Dear School Administrator,

This questionnaire is an important part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5. You have received this questionnaire because one or more of the children in your school are participants in this study.

This questionnaire contains several brief sections:
- a) School characteristics
- b) School facilities and resources
- c) School-family-community connections
- d) School policies and practices
- e) School programs for particular populations
- f) Federal programs: Title I, Adequate Yearly Progress (AYP), and Title III (if applicable)
- g) Staffing and teacher characteristics
- h) School administrator characteristics

This information is vital to the study. Please feel free to ask other knowledgeable members of your staff to provide the information necessary to complete various sections of the questionnaire. However, we ask that you, yourself, please complete the final section, which is about your own background and characteristics. Taking part in the study is voluntary. You may stop at any time or choose not to answer a question you do not want to answer. Although we realize you are very busy, we urge you to complete this questionnaire as completely and accurately as possible. The information you provide is being collected for research purposes only and will be protected from disclosure to the fullest extent allowable by law (Education Sciences Reform Act of 2002, 20 U.S.C. § 9573). Information from multiple individuals will be combined to produce statistical reports; no information that identifies you will be included in any reports or provided to students, their parents, or other school staff.

Please record your answers directly on the questionnaire by marking the appropriate answer (as described in the instructions on page 6) or by writing your responses in the space provided. Your best estimates are acceptable answers.

DEFINITIONS

For the purposes of this study, the following definitions apply:

- Kindergarten: Traditional year of school primarily for 5-year-olds prior to first grade.

- Transitional (or readiness) kindergarten: Extra year of school for kindergarten-age eligible children who are judged not ready for kindergarten.

- Transitional first (or prefirst) grade: Extra year of school for children who have attended kindergarten but have been judged not ready for first grade.

- Ungraded: A classroom containing children with an age span of two or more years, not formally identified by grade(s).

Special programs. Reference is made in this questionnaire to Title I and Title III programs, individualized education programs (IEP), individualized family service plans (IFSP), Section 504 plans, and Response to Intervention (RtI). For this study, the following definitions apply:

- Title I: "Improving the Academic Achievement of the Disadvantaged." Title I is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. The purpose of this program is to ensure that all children have a fair, equal, and significant opportunity to obtain a high-quality education and reach, at a minimum, proficiency on state academic achievement standards and state academic assessments.

- Title III: "Language Instruction for Limited English Proficient and Immigrant Students." Title III is a program of the Elementary and Secondary Education Act (ESEA) of 1965, as reauthorized under the No Child Left Behind Act of 2001. One of the main purposes of this program is to help ensure that children who have limited proficiency in English, including immigrant children and youth, attain English proficiency, develop high levels of academic attainment in English, and meet the same state academic content and student academic achievement standards as all students are expected to meet.

- Individualized Education Program (IEP): A written statement of the educational program designed to meet the individual needs of a school-aged child with a disability that is judged to affect the child's educational performance. Children who receive special education services under the Individuals with Disabilities Education Act (IDEA) are expected to have an IEP or an IFSP.

- Individualized Family Service Plan (IFSP): A written statement of the educational program and other services designed to enhance the family's capacity to meet the developmental needs of an infant or toddler (preschool-aged) with a disability. The plan includes a description of the appropriate services needed to assist transition into elementary school.

- Section 504 plan: A written plan to provide appropriate services to a child with a disability, whether or not the disability is judged to affect the child's educational performance. Speech therapy services may often be specified as part of a Section 504 plan.

- Response to Intervention (RtI): A multi-step approach to providing early and progressively intensive intervention and monitoring within the general education setting. In principle, RtI begins with research-based instruction and behavioral support provided to students in the general education classroom, followed by screening of all students to identify those who may need systematic progress monitoring, intervention, or support. Students who are not responding to the general education curriculum and instruction are provided with increasingly intensive interventions through a "tiered" system, and they are regularly monitored to assess their progress and inform the choice of future interventions, including possibly special education for students determined to have a disability.

Language. Reference is made to English language learners (ELL), as well as to instructional programs for ELL students in this questionnaire. For this study, the following definitions apply:

- Language-minority (LM) student: A student in whose home a non-English language typically is spoken. This group includes students whose English is fluent enough to benefit from instruction in academic subjects offered in English as well as students who are English language learners.

- English language learner (ELL): A student whose native language is one other than English and whose skills in listening, speaking, reading, or writing English are such that he or she has difficulty understanding school instruction in English.

TYPES OF LANGUAGE INSTRUCTION EDUCATIONAL PROGRAMS (LIEPs) [1]

Programs that focus on developing students' literacy in two languages

- Two-way immersion program (TWI) or two-way bilingual program: The goal of these programs is to develop strong skills and proficiency in both students' home language and English. These programs may also be called dual language programs. These programs include students whose native language is not English (but who all speak the same non-English language) and students whose native language is English. Instruction is provided in both languages, typically starting with a smaller proportion of instruction in English, and gradually moving to half of the instruction in each language. Students typically stay in these programs throughout elementary school.

- Developmental bilingual program, late exit transitional program, or maintenance bilingual education program: The goal of these programs is to develop some skills and proficiency in students' home language and strong skills and proficiency in English. Content is taught in both languages by teachers fluent in both languages. These programs may also be called dual language programs. Instruction at lower grades is in the students' home language with a gradual transition to English. Students typically transition into mainstream classrooms with their English-speaking peers. The programs can vary in the focus placed on acquiring literacy in students' home language, but students generally do continue to receive some degree of support in their home language after the transition to English classrooms.

- Transitional program, early exit bilingual program, or early exit transitional program: The goal of these programs is to develop English proficiency skills as soon as possible, without delaying learning of academic core content. Instruction begins in students' home language but rapidly moves to English. Students typically are transitioned into mainstream classrooms with their English-speaking peers as soon as possible.

- Heritage language program or indigenous language program: The goal of these programs is to develop literacy in two languages. Content is taught in both languages by teachers fluent in both languages. These programs typically target non-English speakers with weak literacy skills in their home language.

Programs that focus on developing students' literacy solely in English

- Sheltered English instruction or content-based English as a Second Language (ESL) program: The goal of these programs is to develop proficiency in English while learning content in an all-English setting. Students from various linguistic and cultural backgrounds can be in the same class. Instruction is adapted to students' proficiency in English and is supported by visual aids and support in the students' home languages as available. Fully developed prototypes of this program include Sheltered Instruction Observational Protocol (SIOP) and Specially Designed Academic Instruction in English (SDAIE).

- Structured English Immersion (SEI): The goal of SEI is to develop fluency in English. This program usually serves only English language learners. All instruction is in English, though the instruction is adjusted to the English proficiency level of students so subject matter is comprehensible. Teachers may have some receptive skills in the students' home language(s) and generally use sheltered instructional techniques.

- Pull-out English as a Second Language (ESL) or English Language Development (ELD): The goal of these programs is to develop fluency in English. ELL students leave their mainstream classroom for part of the day to receive ESL instruction, which generally focuses on grammar, vocabulary, and communication skills, not academic content. There typically is no support provided for students' home languages.

- Push-in English as a Second Language (ESL) program: The goal of push-in ESL is to develop fluency in English. Students receive ESL instruction in a mainstream classroom, with instruction in English with some native language support if needed. The ESL teacher or an instructional aide provides clarification, translation if needed, and uses ESL strategies.

THANK YOU VERY MUCH FOR YOUR HELP.
