CHANGES IN QUESTIONNAIRE CONTENT BETWEEN ROUNDS 2 AND 3

CHANGES IN QUESTIONNAIRE CONTENT BETWEEN ROUNDS 2 AND 3

Item	Problem / Issue	Revision
Section B		
B28. {Have you/Has name} been looking for work during the last four weeks?	SSA wanted to gather more in-depth data from respondents who were not currently working to determine why they were not working.	For those not working but who were looking for work, items B28-B29_6 were added to the questionnaire. Other items in section B were moved to accommodate these changes. See the full survey instrument for complete wording and skip patterns.
B28a. Are {you/NAME} looking for part-time or full-time work?		
B28b. About how many hours per week would {you/NAME} like to work?		
B29_1a. {Have/Has} {you/NAME} received any job offers within the past four weeks?		
B29_1b. Did {you/NAME} turn any of these job offers down?		
B29_2. Now, I am going to read you a list of reasons why people sometimes do not accept a job offer. Please tell me if any of these are reasons why {you/NAME} did not accept a job that {you/he/she} {were/was} offered in the past four weeks.		
B29_3a. You said that one of the reasons you did not accept a job you were offered was because it did not pay enough. What is the lowest wage or salary you would have accepted for this job?		
B29_3b. If you did get a job offer that matched your current needs and abilities, what is the lowest wage or salary		

Item	Problem / Issue	Revision

you would be willing to accept for such a job?

B29_4a. How many hours per week would you expect to work for this amount of pay?

B29_4b. Would you expect to work full-time or part-time?

B29_5. You said that one of the reasons {you/NAME} did not accept a job offer was because {you/NAME} would have lost benefits {you/he/she} needed such as Social Security, disability insurance, workers' compensation, or Medicaid. There are many ways people find out about how working will affect their benefits. For example, some people call the Social Security office, some search on the Internet, and others contact disability service organizations. Did {you/NAME} contact anyone or do any of these things in order to find out how {your/his/her} benefits would be affected if {you/he/she} went to work?

B29_6. What benefits {were/was} {you/NAME} most worried about losing?

B29_7. Now I am going to read you a list of reasons why people are sometimes unable to find a job. Please tell me if any of these are reasons why {you/NAME} {have/has} not found a job that {you/he/she} {think/thinks} is right for {you/him/her}.

For those not working and looking for work, but not offered a job, items B29_7-B29_10 were added to the questionnaire.

B29_8a. You said that one of the reasons you are unable to find a job is that the jobs that are available to you do not pay enough. What is the lowest wage or salary you would accept for a job that matched your current needs and abilities?

B28_8b. If you did get a job offer that matched your current needs and abilities, what is the lowest wage or salary

Item	Problem / Issue	Revision

you would be swilling to accept for such a job?

B29_8c. How many hour per week would you expect to work for this amount of pay?

B28_8d. Would you expect to work full-time or part-time?

B29_9. You said that one of the reasons {you/NAME} did not accept a job offer was because {you/NAME} would have lost benefits {you/he/she} needed such as Social Security, disability insurance, workers' compensation, or Medicaid. There are many ways people find out about how working will affect their benefits. For example, some people call the Social Security office, some search on the Internet, and others contact disability service organizations. Did {you/NAME} contact anyone or do any of these things in order to find out how {your/his/her} benefits would be affected if {you/he/she} did go to work?

B29_10. What benefits {were/was} {you/NAME} most worried about losing?

B29_11a. You said that one of the reasons {you/NAME} did not accept a job offer was because {you/NAME} would have lost benefits {you/he/she} needed such as Social Security, disability insurance, workers' compensation, or Medicaid. There are many ways people find out about how working will affect their benefits. Did {you/NAME} contact anyone or do any of these things in order to find out how {your/his/her} benefits would be affected if {you/he/she} went to work?

For those not working and not looking for work, items B29_11a-B29_12c were added to the questionnaire.

B29_11b. What benefits {were/was} {you/NAME} most

worried about losing?

B29_12a. If you did get a job offer that matched your current needs and abilities, what is the lowest wage or salary you would be swilling to accept for such a job?

B29_12b. How many hour per week would you expect to work for this amount of pay?

B29_12c. Would you expect to work full-time or part-time?

