TV studio, related-work-study areas, and services provided by audio-visual personnel.

Limited-English Proficient (LEP)

Students being served in appropriate programs of language assistance (e.g., English as a Second Language, High Intensity Language Training, bilingual education). Does not include pupils enrolled in a class to learn a language other than English. Also Limited-English-Proficient students are individuals who were not born in the United States or whose native language is a language other than English; or individuals who come from environments where a language other than English is dominant; or individuals who are American Indians and Alaskan Natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency; and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language, to deny such individuals the opportunity to learn successfully in classrooms

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

where the language of instruction is English or to participate fully in our society. Item was first collected in 1998-99. The new term for this field is English Language Learner (ELL), and will be used in the 2002-03 file.

Locale Code

Locale code is defined based on how the school is situated in a particular location relative to populous areas, based on the school's address. (See also, "Large City", "Mid-size City", "Urban Fringe of Large City", "Urban Fringe of Mid-Size City", "Large Town", "Small Town", "Rural, outside MSA", and "Rural, inside MSA".)

Longitude

Longitude is the east or west angular distance from the prime meridian that when combined with latitude, reflects an estimation of where the school is physically situated on the street segment to which it was coded. Coordinate degrees, minutes, and seconds have been converted to and are displayed in terms of their decimal equivalent. The first 3 digits of the code represent the number of degrees from the prime meridian; the last 6 digits represent the fraction of the next degree carried out to six decimal places, with an implied decimal. For example, if a school's longitude is 90 degrees, 15 minutes west then it is shown as -090250000.

Magnet School or Program

A special school or program designed to attract students of different racial/ethnic backgrounds for the purpose of reducing, preventing or eliminating racial isolation (50 percent or more minority enrollment); and/or to provide an academic or social focus on a particular theme (e.g., science/math, performing arts, gifted/talented, or foreign language). Item was first collected in 1998-99.

Media Specialist

Directors, coordinators, and supervisors of media centers. See "Library and Media Support Staff".

Membership

The count of students on the current roll taken on the school day closest to October 1, by using either: the sum of original entries and re-entries minus total withdrawals; or the sum of the total present and the total absent.

Metropolitan Status (Metro Status)

Metro status is defined as the classification of an education agency's service area relative to an MSA. (See also Metropolitan Statistical Area.)

Metropolitan Areas (MA)

Term refers collectively to MSAs, CMSAs, PMSAs, and New England County Metropolitan Areas. The Office of Management and Budget (OMB) defines new MAs and revises definitions of existing MAs by applying published standards to decennial census data.

Metropolitan Statistical Area (MSA)

An area consisting of one or more contiguous counties (cities and towns in New England) that contain a core area with a large population nucleus, as well as adjacent communities having a high degree of economic and social integration with that core. An area is defined as an MSA if: it is the only MSA in the immediate area and it has a city of at least 50,000 population; or it is an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000 (75,000 in New England).

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

Mid-size City

A central city of a CMSA or MSA, with the city having a population less than 250,000.. (See also “Locale Code”.) Prior to 1994-95, term was defined as a central city of a metropolitan area with a population less than 400,000 and a population density less than 6,000 people per square mile.

Migrant Student

Defined under 34 CFR 200.40: 1) (a) Is younger than 22 (and has not graduated from high school or does not hold a high school equivalency certificate), but (b), if the child is too young to attend school-sponsored educational programs, is old enough to benefit from an organized instructional program; and 2) A migrant agricultural worker or a migrant fisher or has a parent, spouse, or guardian who is a migrant agricultural worker or a migrant fisher; and 3) Performs, or has a parent, spouse, or guardian who performs qualifying agricultural or fishing employment as a principal means of livelihood; and 4) Has moved within the preceding 36 months to obtain or to accompany or join a parent, spouse, or guardian to obtain, temporary or seasonal employment in agricultural or fishing work; and 5) Has moved from one school district to another; or in a state that is comprised of a single school district, has moved from one administrative area to another within such district; or resides in a school district of more than 15,000 square miles, and migrates a distance of 20 miles or more to a temporary residence to engage in a fishing activity. (Provision 5 currently applies only to Alaska.) Item was first collected in 1998-99.

Officials and Administrators

Chief executive officers of the education agencies, including superintendents, deputies, and assistant superintendents; and other persons with district-wide responsibilities, such as business managers, administrative assistants, etc.

