CMS Manual System	Department of Health & Human Services (DHHS)					
Pub 100-20 One-Time Notification	Centers for Medicare & Medicaid Services (CMS)					
Transmittal 2418	<b>Date: January 15, 2020</b>					
	Change Request 11473					

Transmittal 2395, dated November 15, 2019, is being rescinded and replaced by Transmittal 2418, dated, January 15, 2020, to revise certain elements of the eMDR Pre-Pay Data Elements and the eMDR Document Codes attachments and to include the A/B MACs Part A and HHH on business requirement 11473.1. All other information remains the same.

SUBJECT: Implementation to Accept Document Codes and Include Appropriate Document Code(s) in the Pre-Pay Electronic Medical Documentation Requests (eMDR) to Participating Providers, via the Electronic Submission of Medical Documentation (esMD) System

**I. SUMMARY OF CHANGES:** CR 11003 implemented the changes required to receive and process the registered provider file, which contains the latest status of the providers who have registered to receive eMDRs. This was the first step required to exchange eMDR letters to registered Providers via the esMD system. The second step occurred via CR 11141, which implemented the changes to receive and process the Pre-Pay eMDR via esMD. As the next step of the eMDR implementation process, "Document Codes" are required to be populated with each eMDR.

#### **EFFECTIVE DATE: July 1, 2020**

\*Unless otherwise specified, the effective date is the date of service.

IMPLEMENTATION DATE: April 6, 2020 - Analysis, Design and Coding; July 6, 2020 - Coding, Testing and Implementation

Disclaimer for manual changes only: The revision date and transmittal number apply only to red italicized material. Any other material was previously published and remains unchanged. However, if this revision contains a table of contents, you will receive the new/revised information only, and not the entire table of contents.

**II. CHANGES IN MANUAL INSTRUCTIONS:** (N/A if manual is not updated) R=REVISED, N=NEW, D=DELETED-*Only One Per Row*.

#### III. FUNDING:

#### For Medicare Administrative Contractors (MACs):

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

R	Change Requested	Explanation	Date
11141	Update the Length of the Unique Letter id to 30.	GDIT in their <b>POC1</b> Comment requested to update the length to 30.  Action performed: - Length is updated to 40 to accommodate any future changes. Due to this change the total length has been updated.  GDIT in their <b>POC1</b> Comment requested to update the 'Description' of the 'Batch Cycle Date' to reflect only date.	1//11/2019
11141	Update the description of 'Batch Cycle Date'	Action Performed :- Description has been updated to mention only the date. Time variant has been removed from this data element.  GDIT in their POC2 comments requested the change.	1//11/2019
11141	Update the 'Comments' Column ('I') of the 'Unique Letter id' to say up to 40 characters.	Action Performed :- Column 'I' (Comments) has been updated to mention only the date. Time variant has been removed from this data element.	01/23/2019
11139	Updated the length of the Document Code element	Based on the analysis call discussions a maximum of 20 document codes can be accommodated in the 'Documents Code' element. As the length of the document code is 24 numerics, to allow 20 document codes this element shall have a length of 480. During the analysis calls it was stated by MCS that they allow 53 messages per ADR. To accommodate all the 53 messages into eMDR the layout now has 53 'Document Code	03/04/2019
	Add 3 more Document Code Request blocks. Change the format of the 'Respond by' and 'Letter	Request' blocks.  To be consistent across the layout the format of the 'Respond By' and 'Letter Date'	03/06/2019
11139	Date' field	elements have been updated as 'mm/dd/yyyy'	03/06/2019
11139	Miscellaneous	Based on the analysis call discussions row 50 in the 'eMDR Data Construct' tab has been updated to be referred as 'Analysis Factor'. Description and the Comments column of the 'Analysis Factor' is also updated to reflect the latest information. FISS, during their development cycle pointed out, that the existing comment in the tab 'Header- Trailer DC to esMD' for the element 'Total Number of Records' is contradicting with the BR language stated in 11141.1.1.2 (Notes).	03/11/2019
11141	'Comments' column for the data element 'Total Number of Records' needs a change.	Actual comment 'Must be present with a value greater than ZERO' Updated Comment 'Values allowed are 0 to 9999999' MCS during the correction review period, pointed out that CMS shall update the 'Documents Requested' section (tab 'eMDR Data Construct') to mention "This section is for future use and spaces are expected at this time".	05/27/2019
		Updated the column 'I' ("Comments / Rules") rule (Row number 49)	
11141	Comments/ Rules column of the 'Documents Requested' section requires the guidelines.	Rules: This section is reserved for future use. All the fields in this section shall be sent as spaces to esMD.  In the following rows the Stricken out content has been modified / removed.	06/11/2019
		Row 24 Column B (ID / Section) , the content of this column has been modified as 'Provider details (Billing Provider)' Column D (Description), the contents of this column has been modified as 'Provider to whom the intended eMDR is to be delivered 'Addressed To'	
		Row 25 Column D (associated to Data Element - First Name), the description has been modified as 'First Name of the Billing Provider'.	
		Row 26 Column D (associated to Data Element - Middle Name), the description has been modified as 'Middle Name of the Billing Provider'.	
	SSM pointed out that 'Provider Details' section (rows 24 to 32) shall remove the reference of the word 'Billing'. This Section shall have the details of the provider to whom the eMDR is 'Addressed To'. OTS requested to update the correct S.No. on the spreadsheet.	Row 34 Column D (associated to Data Element - Provider NPI), the description has been modified as 'NPI of the eMDR Registered Billing Provider'. Column 'A' of the tab 'eMDR Data Construct' is updated to reflect the correct sequential numbers. Column 'H' ('Usage Required') of the 'eMDR Data Construct' tab has been modified to make the Document Requested section Mandatory.	07/08/2019 07/15/2019
		'Analysis Factor' and 'Document codes' field has been made mandatory.  Each subsequent block is made situational, to accommodate multiple documents to be requested per ADR letter.	
		Date(s) of Service at the 'Claim Details/ Header' is mandatory.	
11473	Document codes are being made mandatory from the April 2020 release	Document Code Request Block 2 to 53 are made situational. Situation being, if the documents requested are for multiple analysis factors then SSM shall use the block 2 to 53 to cater the need.	08/20/2019

