SOURCE: Social Security Administration, Master Beneficiary Record, 100 percent data.

NOTES: Because of differences in data sources and calculation methods, statistics reported in this table may differ from those reported by the Office of the Chief Actuary.

Effective 2001, the Social Security Administration initiated a special review of 130,000 Supplemental Security Income (SSI) recipients who were potentially eligible for Social Security disability benefits because of earnings while receiving SSI. Many of these claims awarded since 2001 were for individuals under the age of 35 who were diagnosed with a mental disorder.

(L) = less than 0.05 percent; (X) = suppressed to avoid disclosing information about particular individuals.