Operational Status, Agency

Classification of changes in an education agency’s boundaries or jurisdiction. Classifications include no change; closed with no effect on another agency’s boundaries; new agency with no effect on another agency’s boundaries; added; and significant change in geographical boundaries or instructional responsibility. Prior to 1998-99 the term “Boundary Change” was used.

Operational Status, School

Classification of the operational condition of a school. Classifications include currently operational, closed, new, added, and changed agency.

Other Diploma Recipient

A student who received a diploma through other than a regular school program during the previous school year or subsequent summer. Last reported in 1997-98; combined with “Regular Diploma Recipient” in 1998-99 with both categories reported as "Diploma Recipient".

Other High School Completer

Student who has received a certificate of attendance or other certificate of completion in lieu of a diploma during the previous school year and subsequent summer school.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

Other Support Staff

Staff who serve in a support capacity and who are not included in the categories of central office administrative support, library support, student support, or school administrative support; e.g., data processing staff, bus drivers, and health, building and equipment maintenance, security, and cafeteria workers.

Prekindergarten Student

Students who is enrolled in a group or class that is part of a public school program taught during the year or years preceding kindergarten, excluding Head Start students unless part of an authorized public education program of a local education agency.

Prekindergarten Teacher

Teacher of a group or class that is part of a public school program, and which is taught during the year or years preceding kindergarten; includes teachers of Head Start students if part of authorized public education program of an LEA.

Primary Metropolitan Statistical Area (PMSA)

If an area meets the requirements to qualify as a MSA and has a population of 1,000,000 or more, one or more PMSAs may be defined within it if statistical criteria are met and local opinion also is in favor. A PMSA consists of a large urbanized county, or a cluster of such counties (cities and towns in New England) that have substantial commuting interchange. When one or more PMSAs have been recognized, the larger area of which they are component parts then is designated a CMSA.

Public School

An institution that provides educational services and has one or more grade groups (PK-12), or which is ungraded; has one or more teachers to give instruction; is located in one or more buildings; has an assigned administrator; receives public funds as primary support; and is operated by an education agency.

Reduced-Price Lunch Student

A student who is eligible to participate in the Reduced-Price Lunch Program under the National School Lunch Act. (See also, "Free Lunch Eligible.")

Regional Education Service Agency

Agency providing services to a variety of local education agencies, or a county superintendent serving the same purposes.

Regular Diploma Recipient

See "High School Graduate, Regular Day School". Last reported in 1997-98; combined with "Other Diploma Recipient" in 1998-99 with both categories reported as "Diploma Recipient".

Regular School

A public elementary/secondary school that does not focus primarily on vocational, special, or alternative education.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

Rural

Any incorporated place, Census designated place, or non-place territory not defined by the Census Bureau as an urbanized area or urban cluster. From 1998-99 onward, the category was separated into “Rural, Inside MSA” and “Rural, Outside MSA.”

Rural, inside MSA

Any incorporated place, Census designated place, or non-place territory within a CMSA or MSA and defined as rural by the Census Bureau. Category represents a subset of “Rural,” and was introduced in 1998-99. (See also “Locale Code”.)

Rural, outside MSA

Any incorporated place, Census designated place, or non-place territory not within a CMSA or MSA and defined as rural by the Census Bureau. Category represents a subset of “Rural,” and was introduced in 1998-99. (See also “Locale Code”.)

School Administrative Support Staff

Staff whose activities are concerned with support of the teaching and administrative duties of the office of the principal or department chairpersons; this includes clerical staff and secretaries.

School Administrator

Staff member whose activities are concerned with directing and managing the operation of a particular school, including principals, assistant principals, other assistants; and those who supervise school operations, assign duties to staff members, supervise and maintain the records of the school, coordinate school instructional activities with those of the education agency, including department chairpersons.

School District

An educational agency or administrative unit that operates under a public board of education.

Secondary

The general level of instruction classified by state and local practice as secondary and composed of any span of grades beginning with the next grade following the elementary grades and ending with or below grade 12.

Small Town

An incorporated place or Census Designated Place (CDP) with population less than 25,000 and greater than or equal to 2,500 and located outside a CMSA or MSA. (See also “Locale Code”.)

