## Long-Term Care Hospital (LTCH) Quality Reporting Program (QRP) Measure Calculations and Reporting User's Manual V3.1.2

The LTCH QRP Measure Calculations and Reporting User's Manual Version 3.1.2 is now available in the downloads section below.

This document serves as an addendum that communicates quality measure updates to the LTCH QRP Measure Calculations and Reporting User's Manual Version 3.1, and replaces the LTCH QRP Measure Calculations and Reporting User's Manual Version 3.1.1. The LTCH QRP Measure Calculations and Reporting User's Manual V3.1.2 is effective on October 1, 2020 and provides information on measure-related changes in a change table format in lieu of a complete update to the overall manual.

We would like to describe the additional updates to the quality measure specifications in V3.1.2 which are not included in V3.1.1. Specifically, the measure calculation formulae were corrected for the LTCH Ventilator Liberation Rate measure. The predicted score formula and expected score formula were corrected, and existing formulae and variable definitions originally defined in the LTCH QM User's Manual Version 3.1 were revised to reflect this corrected formula.

## LTCH QRP Table for Reporting Assessment-Based Measures and SPADES for the FY 2022 LTCH QRP APU

The Long-Term Care Hospital (LTCH) Quality Reporting Program (QRP) Table for Reporting Assessment-Based Measures and Standardized Patient Assessment Data Elements (SPADES) for the FY 2022 LTCH QRP Annual Payment Update (APU) is now available in the Downloads section on this webpage. This table indicates the LTCH CARE data elements the Centers for Medicare & Medicaid will use for FY 2022 LTCH QRP APU determinations.