Section C

Item	Problem / Issue	Revision
C39a2. Sometimes people work fewer hours or earn less money than they could in order to care for family members, keep the cash benefits they need, or just to have more free time. In {you/NAME's} {main/current} job, {do you/does he/does he} work fewer hours or earn less money than {you/he/she} could for any reason?	SSA wanted to learn more about under-employment and whether it is related to fear of losing benefits for those who are currently employed. These questions had been asked only of beneficiaries who were not currently working but who worked in the prior year in survey rounds 1 and 2.	Items C39_a2-C39_6 were added at the end of section C. These items are comparable to those asked at the end of section D.

C39b. {Do you/Does NAME} work fewer hours or earn less money than {you/he/she} could because {you/he/she}…

C39_1. Have any of {your/NAME'S} disability-related benefits been reduced or ended because of {you/his/her} {main/current} job?

C39_2. What benefits have been reduced or ended as a result of {your/NAME'S} {main/current} job?

C39_3. Now, I am going to read you a list of things that sometimes help people to work more hours or earn more money. If any of these do not apply to {you/NAME}, please just say so. At {your/NAME'S} {main/current} job, do you think that {you/she/he} could work or earn more if {you/he/she} had…

Item	Problem / Issue	Revision
C39_4. One last question about {your/NAME's} {main/current} job. Because of {your/his/her} work, has Social Security needed to make any changes to the amount of {you/his/her} disability benefits?		
C39_4a. Because of these changes has the Social Security Administration paid {you/NAME} the wrong benefit amount?		
C39_5. {Were you/Was NAME} asked to re-pay benefits because the Social Security Administration overpaid {you/him/her}?		
C39_6. {Were you/Was NAME} asked to re-pay the Social Security Administration because {you were/he was/she was} working while receiving benefits?		

Section D

Item	Problem / Issue	Revision
D25_1. Were any of {your/NAME's} disability-related benefits reduced or ended as a result of {you/his/her} working in 2005?	SSA wanted to learn more about the impact of loss or reduction of benefits as a result of working in the prior year.	Items D25_1-D25_2 were added to section D.
D25_2. What benefits were reduced or ended as a result of {your/NAME's} job in 2005?		

Section L

Item	Problem / Issue	Revision
L25. These next two questions are about the impact that Hurricanes Katrina and Rita have had on {you/NAME}. In 2005, as a result of either Hurricane Katrina or Rita, were {you/NAME} forced to leave the place {you were/he was/she was} living for a period of 1 month or longer?	Because Hurricanes Katrina and Rita occurred in 2005, we wanted to assess the impact of these natural disasters on employment in that year.	Items L25 and L26 were added to section L.
L26. In 2005, did {you/NAME} lose {your/his/her} job as a result of Hurricane Katrina or Hurricane Rita?		

Item	Problem / Issue	Revision

Section M

M10a.   Thank you very much for taking part in this survey. Because people like you are such a valued part of what we do, I'd like you to think about the survey you just participated in. On a scale of 1 to 10 where 1 means "it was not a good use of time" and 10 means "it was a good use of time", which number between 1 and 10 best describes how you feel about your experience today?

APPENDIX C

REVISIONS MADE FOR THE LONGITUDINAL SAMPLE

Round 2 Item	Problem / Issue	Revision
Section B		
B1. Does a physical or mental condition limit the kind or amount of work or other daily activities {you/NAME} can do? B3. {Do you/Does NAME} **currently** have any other physical or mental conditions that limit the kind or amount of work or other daily activities {you/he/she} can do?	Longitudinal respondents might be concerned that they were being asked some of the same questions they had been asked at round 1 or round 2. In particular, it may be awkward to ask respondents to report again on their physical and mental health conditions.	The following introductory text was included at the beginning of this module at round 2 for respondents who completed a prior round: "Thank you for agreeing to participate in the National Beneficiary Survey. The survey will cover questions that will help us learn about changes in {your/NAME's} life since the last interview. Your answers are very important to the Social Security Administration. The first questions are about how {your/NAME's} health affects {your/his/her} daily activities. The following introductory text was included at the beginning of this item for respondents who completed a prior round: "Last year, we asked about physical or mental condition(s) that limited {your/NAME's} ability to work or do other daily activities. We need to ask these questions again to be sure we have up to date information." Additionally the word "currently" was added to questions B1 and B3, for example "Does a physical or mental condition **currently** limit the kind or amount of work or other daily activities {you/NAME} can do?"
B9. {Have you/Has NAME} received disability benefits from Social Security at any time during the last five years? B10. We are only interviewing people who have received disability benefits in the past five years. I need to check with my supervisor and get back to you. Thank you for your help. B11. {Do you/Does NAME} still have the physical or mental conditions that made {you/him/her} eligible for Social	Questions B9 through B14 established survey eligibility in round 1 and 2, but there was no need to establish eligibility for respondents who completed a prior round.	B9- B14 were not re-asked for respondents who completed round 1 or round 2.