	For the elements	
eMDR testing for the CR 11141 requires the workbook to be updated with minor changes.	Column 'I' (Comments / Rules) has been updated with rule stating 'Can be filled with SPACES if the element is not available'	
These recommendations will be taken up in a 11473 future release	Column 'J' (Justification / Fillers in SSM / DC flat file to esMD) has been updated as 'Left justified, space padded'	<del>12/16/2019</del>
eMDR testing for the CR 11141 requires the 11473 workbook to be updated with minor changes.	For the element 'Beneficiary Id', reference of HICN has been removed from the 'Type / Format / Values ' column.	12/16/2019
	For the element 'Type Of Bill'	
	Column 'E' (Type / Format / Values ) has been updated the 'Type as Character' (Stricken- Out the reference of numerics).	
eMDR testing for the CR 11141 requires theworkbook to be updated with minor changes.	Column '!' (Comments / Rules) has been stricken Out the mention of 'Must be 3 numeric, when populated '	
These recommendations will be taken up in a 11473 future release  eMDR testing for the CR 11141 requires the	Column 'J' (Justification / Fillers in SSM / DC flat file to esMD) has been updated as 'Left justified, space padded' In the 'Documents Requested' Section Column 'I' (Comments / Rules) following verbiage has been Stricken Out 'Rules: This section is reserved for future use. All the fields in this	<del>12/16/2019</del>
11473 workbook to be updated with minor changes.	section shall be sent as spaces to esMD.'	12/16/2019
eMDR testing for the CR 11141 requires the workbook to be updated with minor changes.	In the 'Document Code Request Block' section for the 'Date(s) of Service' element following rule has been Stricken Out (Column 'I' (Comments / Rules) ) '3. When-	
These recommendations will be taken up in a 11473 future release	populated as a range, the starting date in the range of dates, must be earlier to the end- range of the date.'	<del>12/16/2019</del>
eMDR testing for the CR 11141 requires the workbook to be updated with minor changes.	For the element 'Document Codes' and 'Patient Control Number'	
These recommendations will be taken up in a 11473 future release	Column 'E' (Type / Format / Values ) has been updated the 'Type as Character' (Stricken-Out the reference of Alphanumeric).	12/19/2019

**One Time Notification** 

# **Attachment - One-Time Notification**

Pub. 100-20 | Transmittal: 2418 | Date: January 15, 2020 | Change Request: 11473

Transmittal 2395, dated November 15, 2019, is being rescinded and replaced by Transmittal 2418, dated, January 15, 2020 to revise certain elements of the eMDR Pre-Pay Data Elements and the eMDR Document Codes attachments and to include the A/B MACs Part A and HHH on business requirement 11473.1. All other information remains the same.

SUBJECT: Implementation to Accept Document Codes and Include Appropriate Document Code(s) in the Pre-Pay Electronic Medical Documentation Requests (eMDR) to Participating Providers, via the Electronic Submission of Medical Documentation (esMD) System

**EFFECTIVE DATE: July 1, 2020** 

\*Unless otherwise specified, the effective date is the date of service.

IMPLEMENTATION DATE: April 6, 2020 - Analysis, Design and Coding; July 6, 2020 - Coding, Testing and Implementation

#### I. GENERAL INFORMATION

**A. Background:** There have been several requests from Medicare providers to the Centers for Medicare & Medicaid Services (CMS) to enable the functionality to send Additional Documentation Request (ADR) letters electronically. CMS implemented a pilot supporting the electronic version of the ADR letter known as Electronic Medical Documentation Request (eMDR) via the Electronic Submission of Medical Documentation (esMD) system. Since the eMDRs may contain Protected Health Information (PHI) data being sent to the prospective provider, a valid consent is required from the authorized individual representing the provider along with the destination details including any delegation to their associated or representing organizations such as Health Information Handlers (HIHs). The sender will have to complete the required identity proofing and always make sure to check for any registration updates before sending out each eMDR. With the implementation of this CR, automation of eMDR registration and any corresponding updates will be done with esMD support.

CMS is requiring its review contractors to support sending ADR letters (**for Medical and Non-Medical Review related**) electronically as eMDRs. This eMDR functionality is expected to be implemented for distribution via the esMD system, by the January 2020 release.

For the next steps of improvement, "Document Codes" are required to be populated with each eMDR.

#### This CR will:

- Formulate the process to come up with
  - The final list of document codes that will be used for the purpose of populating into the Pre Pay eMDR letter record, after it has been finalized by the workgroup.
  - Rules to populate the document codes by each of the 'Shared System Maintainers (SSM)'.

# **Terminology:**

Document Code: Represents the document to be requested from the Provider, in a codified form. A
list of Standardized Document Codes will be sent to all the Review Contractors who intend to
participate in Pre Pay eMDR initiative, on a quarterly basis. The Document Codes and associated
descriptions will be shared with the provider community by publishing the information on the CMS
website.

Note: All terminology definitions and assumptions stated in CR 11141, remain the same.

