

ASPEN 116 Web Application

Online Learning

The ASPEN 116 Web Application e-learning series contains 11 executable module files. Each module is a self-contained lesson, but we recommend that you view the modules in sequence.

You can launch the modules individually from the QTSO website, or download the files and run them locally. To facilitate downloading, we are posting a zip file, CLIA 116 Elearning.zip, that contains all of the modules. If you have trouble viewing the modules online or downloading zip files, call the Help Desk at 888-477-7876, or send us an email (help@qtso.com), and we can mail you an ASPEN Online Learning CD.

Your screen resolution (Start | Control Panel | Display | Settings) should be set at 1024 X 768 for viewing. The movies are sized to give you access to your Windows taskbar, though you may have to move the window up a bit, since the modules initially open in the middle of your screen. If you have a widescreen monitor, you may not be able to see the taskbar.

You can watch the lessons without audio, or use headphones or speakers. The modules advance automatically, and you can also use PgUp and PgDown keys to navigate.

Module Contents

Module 1 – ASPEN Web App – Login & Search (15:49)

Module 2 – Add a Lab: Waiver (11:45)

Module 3 – Add a Lab: Compliance with Director Affiliations, Attachments (13:16)