Round 2 Item	Problem / Issue	Revision
Security disability benefits?		
B12. What physical or mental condition is the main reason {you were/NAME was} eligible for disability benefits?		
B13. {Do you/Does NAME} have any other physical or mental conditions that made {you/him/her} eligible for disability benefits?		
B14. What are those conditions?		
B15. What physical or mental condition was the main reason {you were/NAME was} limited when {you/he/she} first started getting disability benefits from Social Security?	Questions B15 through B23 established the disabling condition(s) that the sample member had when he/she first started receiving benefits, the age at which he/she first became limited, and whether he/she was working at a job when he/she first became limited. Answers to these items were unlikely to change over time.	These items were skipped for longitudinal cases who completed round 1 or 2.
B16. Did {you/NAME} have any other physical or mental conditions that limited the kind or amount of work or other daily activities {you/he/she} could do when {you/he/she} first started getting disability benefits?		
B17. What were those conditions?		
B18_age&B18year. How old {were you/was NAME} when {you/he/she} first became limited in the kind or amount of work or other daily activities {you/he/she} could do? Your best estimate is fine.		
B19. Did {you/NAME} become limited before the age of 18 or after age 18?		
B22. {Were you/Was NAME} working at a job for pay when {you/he/she} first became limited?		
B23. Did the job {you/NAME} had at that time require {you/him/her} to use a computer?		

Round 2 Item	Problem / Issue	Revision
B36. {Have you/Has NAME} ever worked for pay?	For the longitudinal sample, question B36 would only identify respondents who have worked in the last year. However, question B30 captures this same information for the longitudinal group.	B36 was skipped for longitudinal participants who completed round 1 or round 2.

Section E

E3. {Have you/Has NAME} ever heard of a Plan for Achieving Self-Support or a PASS Plan? This is a Social Security incentive that lets {you/beneficiaries} set aside money to be used to help {you/them} reach a work goal. The money set aside does not affect {your/their} benefits.	In Section E of the round 1 and round 2 questionnaire, longitudinal participants reported whether or not they had heard of the various SSA work incentive programs. Reporting awareness of these programs in round 3 may be biased by exposure to these items in round 1 or round 2.	Longitudinal cases who completed a prior round were skipped the program awareness items at round 3. However, because use can vary over time, we continued to ask longitudinal beneficiaries if they had used any of these programs during 2005. Program definitions were added to the "ever used" items for the longitudinal cases.
E5. {Have you/Has NAME} ever heard of the **earned income exclusion** or the **1 for 2 earnings** exclusion? This is a Social Security incentive where one-half of {your/a beneficiary's} earnings over $85 are not counted when Social Security figures {your/the} benefit.		Due to a programming error at round 1, some respondents inappropriately skipped the awareness and use questions. This subset of longitudinal respondents received both the "ever heard of" and "ever used" questions at round 3 if they had not completed a round 2 interview.
E7. {Have you/Has NAME} ever heard of **Property Essential to Self-Support**, or <u>PESS</u>? This is a Social Security incentive where the dollar value of tools, equipment, or other property needed for {your/a beneficiary's} work is excluded when Social Security figures {your/the} benefit.		
E9. {Have you/Has NAME} ever heard of **Continued Medicaid Eligibility** or **1619(b) coverage**? This is a Social Security incentive that lets {you/beneficiaries} keep {your/their} Medicaid insurance after {you/they} go to work, even if {your/their} benefits have stopped.		

Round 2 Item	Problem / Issue	Revision

E12. {Have you/Has NAME} ever heard of the **student earned-income exclusion**? This is a Social Security incentive where if {you are/a beneficiary is} in school, up to $1,340 of earnings per month are not counted when Social Security figures {your/the} benefit.

E15. {Have you/Has NAME} ever heard of a Trial Work Period? This is a Social Security incentive that lets {you/beneficiaries} earn above $800 per month for nine months without losing {your/their} benefits.

E17. {Have you/Has NAME} ever heard of an **Extended Period of Eligibility for Medicare**?   This is a Social Security incentive that lets {you/beneficiaries} keep Medicare coverage when {you/they} go to work, even if {your/their} benefits have stopped.

E19. {Have you/Has NAME} ever heard of exclusions for Impairment-Related Work Expenses or Blind Work Expenses? This is a Social Security incentive where the value of certain impairment-related items is not counted when figuring {your/a person's} benefits and eligibility.