**B. Policy:** The Administrative Simplification provisions of Health Insurance Portability and Accountability Act (HIPAA) require the Secretary of the Department of Health and Human Services (HHS) to follow the Security standards general rules as in § 164.306(a) and § 164.306(b) in order to protect the secure exchange of PHI/PII sensitive information electronically. The Administrative Simplification provisions of Health Insurance Portability and Accountability Act (HIPAA) require the Secretary of the Department of Health and Human Services (HHS) to follow the Security standards general rules as in § 164.306(a) and § 164.306(b) in order to protect the secure exchange of PHI/PII sensitive information electronically.

# II. BUSINESS REQUIREMENTS TABLE

"Shall" denotes a mandatory requirement, and "should" denotes an optional requirement.

#### VI. FUNDING

# **Section A: For Medicare Administrative Contractors (MACs):**

The Medicare Administrative Contractor is hereby advised that this constitutes technical direction as defined in your contract. CMS does not construe this as a change to the MAC Statement of Work. The contractor is not obligated to incur costs in excess of the amounts allotted in your contract unless and until specifically authorized by the Contracting Officer. If the contractor considers anything provided, as described above, to be outside the current scope of work, the contractor shall withhold performance on the part(s) in question and immediately notify the Contracting Officer, in writing or by e-mail, and request formal directions regarding continued performance requirements.

**ATTACHMENTS: 5** 

CR	Change Requested	Explanation/Purpose
11474	All Post Pay RCs	In the tab (esMD to DC-RC - Docu Codes ), the cell 1 A, has been updated.
		To indicate that the Post Pay RCs are exptected to receive, process, and send an acknowledgement file, back to esMD.
EIC of 11473 and 11474	SSM - MCS	Action Status element location has been moved up in the layout, as requested.
EIC of 11473 and 11474		In the tab (esMD to DC-RC - Docu Codes), the cell 18 C, has been updated.
		The Action Date field format has been changed, from MM-DD-YYYY to CCYYMMDD.
EIC of 11473 and 11474		The length has been adjusted for the Starting position, and the number of <i>Filler</i> bytes in 19 D, and E.  In the tab ( <i>Header-Trailer DC to esMD Ack</i> ), the cell 15 F, has been updated.
LIC 01 11473 and 11474		in the tab (Nedder-Trainer De to Estato New ), the cent 15 1, has been appeared.
FIC of 11472 and 11474		The statement mentioning the situational condition for the Error Code 222, has been added.
EIC of 11473 and 11474		In the tab ( <i>Header-Trailer DC to esMD Ack</i> ), the cell 16 F, has been updated.
		The statement mentioning the situational condition for the Error Code 222, has been added.
EIC of 11473 and 11474	STC	In the tab (esMD to DC-RC - Docu Codes), the cell 18 F, has been updated.
		A conditional statement on the <i>Action Date</i> has been added, indicating it cannot be a future date.
EIC of 11473 and 11474	esMD	In the tab ( <i>Header-Trailer DC to esMD Ack</i> ), the cell 12F, has been updated.
		The sentence in the middle paragraph has been modified to state that count should match the 'Number of error records in the file'.
EIC of 11473 and 11474	esMD	In the tab (Header-Trailer DC to esMD Ack), the cell 1A, has been added.
		A general statement has been added to indicate that the <b>Post Pay RCs</b> do need to respond back to esMD, with an Acknowledgement File.
For 11473 and 11474	SSM - MCS	MCS Identified that the Starting Position on the element 'File Status', in the tab named 'Header-Trailer DC to esMD Ack', was incorrect. The correction suggested is required.
		In the mentioned TAB, Please consider the Column D as the apppropriate one, for your development/testing purposes.
		Though Column E is incorrect, it is just kept, but, stricken out, for your reference purposes only.
For 11473 and 11474	SSM - VMS	VMS Identified that the Values/Formats, and associated Comments, in the tab named 'Header-Trailer DC to esMD Ack', was incorrect. The corrections suggested are required.
		Row 18, Column G: The description against Error Value 513, has been corrected to say 'Action Date is missing, OR, invalid value'.
		Row 19, Column C:
		The <i>Error Value 511</i> , has been stricken out.
		The <i>Error Value 513</i> , has been added.
		Row 19, Column G:
		The description against <i>Error Value 511</i> , has been stricken out.  The description against <i>Error Value 513</i> , has been corrected to say 'Action Date is missing, OR, invalid value'.
		, , , , , , , , , , , , , , , , , , , ,
		Row 20, Column G: The description against Error Value 513, has been corrected to say 'Action Date is missing, OR, invalid value'.

Filler	R	Spaces	24	1012	To fill out the full record length in the Header Record.  The record length of the Detail Body for this file is 1035.	
				1035		

Detailed Body					Body shall have same number of Document Code records as indicated in the Trailer.	
Description	Usage Reg.	Values	Starting position	Length	Comments	Justification / Fillers in esMD to SSM / DC flat file
					Represents the Type of Record. (esMD to Datacenter/ RC - Detail record)	
Record Type Indicator	R	V'	1	1		
Record Number	R	Number	2	7	Represents the sequence number of the record, in the Document Codes file.	Right justified, zero padded
Action Status	R	A, U, M, E	9		Represents whether the said document code is just added, remains as is from the previous iteration, updated, or, expired.  Values: A - Code got Added (continue to use); U - Code remains Unchanged (continue to use); M - Code got Modified (continue to use); E - Code got Expired (discontinue the use)	
Document Code	R	Number	10	6	Standard Code representing the Document	
Document Description	R	Character	16	1000	The long description of the document which is getting requested	Left justified, space padded
Action Date	R	CCYYMMDD	1016	8	Date of Change of the current Action Status.  Note: The value for this Date cannot be a future date.	
Filler	R	Spaces	1024	12	Filler to enable possible future expansion	
				1035	Total length of the Detail Body record	

