**SUBJECT: New Fiscal Intermediary Shared System (FISS) Consistency Edit to Validate Attending Physician National Provider Identifier (NPI) - Phase 2**

**EFFECTIVE DATE: April 1, 2023**

*\*Unless otherwise specified, the effective date is the date of service.*

**IMPLEMENTATION DATE: January 2, 2024**

## I. GENERAL INFORMATION

**A. Background:** An Attending Provider is the individual who has overall responsibility for the patient's medical care and treatment reported on institutional claims. Organizational NPIs cannot be used in place of individual NPIs, unless conditions for exception are met.

**B. Policy:** Institutional providers are required to indicate the Attending Provider Name and Identifiers for the patient's medical care and treatment reported on institutional claims for any services other than nonscheduled transportation claims. Additionally, institutional providers are required on outpatient claims to send the Referring Provider NPI and name when the Referring Provider for the services is different than the Attending Provider.

Effective for claims received on or after April 1, 2023, shared system contractors shall install a consistency edit for institutional claims to ensure that the institutional provider has not used any other organizational NPI in the Attending Provider NPI Data Element. The billing provider NPI may be used in the Institutional billing of COVID-19, influenza and pneumococcal vaccinations and their administration as the only billed service on a claim or roster billing of influenza and pneumococcal vaccinations and their administrations, self-referred screening mammography as the only billed service on a claim, or where the provider only has a type-1 NPI as a physician/practitioner owned sole-proprietor as exceptions to this process.

### **80.3.2.2 - Consistency Edits for Institutional Claims**

*(Rev.12107; Issued:06-29-23; Effective: 04-01-23; Implementation: 01-02-24)*

In order to be processed correctly and promptly, a bill must be completed accurately. Medicare contractors processing institutional claims edit all Medicare required fields as shown below. If a bill fails these edits, contractors return it to the provider for correction. If bill data is edited online, the edits are included in the software. Depending upon special services billed, contractors may require additional edits.

The following instructions follow the format of Form CMS-1450. For instructions about the location of these data elements on the ASC X12 837 institutional claim transaction format see the related implementation guide.