E20a. {Have you/Has NAME} ever heard of **Expedited Reinstatement**? This is a Social Security incentive that lets beneficiaries restart their benefits without having to complete a new application if their attempts at work are not successful.

E20c. {Have you/Has NAME} ever heard of **benefit specialists or BPAOs**? These are programs funded by Social Security to provide information to beneficiaries about how their benefits are affected by work.

Round 2 Item	Problem / Issue	Revision
E26. In what year did {you/NAME or his/her representative} **first** hear about the Ticket to Work program?	Question E26 was designed to capture whether or not the sample member's exposure to the Ticket to Work program was within the one-year recall period. This item was no longer relevant for longitudinal cases who completed a prior round.	This question was skipped for the longitudinal sample members who completed round 1 or round 2.
E27. Now I would like to know **how** {you/NAME or his/her representative} first heard about the Ticket to Work program. Did {you/NAME or his/her representative} receive information in the mail?	Questions E27 through E35 ask how the sample member first heard about the Ticket to Work program (e.g., by phone, mail, etc.). Because these questions ask about one-time events, they should not change over time.	These questions were skipped for the longitudinal sample members who completed round 1 or round 2.
E28 Who sent {you/NAME or his/her representative} the information?		
E29. Did somebody call {you/NAME or his/her representative}?		
E30. Who called {you/NAME or his/her representative}?		
E31. Did somebody talk to {you/NAME or his/her representative} about the program in-person?		
E32. Who talked to {you/NAME or his/her representative} about the program?		
E33. Did {you/NAME or his/her representative} learn about the program on a web site?		
E34. Do you recall {NAME} getting a Ticket in the mail from Social Security? It looks like a certificate with blue and red writing and the title says 'Ticket to Work and Self-Sufficiency'.		
E35. Did {you/NAME} ever try to get a Ticket from Social Security or anywhere else?		

Round 2 Item	Problem / Issue	Revision
E36. {Have you/Has NAME} ever used {your/his/her} Ticket to sign up with an Employment Network?	Since longitudinal respondents had already answered this item at a previous round, only Ticket use in the past year would not be known.	This question was skipped for longitudinal sample members who completed a prior round. All longitudinal cases who reported being aware of Ticket To Work were asked if they were signed up with an EN in 2005.
E37a. Now I am going to ask about {your/NAME's} Ticket use in 2004. When we interviewed you last year, you said {you were /NAME was} signed up with {EN FROM ROUND 1 E39 OR E46 WHEN E41=01 OR E45=01}. {Are you/Is NAME} currently signed up with {EN FROM ROUND 1 E39 OR E46 WHEN E41=01 OR E45=01}? E37. Now I am going to ask you about {your/NAME's} Ticket use in 2004. {Were you/Was NAME} signed up with any Employment Networks or a State Vocational Rehabilitation Agency at any time in 2004?	If respondents reported being signed up with an Employment Network (EN) in 2004 (at round 2), we wanted to refer to this EN and ask respondents if they were still signed up with this EN in 2005.	We added the following transitional text before question E37: "Now I am going to ask you about your Ticket use in 2005." If respondents reported being signed up with an Employment Network (EN) in 2004 at round 2, they received items E37a , E37Amth, E37ayr, E37a0, E37a1, and E37b instead of items E37, E38, E39, E40mth, E40yr, E41, E42mth, E42yr, and E43. If respondents were not signed up with an EN in 2004, they skipped to E37.
E48. {Have you/Has NAME} ever used {your/his/her} Ticket to sign up with any other Employment Networks that we haven't yet talked about? E49. How many other Employment Networks {have you/has NAME} been signed up with? E50mth. The Ticket to Work program started in 2001. In what month and year did {you/NAME} **first** use {your/his/her} Ticket to sign up with an Employment Network? E50yr. PROBE: The Ticket to Work program started in 2001. In what month and year did {you/NAME} **first** use {your/his/her} Ticket to sign up with an Employment Network?	Longitudinal participants will have already reported on all Employment Networks at round 2.	Questions E48 through E50yr were skipped for the longitudinal sample members who completed round 2.

Round 2 Item	Problem / Issue	Revision

Section G

G1. First, I will ask about **employment services** {you/NAME} may have received.

(IF DISABLED BEFORE AGE 16 (B18_AGE < 16 OR IF BIRTHYEAR – B18_YEAR <16)) Since age 16, {have you/has NAME} received any employment services to help {you/him/her} get a job?