Trailer						
Description	Usage Reg.	Values / Formats	Starting position	Length	Comments	Justification / Fillers in esMD to SSM / DC / RC flat file
					Represents the Type of Record. (esMD to Datacenter/ RC - Trailer record)	
Record Type Indicator	R	W'	1	1		
Total Number of Records	R	Number	2	7	The number of Document Codes in the file, sent from esMD to DC / RC.	Right justified, zero padded
Filler	R	Spaces	9	1027	To fill out the full record length in the Trailer Record.  The record length of the Detail Body for this file is 1028.	
	•			1035		

Details of the elements for the Header , Detailed body and Trailer while sending the Acknowledgement file (for the Document							
Codes file) from Datacenter to esMD.							
Data Centers are expected to receive, process, and send the Acknowledgement, back to esMD.							
RCs (Post Pay) are expected to receive, process, and send the Acknowledgement, back to esMD.							
HEADER							
Description	Usage Reg. R - Required S - Situationally required	Values / Formats	CORRECT STARTING POSITION	Starting position	Length	Comments	Justification / Fillers in SSM / DC flat file to esMD
						Represents the Type of Record. (Datacenter to esMD - Header record)	
Record Type Indicator	R	X'	1	4	1	Indicates the Date/Time when the esMD batch cycle ran to generate the Document Code file	
esMD Processing Batch Cycle Date	R	CCYYMMDDHHMMSS	2	2	14	information.  Return the value in the corresponding Acknowledgement/Error file sent to esMD	
DC Batch Cycle Date	R	CCYYMMDDHHMMSS	16	16	14	Date/time the Document Codes batch file was processed by the Data Center.	
Type of Transactions	R	DOCUCODE,	30	30	8	Type of Records in this file.	
						Values:	
File Status	R	A, R	38	37	1	A - File Accepted => (None of the records encountered any edit error(s)) R - File Rejected => (Atleast one error was encountered in any of the records in the file)	
Filler	R	SPACES	39 46	38	8	To fill out the full record length for this file The record length of the detail body for this file is 46.	
			46		46	Detailed Body record needs to be populated, only when the processing encounters at least ONE error, across the file.	
						Detailed Body shall have same number of records as indicated in the Trailer record	
						element 'Number of error records in the file'.  If there are no editing errors across the file, then, the Acknowledgement File shall	
Detailed Body						contain only two records (Header and Trailer), to esMD.	
Description	Usage Reg.	Values	CORRECT STARTING POSITION	Starting-	Length	Comments	Justification / Fillers in SSM / DC flat file to esMD
	22252.025					Represents the Type of Record. (Datacenter to esMD - Detailed Body record)	
Record Type Indicator	s	Y	1		1	This element shall be populated if there is at least 1 error to be reported.	
Trecord Type Indicates				·		Represents the actual sequence/record number as read by the process, while reading the input.	
Record Number	s	Number	2	2	7	Populate SEVEN ZEROS, when there is a mismatch in the total number of records mentioned in the Trailer and Total number of Records. (error code - 222)	
Record Number	3	Number	2	-	,	Represents the Document Code	
						Populate the Document Code read in the input record.	
Document Code	s	Number	9	9	6	Populate SIX ZEROS, when the Document Code is missing or invalid. (error code - 510, 222)  The First error identified in the record, is to be populated in this element	
		510, 511,				510 - Document Code is missing, OR, of invalid length, 511 - Document Description is missing,	
Error Code 1	S	512, 513	15	14	3	512 - Action Status is missing, OR, invalid value 513 - Action Date is missing, OR, invalid value	
						The Second error identified in the record, is to be populated in this element.  511 - Document Description is mission.	
		511, 512,				511 - Document Description is missing. 512 - Action Status is missing, OR, invalid value 513 - Action Date <del>Status</del> is missing, OR, invalid value	
Error Code 2	s	513	18	47	3	Note: If there is no Second error encountered for this given record, <i>populate 3 SPACES</i> .	
		511				The Third error identified in the record, is to be populated in this element.	
		512, 513,				611 - Decument Description is missing. 512 - Action Status is missing, OR, invalid value 513 - Action Date is missing, OR, invalid value	
Error Code 3	s		21	20	3	Note: If there is no Third error encountered for this given record, populate 3 SPACES.	
End Oute 3	,		21			The Fourth error identified in the record, is to be populated in this element	
		513				513 - Action Date <del>Status</del> is missing, OR, invalid value	
Error Code 4	s		24	23	3	Note: If there is no Fourth error encountered for this given record, populate 3 SPACES.

#### July 2020 Release

# <u>Criteria Required to Generate Test Files from SSMs/VDCs/MACs to esMD for CR 31436 (eChimp CR 11473)</u>

\*\*\*esMD UAT Starts at the beginning of June 2020 \*\*\*

# Testing support call schedule and expected attendees:

DPSM esMD Team would need to set up (up to) **3 calls**, starting in the month of **April 2020** to collaborate on the content of the **Test Files/Test scenarios**. The goal of these calls it to ensure that the SSMs/VDCs/MACs/STC to discuss about any **technical questions in regard to populating the Document Codes in Pre-Pay eMDR**.

April to Mid-May : up to 2 Technical Support Calls (SSMs/VDCs/MACs)

April : 1 STC Test Preparation Call (STC/SSMs/VDCs and esMD teams)

#### Note:

The Technical Support Call will be organized, by the esMD technical teams, to address any **technical clarifications** related to RC Client API / file exchanges procedures.

During subsequent call, esMD would wish to ensure/provide the following, regarding the Pre-Pay eMDR with document codes implementation.

