III. FUNDING:

For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

SUBJECT: April 2021 Update of the Ambulatory Surgical Center (ASC) Payment System

EFFECTIVE DATE: April 1, 2021

**Unless otherwise specified, the effective date is the date of service.*

IMPLEMENTATION DATE: April 5, 2021

I. GENERAL INFORMATION

A. Background: This recurring update notification describes changes to and billing instructions for various payment policies implemented in the April 2021 ASC payment system update. As appropriate, this notification also includes updates to the Healthcare Common Procedure Coding System (HCPCS).

Included in this transmittal are Calendar Year (CY) 2021 payment rates for separately payable procedures/services, drugs and biologicals, including descriptors for newly created Current Procedural Terminology (CPT) and Level II HCPCS codes. A revised January 2021 Ambulatory Surgical Center Fee Schedule (ASCFS) File, an April 2021 ASCFS File, an April 2021 Ambulatory Surgical Center Payment Indicator (ASC PI) File, and an April 2021 Ambulatory Surgical Center Drug File will be issued. An April 2021 ASC Code Pair file is not being issued in this transmittal.

B. Policy: 1. Change to the Long Descriptor for HCPCS Code Descriptor for C9761 Effective October 1, 2020

Effective October 1, 2020, the long descriptor for HCPCS code C9761 has changed to (Cystourethroscopy, with ureteroscopy and/or pyeloscopy, with lithotripsy, and ureteral catheterization for steerable vacuum aspiration of the kidney, collecting system, ureter, bladder, and urethra if applicable). Table 1, lists the old and new long descriptor and ASC payment indicator for the HCPCS code (see Attachment A: Policy Section Tables).

2. Therapeutic Intra-Vascular Ultrasound System (TIVUS™) for Pulmonary Artery Denervation in Patients with Pulmonary Arterial Hypertension

In the CY 2021 OPPS/ASC final rule that was published in the Federal Register on December 29, 2020, we stated that CPT code 0632T (*Percutaneous transcatheter ultrasound ablation of nerves innervating the pulmonary arteries, including right heart catheterization, pulmonary artery angiography, and all imaging guidance*), which was effective January 1, 2021, would be assigned to OPPS status indicator "E1" to indicate that the code is not payable by Medicare because the clinical trial associated with the code has not met Medicare's standards for coverage (85 FR 85975). This code was assigned to ASC payment indicator "X5" to indicate that the code is an unsafe surgical procedure in the ASC and is not payable by Medicare. We note that CPT code 0632T describes the surgical procedure associated with the TIVUS System.

The clinical study associated with the TIVUS System was approved by CMS for Medicare coverage on November 19, 2020, as a Category B IDE study. Based on the IDE approval, we are reassigning CPT code 0632T from ASC payment indicator "X5" to ASC payment indicator "J8" (Device-intensive procedure added to ASC list in CY 2008 or later; paid at adjusted rate), effective April 1, 2021. Table 2, lists the HCPCS code, long descriptor, short descriptor, and ASC payment indicator (see Attachment A: Policy Section Tables).

3. ASC Drugs and Biologicals

a. New HCPCS Codes and Dosage Descriptors for Certain Drugs and Biologicals Receiving Separate ASC Payment Effective January 1, 2021

A new HCPCS code has been created for reporting drugs and biologicals in the ASC setting, where there have not previously been specific codes available. HCPCS Q5122 will receive separate payment effective January 1, 2021. The HCPCS code, descriptors, ASC payment indicator, and the effective date is listed in Table 3 (see Attachment A: Policy Section Tables).

b. Newly Established HCPCS Codes for Drugs and Biologicals

Seven (7) new drug and biological HCPCS codes will be established effective April 1, 2021. Six are being established where other codes previously existed. One did not have a previously existing code. The old codes are deleted effective March 31, 2021. The HCPCS codes, deleted codes, descriptors, and ASC payment indicators are listed in Table 4 (see Attachment A: Policy Section Tables).

c. Drugs and Biologicals with Payments Based on Average Sales Price (ASP)

For CY 2021, payment for nonpass-through drugs and biologicals continues to be made at a single rate of ASP + 6 percent, which provides payment for both the acquisition cost and pharmacy overhead costs associated with the drug or biological. In addition, in CY 2021, a single payment of ASP + 6 percent continues to be made for the Outpatient Prospective Payment System (OPPS) pass-through drugs and biologicals to provide payment for both the acquisition cost and pharmacy overhead costs of these pass-through items. Payments for drugs and biologicals based on ASPs will be updated on a quarterly basis as later quarter ASP submissions become available. Updated payment rates effective April 1, 2021, can be found in the April 2021 update of ASC Addendum BB on the CMS website at: https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ASCPayment/11_Addenda_Updates.html

d. Drugs and Biologicals Based on ASP Methodology with Restated Payment Rates

Some drugs and biologicals with payment rates based on the ASP methodology may have their payment rates corrected retroactively. These retroactive corrections typically occur on a quarterly basis. The list of drugs and biologicals with corrected payment rates will be accessible on the CMS website on the first date of the quarter at <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ASCPayment/ASC-Restated-Payment-Rates.html>

Suppliers who think they may have received an incorrect payment for drugs and biologicals impacted by these corrections may request contractor adjustment of the previously processed claims.

