Pub 100-20 One-Time Notification	Centers for Medicare & Medicaid Services (CMS)
Transmittal 11689	Date: November 9, 2022
	Change Request 12530

SUBJECT: User Enhancement Change Request (UECR): Add the Common Working File (CWF) Disposition Code to the Multi-Carrier System (MCS) Medicare Secondary Payer (MSP) 'I' Records Detail Screens, the MCS Desk Top Tool (MCSDT) and the MSP CWF Transaction Reject Report H99RB552

I. SUMMARY OF CHANGES: The purpose of this Change Request (CR) is to display the CWF disposition code, in addition to the error code currently displayed and received on the CWF MSP maintenance transaction response record, otherwise known as the HUSP transaction file. The disposition code shall be displayed on the MCS I Records Detail screen, accessed within the MCS using the mnemonic IM. The MCSDT MSP I Record Detail window and the MSP CWF Transaction Reject report H99RB552, shall also be updated to display the disposition code. This will assist the MAC in the claim adjudication process by further defining what action needs to be taken to resolve an error received from the CWF.

I. GENERAL INFORMATION

A. Background: The purpose of this Change Request (CR) is to display the CWF disposition code, in addition to the error code currently displayed and received on the CWF MSP maintenance transaction response record, otherwise known as the HUSP transaction file. The disposition code shall be displayed on the MCS I Records Detail screen, accessed within the MCS using the mnemonic IM. The MCSDT MSP I Record Detail window and the MSP CWF Transaction Reject report H99RB552, shall also be updated to display the disposition code. This will assist the MAC in the claim adjudication process by further defining what action needs to be taken to resolve an error received from the CWF.

Examples of this would be, when the HUSP transaction file is received with a 50/5052, 52/5052 or 55/5052.

The 50/5052, 50 is the disposition, indicating the CWF host cannot find the beneficiary on their files. The MAC must resubmit the claim to the host after a specified time frame.

The 52/5052, 52 is the disposition, indicating the beneficiary record is located at a different CWF host site. The MAC must hold the claim and retransmit after a specified time frame.

The 55/5052, 55 is the disposition, indicating the beneficiary name and Health Insurance Claim Number (HICN) does not match. The MAC must reject the claim back to the provider.
