

Individual Clinician Performance Information on Physician Compare Performance Year 2018 Preview Period

Overview

This document summarizes the individual clinician performance information, plain language measure and activity titles¹, and utilization data that will be available for preview in June 2020 and publicly reported on Physician Compare² later in the year. Physician Compare will publicly report clinician performance information from the 2018 Quality Payment Program. Performance information that meets statistical public reporting standards (valid, reliable, comparable, and meet the minimum reliability threshold) will be included in the Downloadable Database (§414.1395(b)).³ A subset of this information will be added to Physician Compare profile pages. Any information publicly reported on profile pages must also resonate with patients and caregivers, as shown through user testing. Per the Medicare and CHIP Reauthorization Act (MACRA), Physician Compare is required to publicly report eligible clinicians' final and performance category scores. Additionally, Physician Compare will publicly report a subset of 2017 clinician utilization data in the Downloadable Database.

Under §414.1395(d), the Centers for Medicare & Medicaid Services (CMS) provides a 60-day Preview Period for eligible clinicians and groups to preview their 2018 Quality Payment Program performance information before the data are publicly reported on Physician Compare.

The Preview Period begins on June 22, 2020 at 10 a.m. ET (or 7 a.m. PT) and ends on August 20, 2020 at 8 p.m. ET (or 5 p.m. PT). For more information on previewing your performance information, visit the [Physician Compare Initiative page](#) and download the **Physician Compare Preview Period User Guide**.

For questions about Physician Compare and public reporting, visit the [Physician Compare Initiative page](#) or contact us at PhysicianCompare-Helpdesk@AcumenLLC.com.

¹ Plain language measure and activity titles are used on Physician Compare profile pages to allow patients and caregivers to more easily understand the information. See the 2018 Measures and Activities Plain Language Crosswalk posted on the [Physician Compare Initiative page](#) for more information.

² The term "Physician Compare" is defined as "Physician Compare and/or successor website"

³ MIPS Quality and MIPS Cost measures in their first two years of use will not be publicly reported on Physician Compare (§414.1395(c)).

Overall MIPS Performance

Per section 1848(q)(9)(A) of the Social Security Act, Physician Compare is required to publicly report eligible clinicians' overall MIPS performance information. Physician Compare will publicly report the 2018 final and performance category scores for Quality, Promoting Interoperability, Improvement Activities, and Cost.

Type of score	Collection Type	Profile Page	Downloadable Database
Final score	All	-	✓
Quality performance category score	All	-	✓
Promoting Interoperability performance category score ⁵	All	-	✓
Improvement Activities performance category score	All	-	✓
Cost performance category score	All	-	✓

Note: If you have an open Targeted Review request, you will still be able to preview your 2018 Quality Payment Program performance information during the Physician Compare preview period. However, if your performance information (including final score), changes as a result of the Targeted Review, please check your updated Performance Feedback. To access your Performance Feedback, [log-in](#) to the Quality Payment Program dashboard and select the "Performance Feedback" link. This is important to ensure your Targeted Review is complete and to preview your updated performance information before it goes live on Physician Compare.

⁵ Promoting interoperability (PI) performance category scores above 0 are used to indicate, on Physician Compare profile pages, that the clinician or group successfully reported the PI performance category. A score of 50 or above, which is included in the Downloadable Database, indicates that the clinician or group achieved the base score for the PI performance category (83 FR 59913).

Clinician Performance Information on Physician Compare

Please note that updated performance information will not be released on Physician Compare or in the Downloadable Database until all Targeted Reviews have been completed.

Utilization Data

As required by section 104(3) of MACRA, Physician Compare will publicly report 2017 clinician utilization data for a subset of Healthcare Common Procedure Coding System (HCPCS) codes. The subset of publicly reported HCPCS codes are based on the top 5 codes reported by each available Medicare specialty, excluding evaluation and management (E&M) codes. A total of 209 HCPCS codes have been selected for public reporting in the Physician Compare Downloadable Database when it is released.

HCPCS Code	Code Description
00142	Anesthesia for lens surgery
00740	Anesthesia for procedure on gastrointestinal tract using an endoscope
00790	Anesthesia for procedure in upper abdomen including use of an endoscope
00810	Anesthesia for procedure on lower intestine using an endoscope
01402	Anesthesia for open or endoscopic total knee joint replacement
10022	Fine needle aspiration using imaging guidance
11042	Removal of skin and tissue first 20 sq cm or less
11055	Removal of single thickened skin growth
11056	Removal of 2 to 4 thickened skin growths
11100	Biopsy of single growth of skin and/or tissue
11101	Biopsy of each additional growth of skin and/or tissue
11642	Removal of malignant growth (1.1 to 2.0 centimeters) of the face, ears, eyelids, nose, or lips
11720	Removal of tissue from 1 to 5 finger or toe nails