- a. Test Provider NPIs to be used for UAT. esMD would take a decision in June on, whether to use the same set of NPIs that were used for testing during January 2020 release or the production ready NPIs. (Depending on the NPPES system refresh)
- b. Document Code set to be used for testing.
- c. esMD to provide UAT Test Plan to all the Participants.

# July 2020 Release SSMs, STCs, MACs Testing Plan:

Responsible parties are marked in each step of testing.

Test Criteria	Unit Test	STC Test	UAT Test
	Period	Period	Period
DCF creation and execution Step 1: esMD to send the Document Codes File (DCF) to VDCs. Step 2: Receive accept / reject notifications from VDCs. Step 3: Receiving helpdesk ticket in case of file level errors.	1 <sup>st</sup> 2 weeks of	1 <sup>st</sup> 2 weeks of	1 <sup>st</sup> 2 weeks of
	Unit testing	STC testing	UAT testing
	phase.	phase.	phase.
	(Starting April	(Starting May	(Starting June
	1 <sup>st</sup> 2020)	5 <sup>th</sup> 2020)	2 <sup>nd</sup> 2020)

Test Criteria (Refer to Figure 1 for eMDR Pre-Pay flow)	Unit Test Key Dates	STC Test Phase Key Dates	UAT Test Key Dates
eMDR Testing  Step 1: esMD to receive, process and acknowledge the files from VDCs.  Step 2: RCs to sends Zip File with ADRs in PDF format via RC Client API  Step 3: esMD to receive, process, and respond back to RC. (Ack or Error)  Step 4: Generate the Letter Package and Send it to HIH.	From 2 <sup>nd</sup> week onwards, until the Unit testing ends. (Starting April	From 2 <sup>nd</sup> week onwards, until the STC testing ends. (Starting May	Rest of the weeks2nd week onwards, until the UATUnit testing ends.
Step 5: Receiving, Processing Acknowledgement from HIH, for the delivery.	1 <sup>st</sup> 2020)	5 <sup>th</sup> 2020)	(Starting June 2 <sup>nd</sup> 2020)

Test Criteria (Refer to Figure 1 for eMDR Pre-Pay flow)	Unit Test Key Dates	STC Test Phase Key Dates	UAT Test Key Dates
eMDR Package delivery outcome from HIH.  Step 1: esMD receives eMDR delivery acknowledgement from HIH after esMD successfully sent the eMDR and ADR files to HIH. Step 2: esMD sends the success/failure delivery acknowledgement to RC's depending on whether esMD	From 2 <sup>nd</sup> week onwards, until the Unit testing ends. (Starting April 1 <sup>st</sup> 2020)	From 2 <sup>nd</sup> week onwards, until the STC testing ends. (Starting May 5 <sup>th</sup> 2020)	2nd week Rest of the week onwards, until the Unit testingUAT ends. (Starting June
successfully/failed delivering to HIH.			2 <sup>nd</sup> 2020)

# **SSM Unit Test POC details:**

1. POCs from esMD team: <u>DPSM\_esMD@cms.hhs.gov</u>; <u>esmddevgroup@religroupinc.com</u>

2. POCs from SSM team : SSM Teams' information needed

3. POCs from VDC team : Will.Braat@perspecta.com; Scott.Kennedy@perspecta.com

# **STC Test POC details:**

1. POCs from esMD team: TOSS Testing@actionet.com; DPSM esMD@cms.hhs.gov

; esmddevgroup@religroupinc.com

2. POCs from STC team : STCAdmin@dcca.com.

	Actual encounter note or progress note to support services billed	65
	All group psychotherapy notes including number of participants	66
	All progress reports since the initial evaluation	49
	Attendance/treatment records/dated therapy notes with the required information per LCD for	296
100212	this claim period, including dated therapy logs that identify each specific skilled modality	270
	provided, total treatment time, total timed codes treatment minutes and total time rendering	
	untimed modalities.	
100213	Breakdown of hours if nurse and aide visits combined are more than two times a day	82
	Caregiver Notes	15
	Diabetic lower extremity wounds-Wagner grade classification, diagnostic testing to support	148
	Wagner grade and documentation of prior failed treatment	1.0
	Discipline notes/summary for each visit	39
	Documentation to support beneficiary is being treated for a covered icd-10 diagnosis code that	
	meets 1 or more of the 15 approved medicare conditions listed in the medicare national	
	coverage determinations (NCD) manual section 20.29 (hyperbaric oxygen therapy).	
100218	Documentation as required in LCD or NCD	39
	For all therapy services rendered submit attendance/treatment records for the claim period -	179
	must include total treatment time and identify each specific skilled modality provided	
100220	Home Health Aid Visit Notes	27
100221	All documents needed to support Home Health services	53
	IDG reviews	11
100223	If nurse visits are daily or more, statement of endpoint when nurse visits are expected to	130
	decrease to less than seven days a week	
100224	Initial evaluation of all therapies	37
100225	Non-physician progress notes	28
100226	Nursing progress notes	22
100227	Initial nursing facility visit	31
100228	Subsequent Nursing Facility Visit	33
100229	All documents needed for a Nursing Home Review	46
	Occupational Therapy Visit Notes	32
	Physical Therapy Visit Notes	28
	Physician / NPP Progress notes (signed)	39
	Physician and PPP clinic/progress notes	40
	Physician clinic/progress/consultation notes	45
	Prior antibiotic therapy, wound care and surgical interventions	63
	Progress notes and documentation of DSMT services/group sessions	74
100237	Progress reports with the required elements per the local coverage determination to support	226
	medical necessity at least once every 10 treatment days. Submit progress notes from the start	
40000	of therapy through present claim period.	
100238	Progress reports written by the clinician-services related to progress reports are to be furnished	136
100000	on or before every 10th treatment day	120
100239	PT/OT/SLP – Initial evaluation, plan of care, progress reports, treatment encounter notes,	129
400010	discharge summary, therapy minute logs	2=
	Restorative Nursing Records	27
100241	Skin care / Wound care treatment records	40