(IF DISABLED AT AGE 16 OR LATER (B18_AGE ≥ 16 OR IF BIRTHYEAR - B18_YEAR ≥ 16)) Since becoming disabled, {have you/has NAME} received any employment services to help {you/him/her} get a job?

Information would be duplicated if longitudinal sample members were again asked if they had received employment, job training, medical services, mental health care, or been enrolled in school since becoming disabled (or since age 16).

For longitudinal sample members who completed a prior round, these questions were revised to focus on employment-related services received in 2005 only (for example "Thinking about 2005, did you receive any employment services to help you get a job?").

G10. Sometimes people get training to help them learn new skills so they can get a new job or change careers.

(IF DISABLED BEFORE AGE 16 (B18_AGE < 16 OR IF BIRTHYEAR – B18_YEAR <16)) Since age 16, {have you/has NAME} received any training to help {you/him/her} get a new job or change careers?

(IF DISABLED AT AGE 16 OR LATER (B18_AGE ≥ 16 OR IF BIRTHYEAR - B18_YEAR ≥ 16)) Since becoming disabled, {have you/has NAME} received any training to help {you/him/her} get a new job or change careers?

G15. Sometimes people with disabilities receive medical services to improve their ability to work or help them live independently. Some examples of these services are physical therapy, surgery, and help getting special equipment or devices.

(IF DISABLED BEFORE AGE 16 (B18_AGE < 16 OR IF BIRTHYEAR – B18_YEAR <16)) Since age 16, {have you/has NAME} received any medical services to improve {your /his/her} ability to work or live

independently?

(IF DISABLED AT AGE 16 OR LATER (B18_AGE ≥ 16 OR IF BIRTHYEAR - B18_YEAR ≥ 16)) Since becoming disabled, {have you/has NAME} received any medical services to improve {your/his/her} ability to work or live independently?

G19. Sometimes people go to a mental health professional to get therapy or counseling to improve their ability to work or live independently.

(IF DISABLED BEFORE AGE 16 (B18_AGE < 16 OR IF BIRTHYEAR – B18_YEAR <16)) Since age 16, {have you/has NAME} received mental health therapy or counseling to improve {your/his/her} ability to work or live independently? This could include treatment for alcohol or drug abuse.

(IF DISABLED AT AGE 16 OR LATER (B18_AGE ≥ 16 OR IF BIRTHYEAR - B18_YEAR ≥ 16)) Since becoming disabled, {have you/has NAME} received mental health therapy or counseling to improve {your/his/her} ability to work or live independently? This could include treatment for alcohol or drug abuse.

G23. (IF DISABLED BEFORE AGE 16 (B18_AGE < 16 OR IF BIRTHYEAR – B18_YEAR <16)) Since age 16, {have you/has NAME} enrolled in school or taken any classes to help {you/him/her} get a new job or change careers? Please do not include any training you have already told me about.

(IF DISABLED AT AGE 16 OR LATER (B18_AGE ≥ 16 OR IF BIRTHYEAR - B18_YEAR ≥ 16)) Since becoming disabled, {have you/has NAME} enrolled in school or taken any classes to help {you/him/her} get a new job or change careers? Please do not include any training you have already told me about.

Round 2 Item	Problem / Issue	Revision
G33. Think about all the services {you/NAME} received from {PROVIDER FROM G30_1 DE-DUPLICATED LIST}. In what year did {you/he/she} **last** receive services from {PROVIDER FROM G30_1 DE-DUPLICATED LIST}? Was it in 2006, in 2005, or before 2005?	Questions G33, G34, and G35 ask respondents to report the time period in which they received services from each provider reported in Section G.	Since longitudinal respondents were only asked about services received in 2005, these items were skipped for sample members who completed a prior round.
G34. Was it: Within the last 2 years, 2 to 5 years ago, 5 to 10 years ago, or More than 10 years ago?		
G35. Did {you/NAME} receive services from {PROVIDER FROM G30_1 DE-DUPLICATED LIST} at any time in 2005?		

Section L

L1: What is your ethnic background?	Answers to these questions should not change over time.	These questions were skipped for longitudinal sample members who completed a prior round.
L2: What is your race?		
L4: What is the highest year or grade your father finished in school?		
L5: What is the highest year or grade your mother finished in school?