4. CY2021 ASC Wage Index

In the CY2021 OPPS/ASC final rule with comment period, we informed readers that generally, the Office of Management and Budget (OMB) issues major revisions to statistical areas every 10 years, based on the results of the decennial census.

For CY 2021, the CY 2021 ASC wage indexes fully reflect the OMB labor market area delineations (including the revisions to the OMB labor market delineations discussed above, as set forth in OMB Bulletin Nos. 15–01 and 17–01). We note that, in certain instances, there might be urban or rural areas for which there is no IPPS

hospital that has wage index data that could be used to set the wage index for that area. For these areas, our policy has been to use the average of the wage indexes for CBSAs (or metropolitan divisions as applicable) that are contiguous to the area that has no wage index (where “contiguous” is defined as sharing a border). Please refer to page 86175 of the CY2021 OPPS/ASC final rule for more details.

OMB Bulletins No. 18–03 and No. 18–04 made a number of changes that are relevant to the ASC wage index. Most notably, there are seven new CBSAs for CY 2021 that have replaced five CBSAs from CY 2020:

- CBSA 16974 Chicago-Naperville-Arlington Heights, IL is replaced by CBSA 16984 Chicago-Naperville-Evanston.
- CBSA 19830 Dayton, OH is replaced by CBSA 19430 Dayton-Kettering, OH.
- CBSA 20524 Dutchess County-Putnam County, NY is replaced by CBSA 39100 Poughkeepsie-Newburgh-Middletown, NY.
- CBSA 39140 Prescott, AZ is replaced by CBSA 39150 Prescott Valley-Prescott, AZ.
- CBSA 43524 Silver Spring-Frederick-Rockville, MD is replaced by CBSA 23224 Frederick-Gaithersburg-Rockville, MD.
- CBSA 49500 Yauco, PR is a new CBSA created from four counties within CBSA 38660 Ponce, PR. The four counties that comprise CBSA 49500 Yauco, PR include: (FIPS county code 72055) Guanica, (FIPS county code 72059) Guayanilla, (FIPS county code 72111) Penuelas, and (FIPS county code 72055) Yauco.
- CBSA 35154 New Brunswick-Lakewood, NJ is a new CBSA created from three counties within CBSA 35614 New York-Jersey City-White Plains, NY and also from one county within CBSA 35084 Newark, NJ-PA. The four NJ counties that comprise CBSA 35154 New Brunswick-Lakewood, NJ include: (FIPS county code 34023) Middlesex, (FIPS county code 34025) Monmouth, (FIPS county code 34029) Ocean, and (FIPS county code 34035) Somerset.

Additionally, 106 counties were delineated into a different CBSA for CY 2021 and a number of CBSAs have revised names for CY 2021. A comprehensive list of all county-to-CBSA delineations, including the final changes described above, for CY 2021 are included in Attachment B.

These updates were not included as part of the January 2021 ASCFS. However, the CBSA wage value changes associated with the above updates were implemented effective January 1, 2021 by crosswalking the new geographical area wage values to the existing CY2020 CBSA assignments. The associated CBSA numerical assignment changes were not updated with the wage value changes. PECOS shall update the supplier records impacted by the one-to-one and many-to-one associated CBSA assignments in the Attachment B crosswalk. MACs shall update the supplier records impacted by the one-to-many CBSA assignments in the Attachment B crosswalk. MACs shall ensure that their systems and supplier records reflect the correct CBSAs to implement the changes effective January 1, 2021.

Suppliers who think that their payments may not have had the correct wage value change applied, may request contractor adjustment of the previously processed claims.

5. Coverage Determinations

The fact that a drug, device, procedure or service is assigned a HCPCS code and a payment rate under the ASC payment system does not imply coverage by the Medicare program, but indicates only how the product, procedure, or service may be paid if covered by the program. Medicare Administrative Contractors (MACs)

determine whether a drug, device, procedure, or other service meets all program requirements for coverage. For example, MACs determine that it is reasonable and necessary to treat the beneficiary's condition and whether it is excluded from payment.