100242	Social Worker Visit Notes	25
	Team Conference Notes	21
	Therapeutic activities program for patient	42
	Therapy progress notes that support services included in the therapy logs that show services,	339
	dates and minutes renders for the dates logs that show services, dates and minutes renders for	
	the dates of service being billed and the lookback period of the MDS(s). Do not send copy(s)	
	of MDS(s); however, they must be found in the repository	
100246	Treatment records	17
	Visit notes (nursing, social worker, chaplain, etc.)	52
	Wound therapy prior to HBO treatment	51
	E&M / Home Visits	17
	E&M / Prolonged Care	20
	E&M / Hospital Visits	21
	E&M / Office Visits	19
		27
	Office Visit with Injection	
	Diagnostic/Vasc studies Nutritional Assessment	24 22
	Hospital records	16
	Referral Order	14
	Documentation of presurgical conservative measures/treatments	61
	Recovery room record	20
	Surgical reports (if any)	70
	All ambulance records for the dates of services billed.	72
	Ambulance Run Sheet including Total Mileage documentation	57
	Medical justification for transport and/or transfer.	72
	Physician certification describing: medical necessity for ambulance.	68
	P9603 One Way Mileage	23
	Abbreviation key	16
	Beneficiary name and date of service on all documentation	57
	Coding query form	17
	Copy of ABN / NOMNC / HHABN	27
	Advance Beneficiary Notice	26

100525	Documentation indicating the beneficiary had a mastectomy; and,	63
100526	Justification to support the ICD-10 code billed; and,	53
100527	Diagnosis codes relating to the specific coverage criteria as indicated in the LCD with medical	139
	records to support the diagnosis code; and,	
100528	High utilization *Documentation from the treating physician's medical records containing the	831
	specific rationale justifying the additional quantities above the usual utilization guideline for	
	that particular patient; and,*Documentation to support the beneficiary had an in-person visit	
	with the treating physician within 6 months prior to the supplies being ordered, if initial order.	
	For ongoing provision (refills) there must be documentation of an in person visit with the	
	treating physician within 6 months prior to the date of service of each refill; and,*If refills of	
	quantities of supplies that exceed the utilization guidelines are dispensed, there must be	
	documentation in the physician's records that the patient is actually testing at a frequency that	
	corroborates the quantity of supplies that have been dispensed; and,	
100530		07
100529	Requires positioning of the body in ways not feasible with an ordinary bed to alleviate pain;	97
100530	Requires the head of the bed to be elevated more than 30 degrees most of the time due to	173
200000	congestive heart failure, chronic pulmonary disease or problems with aspiration; or,	1.5
100531	Requires traction equipment, which can only be attached to a hospital bed; and,	79
	Beds other than fixed height:	422
100002	*Requires a bed height different from a fixed height to permit transfers to chair,	
	wheelchair or standing position for a variable height hospital bed; or,	
	*Requires frequent changes in body position and/or has an immediate need for a change in	
	body position for a semi-electric hospital bed; and,	
	*Meets weight requirements for the equipment according to the LCD guidelines.	
100533	Medical records indicating:	233
200000	*The transplant date,	200
	*The facility where the transplant was performed; and,	
	*The corresponding diagnosis code; and,	
	*Justification the item continues to be used by the beneficiary.	
100534	Documentation to support the functional level modifier used; and,	65
	Documentation of home assessment and documentation addressing any issues that may impair	217
	the use of the wheelchair within the home such as the physical layout of the home, surfaces to	
	be traversed, and obstacles; and,	
	The patient's medical records that support the medical necessity which should include, but not	238
	be limited to, the functional level assessment, and physical examination of the body systems	
	responsible for patient's ambulatory difficulties;	
100537	Treating physician's and/or prosthetist's medical records that document the beneficiary's	256
	current functional capabilities and expected functional potential, the timeframe to reach and	
	maintain functional state, and the beneficiary's motivation to ambulate;	
100538	Documentation describing the history, previous treatment regimens, and current wound	139
	management for which a NPWT pump is being billed; and,	
100539	Documentation describing the wound evaluation and treatment recorded in the beneficiary's	186
	medical record, must indicate regular evaluation and treatment of the beneficiary's wounds;	
	and,	
100540	Documentation from the treating physician describing the initial condition of the wound	171
	(including measurements) and the efforts to address all aspects of wound care; and,	
100541	If using oral antiemetic drugs J8498 and/or J8597,	157
	*Documentation to support antiemetic drugs criteria as referenced in the LCD and Policy	
	Article; and,	
100542	Blood gas study results as defined by the LCD for each CMN; and,	64