DESCRIPTION OF CONSTRUCTED VARIABLES

PAGE IS INTENTIONALLY LEFT BLANK TO ALLOW FOR DOUBLE-SIDED COPYING

DESCRIPTION OF CONSTRUCTED VARIABLES

Variable Name	Description
Sampling Variables and Administrative Variables Used in Survey Administration	
OrgSampInfo_age	Age of sample member at time of sample selection. Based on date of birth from SSA administrative records.
OrgSampInfo_Bstatus	Indicates whether sample member receives SSI, SSDI, or both SSI and SSDI. From SSA administrative records.
OrgSampInfo_DOB	Sample member date of birth from SAS administrative records.
OrgSampInfo_Phase	Ticket to Work roll-out phase state from SSA administrative records. Note that for the Participant sample, the target population is comprised of individuals who were participants in the Phase 3 states (based on address at time of roll-out) as well as the Phase 1 and Phase 2 longitudinal cases and a Phase 3 supplement.
OrgSampInfo_PSU	Sampling PSU. For beneficiaries, based on zipcode as of June of the year they were sampled. For participants, sample PSU is based on the zipcode at the time the ticket was assigned.
OrgSampInfo_Release	Sample release number.
OrgSampInfo_SDate	Date sample frame pulled.
OrgSampInfo_SSIAge	Age began receiving SSI benefits. From SSA administrative records.
OrgSampInfo_Ssidate	Date began receiving SSI benefits. From SSA administrative records.
OrgSampInfo_Tstatus	Indicates whether sample member was a Ticket to Work Participant at the time of sample selection.
A_PSU	Analytical PSU for variance estimation using SUDAAN. For clustered samples (beneficiaries and participants) A_PSU = PSU identifier. For unclustered Participant sample A_PSU = linkid.
A_Strata	Analytical strata for Beneficiary and Participant samples for variance estimation using SUDAAN. For A_strata the first digit=R3_Orgsampinfo_phase. Among clustered cases (including all cases in the Beneficiary and Traditional payment Ticket Participant samples) all remaining digits are 0. Among unclustered cases in the participant sample, the second digit=R3_C_Paymenttype, the third digit indicates whether the unclustered case was in a psu, and the fourth digit=R3_Frame.
C_Cohort	Age cohort sampling strata for Beneficiary sample. Based on date of birth from SSA administrative records.
C_PaymentType	Sampling strata variable for Ticket Participant sample. Indicates Employment Network payment type. From SSA administrative records.
Flagparti	For use with the combined Beneficiary and Ticket Participant sample weight. Identifies Ticket participants who also appear in the Beneficiary sample.

Variable Name	Description
Clus	Indicates whether the case was in the clustered or unclustered sample. All cases in the Beneficiary sample and Traditional payment Ticket Participant sample are clustered. The Phase 2 Outcomes Only and Milestone and Outcome Participant sample includes both a clustered and unclustered component. Similarly, the Phase 1 and Phase 3 Outcomes Only Participant samples include both a clustered and unclustered component.
Uncinpsu	Among unclustered cases, indicates whether the case was located in a psu or not. For this variable, "0" indicates either an unclustered case that was not in a psu, or a clustered case.
R1long	Indicates if the SM was in the Phase 1 longitudinal sample.
R2long	Indicates if the SM was in the Phase 2 longitudinal sample.
R3cs	Indicates whether or not the case is in the Round 3 cross-sectional sample. Only participants who were on the frame at Round 3 (participating in TTW in 2005) are in the cross-sectional sample. Phase 2 Longitudinal participants on the frame at Round 2 but not Round 3 are not part of the cross-sectional sample. Phase 1 participants are also not part of the Round 3 cross-sectional sample.
Frame	Frame=1 if the participant was on the frame at Round 1. Frame=2 if the participant was on the frame at Round 2, whether or not they were selected for the sample at Round 2. Frame=3 if the participant was "new" at Round 3 that is were not on the Round 1or 2 frame but were on the frame at Round 3 (participant in 2005).
Survey Administration Variables	
C_Rtype	Indicates whether interview conducted by sample person or proxy. Based on M11.

C_IntMode	Indicates whether interview conducted via CATI or CAPI.
C_IntAge	Sample member age at interview. Based on date of interview minus self-reported date of birth at A68 or A69.
C_IntDay	Interview day.
C_IntMnth	Interview month.
C_IntYear	Interview year.
Final	Final disposition code
StatusR1R2R3	Indicates whether or not a sample member was in the sample and interviewed at Round 3
Fixe2	Longitudinal Case Eligible but Skipped E3 thru E13 at R1, Asked at R2
Fixe11	Longitudinal Case Eligible but Skipped E12 and E13 at R1, Asked at R2
Fixe14	Longitudinal Case Eligible but Skipped E15 thru E18 at R1, Asked at R2
EN2005	This variable indicates if the sample member, at Round 2, was signed up with one or more EN in 2005. R2_EN2005 is used as part of the skip logic in Section E.