Special Education School

A public elementary/secondary school that focuses primarily on special education; including instruction for any of the following: autism, deaf-blindness, developmental delay, hearing impairment, mental retardation, multiple disabilities, orthopedic impairment, serious emotional disturbance, specific learning disability, speech or language impairment, traumatic brain injury, visually impairment, and other health impairments; and which adapts curriculum, materials or instruction for students served.

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

State Education Agency (SEA)

An agency of the state charged with primary responsibility for coordinating and supervising public instruction including setting of standards for elementary and secondary instructional programs.

State-Operated Agency

Agency that is charged, at least in part, with providing elementary and/or secondary instruction or support services. Examples include elementary/secondary programs operated by the state for the deaf or blind; and programs operated by state correctional facilities.

Student

An individual for whom instruction is provided in an elementary or secondary education program that is not an adult education program and is under the jurisdiction of a school, school system, or other education institution.

Student Support Services Staff

Staff member whose activities are concerned with the direct support of students; and who nurture, but do not instruct, students. Includes attendance officers; staff providing health, psychology, speech pathology, audiology, or social services; and supervisors of the preceding staff and of health, transportation, and food service workers.

Supervisory Union

An educational agency where administrative services are performed for more than one school district by a common superintendent.

Teacher

An individual who provides instruction to prekindergarten, kindergarten, grades 1 through 12, or ungraded classes; or individuals who teach in an environment other than a classroom setting; and who maintain daily student attendance records.

Title I Eligible School

A school designated under appropriate state and federal regulations as being eligible for participation in programs authorized by Title I of Public Law 103-382. Item was first collected in 1998-99.

Title I School-wide Program

A school in which all the pupils in a school are designated under appropriate state and federal regulations as being eligible for participation in programs authorized by Title I of Public Law 103-382. Item was first collected in 1998-99.

Ungraded Student

Individual assigned to class or program that does not have standard grade designations.

Urban Fringe

A closely settled area, contiguous to a central city, outside a central city; with a minimum population of 2,500 inhabitants; with a population density of at least 1,000 per square mile; and has a Census Urbanized Area Code. (See also "Locale Code".)

APPENDIX C—Glossary

School, Agency, and State File, Common Core of Data, 2001-02

Urban Fringe of a Large City

Any incorporated place, Census designated place, or non-place territory within a CMSA or MSA of a “Large City” and defined as urban by the Census Bureau. Prior to 1994-95, defined as any incorporated place, Census designated place, or non-place territory within a CMSA or MSA and defined as urban by the Census Bureau, with a central city with a population of 400,000 or more or a population density of at least 6,000 people per square mile. (See also “Locale Code”.)

Urban Fringe of a Mid-size City

Any incorporated place, Census Designated Place (CDP), or non-place territory within a CMSA or MSA of a Mid-size City and defined as urban by the Census Bureau. Prior to 1994-95, defined as any incorporated place, Census designated place, or non-place territory within a CMSA or MSA and defined as urban by the Census Bureau, with a central city with a population less than 400,000 or a population density less than 6,000 people per square mile. (See also “Locale Code”.)

Urbanized Area

An area with a population concentration of at least 50,000; generally consisting of a central city and the surrounding, closely settled, contiguous territory and with a population density of at least 1,000 inhabitants per square mile.

Vocational Education School

A public elementary/secondary school that focuses primarily on providing formal preparation for semi-skilled, skilled, technical, or professional occupations for high school-aged students who have opted to develop or expand their employment opportunities, often in lieu of preparing for college entry.

White

A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

APPENDIX D—Data Tables

Table 1. Public school student membership, by grade and state: School year 2001–02

State	Total student membership	Pre-kindergarten	Kindergarten	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5

— Not available.

† Not applicable.

¹ The DC student/teacher ratio does not include the 6,943 charter school students for which no teachers were reported.

² Data imputed based on current year (fall 2001) data.

³ Total teachers in each state may not add to detail due to rounding, missing detail, or duplicate reporting in the detail.

⁴ Data disaggregated from reported total.

NOTE: Teacher counts are full-time equivalency (FTE) counts. Elementary and secondary teacher counts are not directly comparable across states due to differences in the grades included in these designations.

¹ Data imputed based on current year (fall 2001) data.

² Data disaggregated from reported total.

³ Student/other support services include library support staff, student support services staff, and all other non-administrative support staff.

⁴ Administrative support staff includes district and school level administrative support staff.

NOTE: All staff counts are full-time-equivalency (FTE) counts.