100543	Patient's medical records to support:	559
100545	*The patient's condition meets LCD criteria; and,	33)
	*The treating physician's office visit and evaluations; and,	
	- 30 days prior to the initial certification; and,	
	- 90 days prior to the initial certification, and,	
	*Alternative treatment measures have been tried or considered; and,	
	*The item continues to remain reasonable and necessary (if applicable); and,	
	*The DMEPOS item continues to be used by the beneficiary - Either beneficiary medical	
	records or supplier records are sufficient; and,	157
	Treating physician must sign/co-sign the face-to-face clinical evaluation prior to the sleep test	157
	to assess the beneficiary for obstructive sleep apnea; and,	105
	Documentation of a sleep test that qualifies the beneficiary for use of PAP device per LCD	105
	criteria; and,	
	Documentation that supports device instruction was provided; and,	65
	Documentation of the ordering physician's in-person visit within 30 days prior to the initial	141
	certification or required recertification; and,	
	Documentation to support the medical justification for parenteral nutrition. Documentation	257
	may include (but is not limited to) operative reports, fecal fat test and date of the test, small	
	bowel motility study, serum albumin and date and x-ray reports; and,	
	Documentation to support the medical necessity of caloric intake outside the range of 20-35	107
	cal/kg/day; and	
100550	Documentation to support the medical necessity for protein order outside of the range of 0.8-	231
	1.5 gm/kg/day, dextrose concentration less than 10%, or lipid use greater than 1500 grams	
	(150 unit of service code B4185) per month; and,	
100551	Documentation of a sleep test that qualifies the beneficiary for use of PAP device per LCD	106
	criteria; and,	
100552	Re-evaluation documentation after 3-month trial:	251
	*Face-to-Face clinical re-evaluation by the physician on/after the 31st day of therapy; and,	
	*Objective evidence of adherence to use of the PAP device, reviewed by the treating	
	physician; and,	
100553	If for an E0470 device, documentation to support that an E0601 has been tried and proven	188
	ineffective based on a therapeutic trial conducted in either a facility or in a home setting; and,	
	•	
100554	Documentation to meet LCD criteria for concurrent use of oxygen therapy with PAP therapy;	95
100001	and,	
100555	Documentation to meet LCD criteria for beneficiaries entering Medicare; and,	76
	Face-to-face evaluation, completed prior to the physician's order; that supports the medical	643
	Home assessment indicating the power mobility device is able to access all rooms of the	98
	home; and,	
	Detailed product description (DPD) listing all items/options/upgrades; and,	7:
	For codes K0835-K0843; K0848-K0855; K0890-K0891; K0898:	430
	*The specialty wheelchair evaluation completed by the PT/OT or a physician trained in	
	rehabilitation wheelchair evaluations (must be signed and dated by the attending physician if	
	used as part of the face-to-face evaluation); and,	
	*Documentation to support the practitioner completing the specialty evaluation has no	
	financial relationship with the supplier; and,	
	For codes K0835-K0843; K0848-K0855; K0890-K0891; K0898:	328
100200	*Documentation that the wheelchair is provided by a supplier that employs a RESNA-	320
	certified Assistive; and,	
	*Technology Professional (ATP) who specializes in wheelchairs and who has direct, in-	
	person involvement in the wheelchair selection for that patient; and,	

	A complete facility-based, attended polysomnogram; and,	55
100502	Documentation to support the treating physician has fully documented in the patient's medical	274
	record symptoms characteristic of sleep-associated hypoventilation, such as daytime	
	hypersomnolence, excessive fatigue, morning headache, cognitive dysfunction, dyspnea, etc.;	
100563	and,	20
100563	Documentation to support the beneficiary has a clinical disorder group characterized as the	294
	following and also meets the LCD criteria for:	
	*Restrictive Thoracic Disorders; or,	
	*Severe COPD; or,	
	*Central Sleep Apnea or Complex Sleep Apnea; or,	
100564	*Hypoventilation Syndrome; and,	<b>50</b> °
100564	Documentation to support the beneficiary was re-evaluated to establish the medical necessity	582
	of continued coverage by Medicare beyond the first three months. While the patient may	
	certainly need to be evaluated at earlier intervals after this therapy is initiated, the re-	
	evaluation upon which Medicare will base a decision to continue coverage beyond this time	
	must occur no sooner than 61 days after initiating therapy by the treating physician. Medicare	
	will not continue coverage for the fourth and succeeding months of therapy until this re-	
100565	evaluation has been completed; and,	550
100505	Documentation in the patient's medical record about the progress of relevant symptoms and	550
	patient usage of the device up to that time. Failure of the patient to be consistently using the	
	E0470 or E0471 device for an average of 4 hours per 24-hour period by the time of the re-	
	evaluation (on or after 61 days after initiation of therapy) would represent non-compliant	
	utilization for the intended purposes and expectations of benefit of this therapy. This would	
	constitute reason for Medicare to deny continued coverage as not reasonable and necessary	
100566	Documentation obtained by the supplier of a signed and dated statement completed by the	40:
200200	treating physician no sooner than 61 days after initiating use of the device, declaring that the	
	patient is compliantly using the device (an average of 4 hours per 24-hour period) and that the	
	patient is benefiting from its use must be obtained by the supplier of the device for continued	
	coverage beyond three months

# CR XXX Process to Populate the Document codes by each SSM on their respective 'eMDR Letters Flat File'.

**August 11, 2019** 

## **Objective**

> Guidelines for the SSMs to populate their respective 'eMDR Letters Flat File'.

## **Background**

- > CR 11139 (October 2018 release) was introduced to do the analysis of the process.
- ➤ All the SSMs have agreed to follow a procedure to map and populate the document codes in their respective 'eMDR Letters Flat File'.