Variable Name	Description
ENstmth	This variable indicates what month the sample member reported first using his/her Ticket with the EN(s) he/she was signed up with 2005. R3_ENSTMTH is used with R3_ENSTYR to determine which EN the sample member has been signed up with the longest.
ENstyr	This variable indicates what year the sample member reported first using his/her Ticket with the EN(s) he/she was signed up with 2005. R3_ENSTYR is used with R3_ENSTMTH to determine which EN the sample member has been signed up with the longest.
Prev_Part	This variable indicates if the sample member, at Round 1 or 2, reported that they had ever used his/her Ticket to sign up with an Employment Network. R3_Prev_Part is used at part of the skip logic in Section H.
R2E37	This variable indicates if the sample member reported, in Round 2, being signed up with any ENs at any time in 2005. R3_R2E37 is used as part of the skip logic in Section H.
R2E47YR	This variable indicates if the sample member, at Round 2, reported first using his/her Ticket with his/her current EN(s) in 2005. R3_R2E47YR is used as part of the skip logic in Section H.
Weights	
Wtr3_Ben	Weights created for beneficiary sample analyses.
Wtr3_Com	Weights created for combined beneficiary and participant sample analyses.
Wtr3cs_Par	Weights created for participant sample analyses.
Section B Variables: Disability and Current Work Status	
C_DisAge	Indicates age the sample person became disabled. Based on B18_age and B18_yr.
C_AdultChild_Onset	Indicates whether onset of disability was prior to age 18 or at age 18 and older. Based on B19 and C_Disage.
C_WrkdWhenLim	Indicates whether sample person was working at time became disabled. Based on B22 and C_AdultChildOnset.

APPENDIX L

SAMPLING VARIANCE ESTIMATION AND SAMPLE SUDAAN AND SAS STATEMENTS

SAMPLING VARIANCE ESTIMATION AND SAMPLE SUDAAN STATEMENTS

The computation of an estimate of a population characteristic (such as the proportion of Ticket participants who receive specific services) can be performed using the sampling weights and routines available in most statistical software or computer programs. Measures of the reliability of this estimate require the computation of the sampling variance. As described in Chapter VIII, the design-based sampling variance of an estimate derived from survey data for a statistic is a measure of the random variation among estimates of the same statistic computed over repeated implementation of the same sample design with the same sample size on the same population. The sampling variance is a function of the population characteristics, the form of the statistic, and the nature of the sampling design. Only some statistical software has the capability to compute the design-based sampling variance.

There are a number of releases of the software for survey data analysis, running on several different platforms. Although the same procedure statements are used, there can be enhancements or subtle differences from one release to the next, particularly in reading and writing external data files. The statements displayed in the examples in this appendix are tailored for SUDAAN Release 9.0.0, SAS-Callable for Windows, and for SAS version 9.1. The user should take this into consideration when using these examples or parts of these examples verbatim.

Currently, more survey data analysis software packages use the Taylor series linearization procedure and explicit sampling variance equations. Therefore, we developed the variance estimation specifications necessary for the Taylor series linearization procedure (PseudoStrata and PseudoPSU). The example procedures represent relatively simple, straightforward applications. The options (various parameters, test statistics, etc.) in the sample programs may

not be suitable for all your needs. Likewise, particular types of analyses may require options that are not displayed in the sample program statements. Our intention is not to suggest analytical approaches but to provide the key parameters that capture the relevant characteristics of the sample design. These parameters are found in the SUDAAN *design, weight, and nest* statements, and the SAS *weight, strata, and cluster* statements.[1] In addition, the examples are limited to simple descriptive procedures for producing means or percentages. The same sample design parameters used for descriptive procedures are used for more complex estimation procedures such as regression or logit.

The NBS is made up of two samples, the Representative Beneficiary Sample and the Ticket Participant Sample, each of which can be used for certain types of analyses. The Ticket Participant Sample is a subgroup of beneficiaries living in Phase 2 and Phase 3 states who used the ticket at least once between January 1, 2005 and October 2, 2005. The Representative Beneficiary Sample is a nationally representative sample of SSI and DI beneficiaries who were in active pay status as of June 2005. Each sample requires different sample design statements and weights. The user is encouraged to review the tables in Chapter III, which indicate the appropriate weights for Ticket Participant and Representative Beneficiary analyses. Table 4.1 from Chapter IV explains how to choose the design variables appropriate for each type of estimate.

