Title: Proposed Plan Year (PY) 2024 Qualified Health Plan (QHP) Data Submission and Certification Timeline

Subject: DRAFT Bulletin: Proposed Timing of QHP Data Submission and Certification for the 2024 Plan Year for Issuers in the Federally-facilitated Exchanges

I. Purpose

The Centers for Medicare & Medicaid Services (CMS) is releasing this draft bulletin for comment. This bulletin proposes the submission deadlines under 45 CFR 155 subpart K for health insurance issuers applying to offer qualified health plans (QHPs) on the Federally-facilitated Exchanges (FFE).

The Patient Protection and Affordable Care Act (ACA) and applicable regulations provide that health plans, including stand-alone dental plans (SADPs), must meet a number of standards in order to be certified as QHPs. Several of these are market-wide standards that apply to plans offered in the individual and small group markets, both inside and outside of the Exchanges. The remaining standards are specific to health plans seeking QHP certification from the Exchanges. The proposed dates in this bulletin would apply to all states in which an FFE operates, which include: 1) states performing plan management functions and making QHP certification recommendations to CMS, 2) states where CMS is performing all plan management functions and certifying QHPs while the state is enforcing the market-wide standards under the ACA, and 3) states where CMS is performing plan management functions and enforcing market-wide standards under the ACA (but the state continues to enforce state law requirements with which issuers must comply). Some of the proposed dates included in this bulletin would also apply to issuers in states with State-based Exchanges on the Federal Platform (SBE-FPs); additional information on these requirements will be provided in future guidance. Issuers should refer to these dates to help them successfully participate in any such Exchange in 2023.

In accordance with 45 CFR Part 155 subpart K, CMS will review, and approve or deny, QHP applications from issuers that are applying to offer QHPs on the FFEs. CMS will not conduct QHP certification reviews of plans that are submitted for offering only outside of the FFEs, except for SADPs seeking off-Exchange certification. The FFEs will not display ancillary insurance products and health plans that are not QHPs (e.g., stand-alone vision plans, disability, or life insurance products). The FFEs will only offer QHPs, including SADPs.

II. Proposed PY2024 QHP Data Submission and Certification Timeline

Table 1 lists proposed key PY2024 dates for QHP certification applications and related data submissions. Additional information about the PY2024 QHP certification process will be provided in future guidance.

As in prior years, issuers will submit a complete QHP application for all plans they intend to have certified in a state in which an FFE is operating. Through an iterative process as shown in Table 1, CMS will review QHP applications for current and new issuers applying for QHP certification in an FFE. Issuers may have their QHP application denied if they fail to meet the applicable deadlines, or if their applications are not accurate or complete after the deadline for issuer submission of changes to the QHP application.¹
