## 2 Summary of Quarterly Release Modifications

The modifications of the IOCE for the **October 2020, v21.3** release is summarized in the table below. Readers should also read through the entire document and note the highlighted sections, which also indicate changes from the prior release of the software. Some IOCE modifications in the update may be retroactively added to prior releases. If so, the retroactive date appears in the 'Effective Date' column.

Item #	Type	Effective Date	Edits Affected	Modification
1.	Logic	10/01/2020	<a href="#">24</a>	Modify the software to maintain 28 prior quarters (7 years) of programs in each release. Remove older versions with each release. The earliest date included for this release is 01/01/2014.
2.	Logic	<b>01/01/2014</b>		Implement the following bill types to be applicable to IOCE editing and logic processing under OPPS flag value "2" (Non-OPPS): 22x, 23x, 32x, 34x, 43x, 71x, 72x, 74x, 75x, 77x, 78x, 81x, 82x <a href="#">Please see the Edits by bill type tables to see what bill types are acceptable for the OPPS flag = 2 (Non-OPPS).</a>
3.	Logic	<b>01/01/2014</b>		Remove bill type 33x as a valid bill type within the IOCE versioning as it exceeds the 7 years' worth of programs contained in the current software. Bill Type 33x was officially deleted effective October 1, 2013.
4.	Logic	<b>01/01/2014</b>	<a href="#">13</a>	Remove edit 13 from the following bill types: 22x, 23x, 34x, 74x, 75x
5.	Logic	<b>01/01/2014</b>	<a href="#">8</a>	Apply edit 8 to FQHC Bill Type 77x
6.	Logic	10/01/2020		Discontinue the processing of Condition Code 65 for FQHC claims; all claims submitted with bill type 77x are processed under the FQHC PPS logic. See <a href="#">FQHC Processing Under FQHC PPS</a> for additional reference.
7.	Logic	<b>10/01/2019</b>	<a href="#">113</a>	Implement new edit 113 (Supplementary or additional code not allowed as principal diagnosis) to be returned if a diagnosis from the unacceptable principal diagnosis list is reported as the principal diagnosis on a claim. The unacceptable principal diagnosis list is defined by the Medicare Code Editor (MCE) but there are some exclusions to the MCE list due to current OPPS coding requirements and guidelines. Any diagnosis code flagged as being an exclusion to the Unacceptable Principal Diagnosis list will not return new edit 113. See the Data Table Report; Data_DX10 to reference the list of diagnosis codes applicable to the MCE Unacceptable principal diagnosis list and to reference the diagnosis codes that are exclusions due to current OPPS coding requirements.
8.	Logic	10/01/2020	<a href="#">1, 2, 3, 5, 86</a>	Update diagnosis code editing for validity, age, gender and manifestation based on the FY 2021 ICD-10-CM code revisions to the Medicare Code Editor (MCE).
9.	Logic	10/01/2020	<a href="#">29, 109</a>	Update the mental health diagnosis list and Code First diagnosis list based on the FY 2021 ICD-10-CM code revisions.
10.	Logic	10/01/2020	<a href="#">68</a>	Apply mid-quarter 68 (NCD) for HCPCS code(s): 99457: 03/01/2020 0202U: 05/20/2020 87426: 06/25/2020 0223U: 06/25/2020 0224U: 06/25/2020
11.	Logic	10/01/2020	<a href="#">110</a>	Apply mid-quarter edit 110 (Initial Marketing Date) for HCPCS code(s) Q5121: 07/06/2020 Q5112: 04/15/2020
12.	Documentation	10/01/2020		Restructured the Edits by Bill Type Tables to be consistent with edits returned under each bill type within the current versioning of the IOCE. All historic edits that have fallen out of the scope of current IOCE versioning can be referenced in previously published specifications or can be referred to in the <a href="#">Edit description and reason for generation table</a> . <a href="#">IOCE Edits Applied by OPPS Hospital Bill Type Table [OPPS Flag =1]</a> <a href="#">IOCE Edits Applied by Non-OPPS Hospital Bill Type Table [OPPS Flag =2]</a>
13.	Documentation	10/01/2020	<a href="#">10, 23, 24</a>	Edits 10,23, and 24 are IOCE program edits and are applicable to being returned for all bill types under the IOCE. To reflect this, these three edits are added to each bill type and bill type logic setting within the edits by bill type tables for both OPPS and Non-OPPS [OPPS flag 1 and 2].
14.	Documentation	10/01/2020		Updated the <a href="#">Home Health</a> and <a href="#">Hospice</a> Processing logic sections to separate them from each other and provide more detail on the current processing logic applicable to both bill types. No logic changes are being applied.
15.	Documentation	10/01/2020		Updated the <a href="#">Edit Description and Reason for Edit Generation Table</a> by shading and italicizing edits that have fallen out of scope of the most current version of the IOCE. Edits that are deactivated but still in scope of the versioning (7 years) are noted by shading only.

Item #	Type	Effective Date	Edits Affected	Modification
				Edits that are now applicable to both the OPPI and Non-OPPI flag setting due to the implementation of the specified bill types in item 2 are appropriately updated in the table.
