I. GENERAL INFORMATION

A. Background: The purpose of this change request is to instruct the Multi-Carrier System (MCS) to update the applicable federal holiday schedule tables, to instruct the Part A and Home Health and Hospice Medicare Administrative Contractors (MACs) to manually update the federal holiday schedule tables in the Fiscal Intermediary Shared System (FISS), and to instruct the DME MACs to manually update the federal holiday schedule tables in the ViPS Medicare Systems (VMS) on an annual basis. The federal holiday schedule table is used in generating reports for the prior authorization and pre-claim review programs.

The goal of prior authorization and pre-claim review is to reduce unnecessary utilization and aberrant billing. CMS expects that the prior authorization and pre-claim review processes will ensure that Medicare coverage and documentation requirements are likely met before the item or service is rendered and a claim is submitted.

B. Policy: There are no legislative, statutory, or regulatory impacts associated with this CR.
