

DFC Contingency Plan

Agency Operations in the Absence of Appropriations

As required by OMB Circular A-11 Sec 124

U.S. International Development Finance Corporation

Updated September 22, 2023

1. Introduction

The U.S. International Development Finance Corporation (DFC) has developed this contingency plan in accordance with Office of Management and Budget (OMB) Circular A-11 (2021), Section 124, and OMB memorandum M-13-22 (dated September 17, 2013). **The actions outlined in this plan would be initiated only in the event there is a lapse in appropriation. For the purposes of this plan, lapse of appropriations means both a lack of enacted appropriations law AND that DFC has exhausted its carryforward balances.** This plan applies to all personnel and contractors assigned to or performing services for DFC. This contingency document is provided for a short-term shutdown (1-5 days – A-11 [2021] 124.2). A long-term event will require further analysis and development.

As of September 22, 2023, DFC has sufficient carryforward balances to operate during a short-term lapse of appropriations. With limited exceptions, no furloughs or changes to operations will be required for any short- or medium-term lapse of appropriations. Seven detailed from other agencies would be subject to instructions from funding agency. DFC continues to update its budget projections and will update this plan accordingly.

While DFC has sufficient carryforward to maintain operations, DFC is developing plans to address interagency coordination, Congressional Notification process, and project approval activities.

2. Shutdown Contingency Overview

The DFC is pursuing a comprehensive approach for a potential shutdown in the event that we exhaust our carryforward balances, which includes identifying functions and programs for which there is a legal basis for exception, including those required by “necessary implication” and protection of life and property. The functions and programs were identified based on long-standing OMB and U.S. Department of Justice guidance, and the legal opinion of DFC’s Office of General Counsel (OGC). DFC’s OGC has reviewed this document to ensure compliance with these criteria.

As a result, DFC’s current projection is that approximately 47% of DFC employees would be required to perform excepted functions in the event that DFC should be impacted by a shutdown event. The number of employees to be retained under the plan meeting A-11, Section 124.2 criteria is 280, and the number of employees not otherwise exempt is 321.

DFC Lapse¹ Plan Summary Overview

| | |
|--|-----|
| Estimated time (to nearest half day) required to complete shutdown activities: | 1 |
| Total number of agency employees expected to be on board before implementation of the plan: | 601 |
| Total number of employees to be retained under the plan for each of the following categories (may include duplicated counts): | |
| Compensation is financed by a resource other than annual appropriations: | 6 |
| Necessary to perform activities expressly authorized by law: | 1 |
| Necessary to perform activities necessarily implied by law: | 204 |
| Necessary to the discharge of the President’s constitutional duties and powers: | 0 |
| Necessary to protect life and property: | 81 |

Brief summary of significant agency activities that will continue during a lapse:

Honoring insurance (mandatory) and financing contracts. Failure to honor these DFC obligations would severely jeopardize the DFC’s mission and activities as necessarily implied by law.

Safeguard the existing portfolio of contractual obligations to fund disbursements, providing consents, making payments under guaranties, insurance contracts and any other contracts with providers of goods and services, insurance premiums and loan repayments, except when DFC’s operations are dependent upon other government agencies severely affected by such a shutdown.

Protect life and property and ensure security of IT systems data.

Brief summary of significant agency activities that will cease during a lapse:

Committing support, sourcing new non-core mission business, recruiting, staffing, training, non-emergency procurement.

3. Orderly Shutdown

The Office of Human Resources Management (OHRM) will notify DFC employees regarding their status as excepted or non-excepted from a lapse in appropriation furlough. HRM will also provide guidance for orderly shutdown activities, including messaging to external stakeholders and securing of Government Furnished Equipment (GFE). Appropriate operations notifications

¹ For the purpose of this plan, lapse of appropriations means a lack of enacted appropriations law AND DFC has exhausted its carryforward balances.

will be placed on the DFC externally facing website. Employees will be advised to check the external website daily for operations updates.

IAA funded employees are subject to instructions from their funding agency.

DFC's Office of Administration (OA) will inform contractors (including Personal Services Contractors) of their status under a lapse in appropriation furlough.

With the exception of staff who are on official travel, orderly shutdown activities are expected to be completed within approximately two hours of the scheduled tour of duty for non-excepted employees. Non-excepted staff who are on travel will receive instructions to return to their Duty Station and complete orderly shutdown activities as soon as possible.

4. Resuming Normal Operations

OA will utilize the DFC emergency notification system to contact employees when the agency is able to resume normal operations, and when they are expected to return to duty. Operational information will also be updated on the DFC external website.

OA will inform contractors (including Personal Services Contractors) when the agency is able to resume normal operations and provide instructions for resuming work.
