This MLN Matters Article is for organizations enrolled as Medicare Diabetes Prevention Program (MDPP) suppliers billing Medicare Administrative Contractors (MACs) for MDPP services provided to Medicare beneficiaries.

PROVIDER ACTION NEEDED

CR 12030 contains instructions for MACs and the Railroad Specialty MAC to update the MDPP Expanded Model payment rates for CY 2021. Make sure your billing staffs are aware of the update.

BACKGROUND

The MDPP Expanded Model is an expansion of the CMS Diabetes Prevention Program (DPP) model test, which was tested from 2012-2015 under the authority of section 1115A(b) of the Social Security Act (the Act). In March 2016, the Secretary of HHS determined the DPP model test met the criteria for expansion in duration and scope under the authority of Section 1115A(c) of the Act.

Following this determination, CMS expanded the model nationwide through the CY 2017 and 2018 Medicare Physician Fee Schedule (MPFS) final rules.

MDPP suppliers began enrolling in Medicare on January 1, 2018 and began furnishing MDPP services and billing Medicare for MDPP services on April 1, 2018. The MDPP Expanded Model is intended to prevent Medicare beneficiaries with an indication of prediabetes from developing diabetes. Prevention of diabetes among this high-risk group of Medicare beneficiaries is expected to result in significant cost savings to the Medicare program.

We established the CY 2018 MDPP payment rates in the CY 2018 MPFS final rule. This rule also stipulates that the MDPP performance payments and bridge payment will be adjusted each calendar year by the percent change in the Consumer Price Index for All Urban Consumers (CPI-U) (U.S. city average) for the 12-month period ending June 30th of the year preceding the update year. We calculate the percent change update based on the level of precision of the

index as published by the Bureau of Labor Statistics and applied based on one decimal place of precision. Payment rates will be in effect each year from January 1st through December 31st.

CMS intends to calculate the payment rates for each calendar year, based on the CPI-U; and instruct the MACs and the Railroad Specialty MAC to update the MDPP payment rates each year.

CR 12030 contains the MDPP Expanded Model payment rates for CY 2021. CMS calculates the CY 2021 MDPP payment rates for the 15 valid MDPP HCPCS G-codes based on the payment rates shown in the following table. These rates are in effect for dates of service January 1, 2021 through December 31, 2021.