The following examples are provided:

1. National estimates
- Beneficiaries who have ever worked (R3_C_EvrWorked)

---

[1] The *strata* and *cluster* statements in SAS perform the same function as the *nest* statement in SUDAAN. *Weight* has the same function in the two software packages. There is no equivalent statement in SAS to the *design* statement in SUDAAN, which allows for sampling with or without replacement. SAS assumes sampling with replacement, unless the TOTAL= option is implemented. In the NBS, sampling is done with replacement.

- Beneficiaries using employment related services in 2005 (R3_C_SERVUSE2005)

2. TTW participant estimates

- Estimate of ticket participants currently working (R3_B24_i)

- Number of ticket participants with ticket assigned to an Employment Network in 2005 (R3_E37)

Preprocessing or recoding may be required for some variables because of missing data. Missing data in the NBS files are assigned a value of .D, (don't know) .R. (refused), .M (missing), .L (logical skip), or .P (partial completed).

Classification variables (identified by the SUBGROUP statement in SUDAAN and the DOMAIN statement in SAS) with zero or negative values will be treated by SUDAAN as missing and dropped from the procedure. This is not true for SAS, where the zero or negative values will be treated the same as positive values for the classification variable. This also does not hold true for analysis variables for either SAS or SUDAAN (VAR for both) where zero or negative values are valid. Records with zero weights will automatically be excluded from estimates produced in SUDAAN and SAS procedures.

When using SUDAAN or SAS, the full sample should be processed even when analyses are limited to subgroups or subpopulations. This is to ensure the correct computation of the sampling variance. The SUDAAN statement SUBPOPN should be used to identify the specific analytic subpopulation of interest. The target population can be broken into desired subpopulations using the DOMAIN statement in SAS, though analysis is not limited to the single subpopulation of interest. The sampling variance estimates that SAS and SUDAAN compute may be wrong if the file is reduced to a specific subpopulation prior to running the procedure.

1. National Estimates

This example estimates the percentage of beneficiaries who have ever worked and ever used services in 2005. Standard errors of the percentages, unweighted and weighted population counts, and sample design effects are also included in the output. SUDAAN reads only the 2,508 observations for the National Beneficiary Sample; the other 4,097 observations are skipped because the weight variable R3_wtr3_ben is nonpositive.

- Use the Representative Beneficiary Sample to provide an estimate of R3_C_EvrWorked (ever worked for pay).
- Use the Representative Beneficiary Sample to provide an estimate of R3_C_SERVUSE2005 (Used services in 2005).

Nest Variables Used for Cross-Sectional Estimates

A_STRATA
    1. Clustered samples for both beneficiaries and participants
        a. A_STRATA = 1000 for PSUs in Phase 1 states
        b. A_STRATA = 2000 for PSUs in Phase 2 states
        c. A_STRATA = 3000 for PSUs in Phase 3 states

A_PSU
    1. Clustered sample cases both beneficiaries and participants cross-sectional samples
        A_PSU = PSU identifier
    2. Unclustered sample cases in Milestone-outcome and Outcome-only Phase 2 participants
       and Outcome-only Phase 3 participants cross-sectional samples
        A_PSU = MPR_ID

Notes:

1. Before each SUDAAN procedure, sort by R2_A_STRATA and R2_A_PSU. Sorting is not required in SAS.

2. Use SUDAAN's SUBPOP statement to define population for which estimates are wanted. For example, for estimates of SSI participant population, use SUBPOP to define SSI participants. In SAS, you must use the DOMAIN statement to identify subpopulations of interest. For example, suppose the variable BENETYPE indicates the type of beneficiary, with 3 levels: SSI, SSDI, and both SSI and SSDI. If you want an estimate involving the subpopulation of all SSI beneficiaries, then you would need to create a second variable, BENETYPE2, combining the two relevant levels of BENETYPE, then use DOMAIN with the BENETYPE2 variable to obtain the needed estimate.

2. Ticket Participant Estimates

    This example estimates the percentage of TTW participants working at the time of interview

and the number of participants with a ticket assigned to an Employment Network in 2005.

Standard errors of the percentages, unweighted and weighted population counts, and sample

design effects are also included in the output. SUDAAN reads only the 4,097 observations for

the Ticket Participant Sample; the other 2,508 observations are skipped because the weight

variable Wtr3_par is nonpositive.

- Use the Ticket Participant Sample to an provide estimate of R3_B24_i (currently working, imputed).

- Use the Ticket Participant Sample to an provide estimate of R3_E37 (number of participants with ticket assigned to an Employment Network in 2005).