## **Document code concept**

Code	<b>Document Description</b>		
100001	100001 Interim verbal orders		
100033	Home Health Physician certifications and recertifications assessment		
100485	Nurses notes related to the administration of the medication.		
100004	Five Element Order signed and dated prior to delivery		
100028	Documentation to support continued medical need (if applicable)		
100007	Physician Order for skilled services provided, including PT/OT/SLP.		
900001	Special Document Request – Refer to Letter		

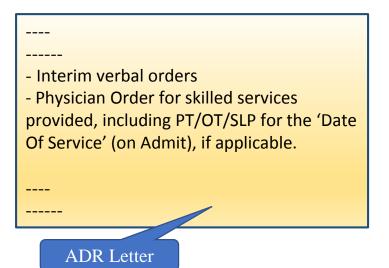

Code	Time-based Parameter Description
700003	Date of service-on admit
700004	Admit to discharge
•••	
900002	Special TIME-BASED parameter request –
900002	Refer to Letter

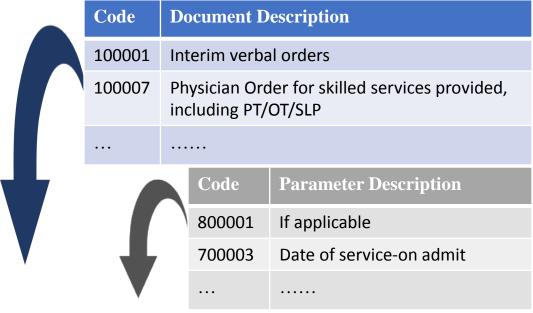

Code	Other Parameter Description
800001	If applicable
800004	Documentation as required in LCD or NCD
P  0  0	
900003	Special OTHER parameter request – Refer to Letter

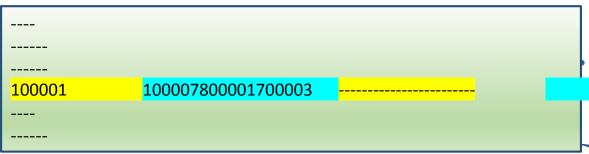

### **Document code concept**

Currently plan is to allow up to 3 ment parameters to be entered per document; i.e. up to 24 digits in length.

eMDR Letter Record

#### Requirements:-

- Each SSM shall map the document code to each document in their system.
- While generating the eMDR record to esMD, corresponding document codes shall be included as per the rules mentioned.

# Document code population for a Part A eMDR

Scenario: PART A MAC requests

- 10 documents -- Reason code1
- 25 documents -- Reason code2
- 42 documents Reason code3
- 5 documents Reason code4

**Final agreed Approach :-** Have 2 'Document Code Request Blocks' per Reason code limiting the documents requested to 40 per reason code. If there are less than 20 documents per reason code then use only 1 'Document Code Request Block'

In this option FISS can populate

- 1<sup>st</sup> Document request block with 10 documents with reason code1.
- 2<sup>nd</sup> Document request block with 20 documents with reason code2.
- 3<sup>rd</sup> Document request block with 5 documents of reason code2.
- 4<sup>th</sup> **Document request block** with 20 documents of reason code3.
- 5<sup>th</sup> Document request block with 19 documents of reason code3 and last code for 'See letter'.
- 6<sup>th</sup> **Document request block** with 5 documents of reason code4.

# Document code population for a Part A eMDR

	Claim Header Claim Id 123456  Date of Service 06/04/2018-09/10/2018 or 06/04/2018
	Document Request Block
PART A / HHH	Reason Code <1>
MACs and FISS	Date of Service Blank (Can be populated)
	Document codes <1><10>
	Reason Code <2>
	Date of Service Blank (Can be populated)
	Document codes <1><20>
	Reason Code <2>
	Date of Service Blank (Can be populated)
	Document codes <21><25>
	Reason Code <3>
	Date of Service Blank (Can be populated)
	Document codes <1><20>
	Reason Code <3>
	Date of Service Blank (Can be populated)
	Document codes <21><39> <code 'see="" for="" letter'=""></code>
	Reason Code <4>
	Date of Service Blank (Can be populated)
	Document codes <1><5>

# Document code population for a Part B eMDR

#### Scenario: PART B MAC requests

- 10 documents At the Claim level
- 25 documents Procedure 1
- 42 documents Procedure 2
- 5 documents Procedure3

MCS can populate only one specific way as they allow upto 53 messages on an ADR.

- 1st Document request block with 10 documents with Analysis Factor as 'CLAIM'.
- **2**<sup>nd</sup> **Document request block** with 19 documents with Procedure1 and last code will be for 'See Letter'.
- **3**<sup>rd</sup> **Document request block** with 19 documents with Procedure2 and last code will be for 'See Letter'.
- 4<sup>th</sup> **Document request block** with 5 documents of with Procedure3.

# Document code population for a Part B eMDR

	Claim Header		123456 <b>06/04/2018-09/10/2018</b> or <b>06/04/2018</b>
	Document Reque	est Block	
PART B MACs		Analysis Factor	CLAIM
and MCS		Date of Service	Blank (Can be populated)
		Document codes	<1><10>
		Procedure code	
			Blank (Can be populated)
			<1><19>>>Code for 'See letter'>
		Procedure code	
			Blank (Can be populated)
			<pre>&lt;&lt;1&gt;&lt;19&gt;&gt;<code 'see="" for="" letter'=""></code></pre>
		Reason Code	
			Blank (Can be populated)
		Document codes	<1><5>

# Document code population for a DME eMDR

Scenario: DME MAC requests

- 10 documents Procedure1
- 25 documents Procedure2
- 42 documents Procedure3
- 5 documents Procedure4

**Final Agreed approach** Populate the 'Document Code Request Block' according to the requested number of documents with no cap of 40 documents per Procedure code.

#### In this option VMS can populate

- 1<sup>st</sup> Document request block with 10 documents with Procedure Code1.
- **2**<sup>nd</sup> **Document request block** with 20 documents with Procedure Code2.
- 3<sup>rd</sup> Document request block with 5 documents with Procedure Code2.
- 4<sup>th</sup> Document request block with 20 documents of Procedure Code3.
- 5<sup>th</sup> Document request block with 20 documents of Procedure Code3.
- 6<sup>th</sup> Document request block with 2 documents of Procedure Code3.
- **7**<sup>th</sup> **Document request block** with 5 documents of Procedure Code4.
