SNF Provider Preview Reports – Now Available

The Skilled Nursing Facility (SNF) Provider Preview Reports have been updated and are now available. These reports contain provider performance scores for quality

measures, which will be published on [Care Compare](#) and [Provider Data Catalog \(PDC\)](#) during the **October 2023** refresh.

The data contained within the Preview Reports are based on quality assessment data submitted by SNFs from **Quarter 1, 2022 through Quarter 4, 2022**. Additionally, the Centers for Disease Control and Prevention (CDC) COVID-19 Vaccination Coverage among Healthcare Personnel (HCP) measure reflects data from **Quarter 4, 2022**. The data for the claims-based measures will display data from **Quarter 4, 2020 through Quarter 3, 2022** for this refresh, and for the SNF Healthcare-Associated Infections (HAI) measure, from **Quarter 4, 2021 through Quarter 3, 2022**.

Providers have until **August 14, 2023** to review their performance data. Only updates/corrections to the underlying assessment data before the final data submission deadline will be reflected in the publicly reported data on Care Compare. If a provider updates assessment data after the final data submission deadline, the updated data will only be reflected in the Facility-Level Quality Measure (QM) report and Patient-Level QM report. Updates submitted after the final data submission deadline will not be reflected in the Provider Preview Reports or on the Care Compare website. However, providers can request Centers for Medicare & Medicaid Services (CMS) review of their data during the preview period if they believe the quality measure scores that are displayed within their Preview Reports are inaccurate.
