

## NCATS Strategic Planning Roundtable Discussions

### Agenda

Introductory Remarks and Vision Presentation	25 minutes
Move to Breakout 1	5 minutes
Breakout 1 Discussion	25 minutes
Return to Main Room — Move to Breakout 2	5 minutes
Breakout 2 Discussion	25 minutes
Return to Main Room — Closing Remarks	5 minutes

### Questions

#### *Icebreakers:*

1. When you think of NCATS, what words come to mind?
2. What do you think is the most important activity that NCATS does?
3. With the vision of more treatments for all people more quickly, are there particular aspects from a community standpoint that would benefit from an NCATS focus?

#### *Questions for Breakout Groups:*

1. What is the biggest opportunity you see to make progress toward bringing more treatments for all people more quickly? How would you know it is succeeding?
2. What are the unmet needs or gaps in translation (turning a research observation into a health solution) that should be addressed by NCATS?
3. What is missing with the vision of more treatments for all people more quickly and crosscutting themes and other topic areas (including key translational science topics)?
4. What else should NCATS be considering during strategic planning?
